This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Annual Report of the City Recorder.

Digitized by Google

Digitized by Google

To the Select and Common Councils of the City of Allegheny:

GENTLEMEN:—

Herewith I have the honor to submit my second report as Recorder of this city, for the close of the fiscal year ending February 28, 1903.

Within the next few weeks I shall surrender to my successor the duties of this office, and in doing so it will be with a conscious pride that notwithstanding the adverse criticisms which have been offered, I have endeavored to do my duty to the citizens in this, my native home. I knew Allegheny almost in her infancy, and I have seen her grow until she has become the third city in the greatest Commonwealth in this Union of States. A few years ago we had the most miserable streets to be found in any city. They were lighted with a miserable system of gas lamps, and both our sewerage and water systems were defective, and many of our people, because of the water, streets and lighting, were moving to the East End, Pittsburg. But since then streets have been paved, the sewerage system was improved, we installed our own electric light plant, and to-day many of those who left us because of former bad conditions prevailing, have returned. Our streets are the equal of any city in the country; the city is well lighted; we have a splendid fire department, considering the number of men employed. Our police force is equal to that of any other. We have a splendid system of parks in the heart of the city, as well as in the outlying wards; our school houses are model buildings and the High School building cannot be surpassed. And, too, we are now doing away with the death dealing grade crossings, which should and will improve the city wonderfully. Therefore, when I shall surrender the reins of government it will be with the thought, as above noted, that I have sincerely endeavored to do my whole duty. No man can please everybody, nor has such ever been done since the "morning stars sang together." When that event transpires I think we shall be approaching the millenium. I hope my

Digitized by Google

successor will receive the same loyal support from those he may call around him, as I have had from the gentlemen who for nearly two years have stood by my side.

I desire to congratulate you upon the fact that the grade crossings will soon be a thing of the past. I know that this fact will be a matter of sincere gratification to those people who were constantly called to cross the railroads. It will probably take another year, perhaps longer, for the railroad company to complete all the improvements they have in contemplation, but when they are finished they will add materially to the beauty of the city.

As you no doubt are fully aware, there is at this time a bill before the Legislature to provide a plan for the consolidation of Allegheny and Pittsburg. As to the merits of the question of consolidation, I do not care to make them a matter for discussion in this report. What is really needed is a fair law enabling the citizens of our city to vote upon the question of annexation, and any bill that does that can be considered a fair measure. If the bill pending accomplishes this it should be adopted regardless of whether or not it conforms to the views of politicians. This matter of consolidation is one of vital importance to Allegheny, and every citizen should have the right to express his opinion as to whether such is his desire or not. This is the only method by which both sides can come to an amicable understanding of the question.

In my report last year I called attention to the necessity of doing something to prevent the overflow of the rivers in the lower wards of this city. It occurs to me that in those districts floods are coming now with more frequency than is comfortable. They discommode our citizens at the time, destroy property and leave in their trail misery and sickness, and Allegheny should take decided measures of some kind to put a stop to it. I would recommend that a committee be appointed by Councils to consult with some eminent engineer as to what can be done, and estimating its probable cost. If a plan could be evolved at a cost not too exorbitant it should be adopted.

There is another matter to which I desire to direct your attention and that is a new hall where the business of the

Digitized by Google

city can be properly transacted. Of course, if it is intended, in the near future, to cast the lot of the city with Pittsburg and wipe out Allegheny's individuality, then, of course, a new City Hall would not be necessary. But if the intention is to continue the municipal government of Allegheny, then a new hall is necessary. The present building was built years ago and is anything but modern. Should a fire occur and the building be destroyed, all the municipal records would be lost, and just what that would mean to the city can be very readily seen. We have the ground where the present hall stands, and a modern fireproof building should be erected, and I earnestly recommend it be done.

There is a matter of most vital importance to our citizens to which I desire to direct your attention, and that is the government and management of the Health Bureau. My experience has led me to the conclusion that the head of that highly important Bureau of the city government should be a physician—not an inferior man, but one who is thoroughly equipped both by training and education to successfully combat the diseases which are usually prevalent in a city like Allegheny. Should any disease become epidemic he would at once understand what was necessary to be done promptly and, in addition to that, he would have supporting him the entire medical profession. The salary should be large enough to give the city the best that could be found. There is no department, in my judgment, that is of as much importance as the Health Department, for the reason that it affects all classes of society alike and is the most difficult to regulate and control. It has always appeared to me a singular condition that a layman should be called upon to exercise the functions which properly belong to a physician; and now, after years of actual experience, I am convinced beyond a doubt that the present system is wrong. I would, therefore, recommend to Councils that they pass an Ordinance prescribing that the head of the Health Bureau must be a regular physician and a graduate of one of the leading medical universities of the country. I would also recommend that the salary be made large enough to justify some first-class man in accepting the place. I feel

Digitized by Google

assured if you do this the sanitary regulations of the city will be administered in a manner that will go a long way toward preventing epidemics and largely reduce the spread of other diseases, as well as considerably reduce the amount of money heretofore required for this Bureau.

I desire in my final report to also remind you, gentlemen, that Allegheny is growing very rapidly. The cost of the buildings and alterations for the fiscal year is over $2,000,000 and therefore it will be absolutely necessary in the near future to provide more men for the police department, more men for the fire department, and also the health department. Should any trouble occur in either of these departments because of the lack of men the results would be exceedingly disastrous.

I also transmit for your consideration the reports of Henry Albrecht, Director of Department of Public Safety; D. L. Fulton, Director of Department of Public Works; John Hastings, Collector of Delinquent Taxes; A. D. Armstrong, Board of Assessors; John Hetzel, City Treasurer; James Brown, City Comptroller; Charles P. Lang, Department of Law; Barton Grubbs, Department of Charities and Correction, and the Sinking Fund Commission, together with the report of the heads of the different bureaus. The officials of the different departments of the city government have been alert in the discharge of their respective duties, and as I have stated above I shall retire in a few weeks, I desire to record, as a matter of fact, from the time I assumed the duties of this position of Recorder by appointment from Governor Stone, the gentlemen who occupy these positions have been zealous and earnest in the discharge of their duties. If there have been errors, they have been simply errors of judgment, something that comes to us all in this life.

In conclusion, gentlemen, I desire to return you my thanks for the assistance that you have invariably given me in my official capacity.

Respectfully submitted,

J. R. MURPHY,
City Recorder.

CITY'S RESOURCES.

Means on hand as a partial offset for paying this indebtedness, being the resources of the various Sinking Funds:

Sinking Fund Water Bond	$ 540,333 03
Sinking Fund Municipal Bonds	103,400 00
Sinking Fund Park Bonds	28,250 00
Sinking Fund Wharf Bonds	21,000 00
Sinking Fund Sewer Bonds	120,499 77
Sinking Fund Renewal Bonds	76,050 00
Sinking Fund Electric Light Bonds	91,133 19
Sinking Fund Highway Improvement Bonds	20,000 00
Sinking Fund California Avenue Bonds	12,650 00
Sinking Fund Street Bonds	259,333 09
Cash in General Sinking Fund	39,384 55
Cash in Interest Fund	41,304 47
	$1,353,338 10

STREET PAVING BONDS.

These are special assessment bonds, secured by assessments on the abutting property. While they cannot be considered as a part of the Funded Debt of the city, it merely pledges its faith and credit for their payment at maturity and they are issued under the provisions of an Act of the General Assembly of Pennsylvania, approved June 12th, 1893.

The following bonds were authorized during the past year:

For the Grading, Paving and Curbing of McIntyre Avenue	$ 20,635 00
For the Grading, Paving and Curbing of Chester Avenue	22,000 00
For the Grading, Paving and Curbing of Fleming Avenue	48,460 00
For the Grading, Paving and Curbing of Drum Street	7,490 00
	$98,585 00

Digitized by Google

MATURING BONDS.

Bonds maturing during the ensuing fiscal year, for which provision has been made for their redemption at maturity:

Water Bonds due July 1st, 1903	$ 64,000 00
Renewal Sewer Bonds due July 1st, 1903.	50,000 00
McClure Avenue Renewal Bonds due July 1st, 1903	13,000 00
Refunding Sewer Renewal Bonds, due November 1st, 1903	7,000 00
Water Bonds due October 1st, 1903	14,000 00
City Home Bonds due October 1st, 1903	3,000 00
Sewer Bonds due October 1st, 1903	1,000 00
Electric Light Bonds due October 1st, 1903	3,000 00
Street Bonds due October 1st, 1903	11,000 00
Public Safety Bonds due October 1st, 1903	2,000 00
	$ 168,000 00

SINKING FUND.

The balance to the credit of the Sinking Fund March 1st, 1902, amounted to	$ 465,378 87
The revenue of the Fund during the past fiscal year amounted to	234,726 23
Making the total resources of the fiscal year ending February 28th, 1903	$ 700,105 10

During the past year the Commission has paid and cancelled:

Renewal Sewer Bonds due July 1st, 1902	$ 20,000 00
Renewal Sewer Bonds due January 1st, 1903	8,000 00
California Avenue Bonds due January 1st, 1904	6,000 00
Clifton Avenue Bonds due January 1st, 1904	1,000 00
Melrose Avenue Bonds due January 1st, 1906	4,000 00
	$ 39,000 00

Digitized by Google

The Sinking Fund Commission now holds $824,204.00 bonds of the city and a cash balance of $529,134.10, making a total of cash and securities of $1,353,338.10.

The earnings of the Sinking Fund for the past year in interest were $40,284.31, and since its creation in 1880 the sum of $453,084.59.

The Commission has received during the past year interest on its surplus cash at the rate of 3.405 and 3.32 per cent. per annum, all of which will be applied to the redemption of the indebtedness of the city.

The Commission has purchased during the past year the following bonds of the city, viz:

Brighton Road Bonds	$ 147,202 00
Woodland Avenue Bonds	15,527 00
Norwood Avenue Bonds	8,242 00
	$170,971 00

Permit me, in conclusion, to extend to you and the several officials my sincere thanks for your consideration and courteous treatment during the past and former years.

Respectful reference is made to the accompanying statement showing in detail the receipts and disbursements of the city government during the year just closed.

Respectfully submitted,

JAMES BROWN,

City Comptroller.

REPORT OF THE CITY SOLICITOR.

To the Honorable John R. Murphy, City Recorder of the City of Allegheny:

SIR:—

I have the honor to present to you my second annual report as the Solicitor of the City of Allegheny.

There has been collected and paid into the treasury the sum of $56,999.74 delinquent assessments for the grading, paving, curbing, opening, widening, change of grade, etc., of the streets and alleys improved, and for sewers constructed under the Acts of Assembly relative to such matters; switch licenses, wharf rents, pole tax and many other claims and judgments in favor of the city and costs in Court cases.

This Department has also collected and paid over to the contractors many claims of sidewalks and curbing. There has been prepared and filed of record in the Prothonotary's office several hundred liens for unpaid assessments and a large number of the same satisfied of record when paid. Titles to various properties acquired by the city have been examined, abstracts thereof prepared and certified to the City Controller. Numerous Sheriff sales have been attended, claims of the city filed and assessments collected and many exceptions filed and argued in the various courts. During the year this department has again prosecuted many persons violating Acts of Assembly and ordinances relating to city affairs. Many new ordinances and amendments to old ordinances have been prepared and submitted to Councils, including a large number of those that were of vital importance and required considerable research and investigation. The machinery of government under recent legislation is now moving smoothly and very little difficulty is now experienced by the various officials in conducting the affairs of the city. Meetings of Coun-

Digitized by Google

cils and the various committees have been attended by my assistants and myself and we have made daily visits to the offices at the City Hall, as well as attending the meetings of the various boards of viewers appointed by the courts on city improvements and sewers during the year, and many cases have been tried, the most important of which are as follows:

William Lee's Estate
vs. No. 323 February Term, 1900.
City of Allegheny.

An action for damages resulting from the grading of Davis avenue. Plaintiff's claim $10,000. Verdict for the defendant.

George R. Bothwell
vs. No. 528 February Term, 1901.
City of Allegheny.

Appeal from award of viewers for Winthrop street sewer. Verdict for defendant.

V. Platz
vs. No. 112 February Term, 1901.
City of Allegheny.

Appeal from the award of the board of viewers for the grading of Virginia avenue. Claim of plaintiff, $1,000. Verdict, $550.

Clara Huddleston
vs. No. 578 August Term, 1900.
City of Allegheny.

Appeal from award of board of viewers for Jacks Run sewer. Plaintiff's claim, $7,000. Verdict, 6¼ cents.

Mary A. McFarland
vs. No. 362 July Term, 1901.
City of Allegheny.

Appeal from award of board of viewers for Termon avenue. Plaintiff's claim, $4,000. Verdict, $1,250.

Digitized by Google

Same
vs. No. 363 July Term, 1901.
Same.
Plaintiff's claim, $3,750. Verdict, $1,250.

Barbara Hendrie
vs. No. 111 February Term, 1901.
City of Allegheny.
Appeal from award of viewers for grading of Virginia avenue. Plaintiff's claim, $300. Verdict, $150.

William Henry
vs. No. 534 May Term, 1901.
City of Allegheny.
Appeal from award of viewers for Melrose avenue grading, paving and curbing. Plaintiff's claim, $3,000. Verdict, $500. On motion for new trial this verdict was set aside and verdict for plaintiff secured.

Nancy Large
vs. No. 589 August Term, 1900.
City of Allegheny.
Appeal from award of viewers for Jack's Run sewer. Plaintiff's claim, $2,000. Verdict for the city.

Laura Large
vs. No. 588 August Term, 1900.
City of Allegheny.
Plaintiff's claim, $500. Verdict in favor of the city for $62.

Nancy Large
vs. No. 300 November Term, 1901.
City of Allegheny.
An action in damages for flood from the overflowing of Jack's Run sewer. Plaintiff's claim, $2,000. Non-suit.

Elizabeth Dugan
vs. No. 360 October Term, 1901.
City of Allegheny.
Appeal from award of viewers for Forsythe street grading. Plaintiff's claim, $1,200. Verdict, $700.

Appeal from Forsythe street grading. Claim, $1,000 damages. Verdict for defendant.

During the year the Law Department also tried several cases entered against officers of the police force and other officials for illegal arrests, assault and battery, etc.

Digitized by Google

Many important views for street improvements were had during the year, which required the close attention and advice of the viewers by my assistants and myself. A detailed statement of the work of the viewers will be found under another report. Briefly, there have been petitions prepared, filed in court and viewers appointed in one hundred and fifty-six (156) cases. Of these, twenty (20) were for street openings. One (1) has been confirmed absolutely by the courts; in eleven (11) there are appeals pending and eight (8) are still pending before the viewers. There were three (3) boards of viewers appointed for cases of damage by grade. Of these, two (2) have been confirmed absolutely and one (1) was quashed.

There were forty-six (46) boards appointed for grading, paving and curbing proceedings. Of these, seventeen (17) have been confirmed absolutely, seventeen (17) have appeals pending and twelve (12) are not yet disposed of by the viewers. There have been ninety-nine (99) boards appointed for sewers. Of these, forty-seven (47) have been confirmed absolutely, four (4) quashed, thirteen (13) have appeals pending and thirty-five (35) have not yet been disposed of by the viewers.

Numerous exceptions to the reports of the boards of viewers were argued in the different courts, and the courts have uniformly sustained the city.

Suits have been entered against delinquents for switch licenses and wharf rents, which are not yet disposed of.

The collection from abutting property holders of the cost of grading Greentree avenue, which has been pending for several years in the courts has finally been decided in favor of the city by both the Superior and the Supreme Courts.

Thanking the various officials of the city and Councils for the many courtesies shown me during the past year, I am, sir,

Yours most respectfully,

CHARLES P. LANG,
City Solicitor.

REPORT OF ASSISTANT CITY SOLICITORS.

CITY OF ALLEGHENY, Pa. April 4, 1903.

Charles P. Lang, Esq., City Solicitor:

DEAR SIR:—

During the past fiscal year it has been my pleasure and duty to assist you in doing the work of the law business of the City of Allegheny. Such matters as the preparation of ordinances, trial of cases, advising Councils and committees and the various executive departments and bureaus have been allotted to me from time to time by youself and other officers of the city, and I have looked after the same as well as it was possible for me to do.

Early in the year a committee was appointed to investigate all the accounts which were due the city by the different corporations and persons occupying streets with switches or leasing portions of the wharf, and it was found that a great many accounts were open and of long standing, and these were referred to me for collection. I am not able to give the aggregate amount of these claims, but a great many cases were settled without suit, and I was able to collect for the city about $3,500 from switch license fees and wharf rents. We were compelled to bring suit against the Central District & Printing Telegraph Company and the Postal Telegraph Company for pole taxes, which the city claims are due. The amounts involved in these two cases are large and they refuse to settle. The cases are now pending in court. There has been nothing unusual referred to me, nor have I done anything but the ordinary law business of the city, such as is set forth above.

I thank you very much for your kind consideration for me during our whole term of services together.

Respectfully submitted,

T. P. TRIMBLE,
Assistant City Solicitor.

CITY OF ALLEGHENY, Pa., April 1st, 1903.

Charles P. Lang, Esq., City Solicitor:

DEAR SIR:—

I respectfully present to you the following report of my work as a member of the Legal Department during the past year:

I have collected delinquent assessments for the grading, paving, curbing, opening, widening, change of grade, etc., of the street and alleys improved and for sewers constructed, under the Acts of Assembly relative to such matters, claims for sidewalks and curbing, switch licenses, wharf rents and other claims, also judgments in favor of the city and costs in court cases.

I have filed with the City Treasurer and Controller duplicate reports each month and paid to the Treasurer the amounts collected, excepting the sidewalk and curbing claims, which are collected for the use of the respective contractors and paid to them, and for which I hold their receipts.

The following is a statement of the money I have paid into the City Treasury and for which I have the receipts of the City Treasurer:

For the month of March, 1902	$ 2,700 71
For the month of April, 1902	1,889 44
For the month of May, 1902	1,820 58
For the month of June, 1902	2,297 61
For the month of July, 1902	1,421 43
For the month of August, 1902	1,252 03
For the month of September, 1902	1,688 98
For the month of October, 1902	1,501 91
For the month of November, 1902	6,136 59
For the month of December, 1902	3,249 19
For the month of January, 1903	9,867 62
For the month of February, 1903	23,173 65
Total	$56,999 74

Digitized by Google

My accounts have been audited each month by the City Auditor and found correct, and so certified by him.

I have endeavored to make all my collections as promptly as was possible, and in most cases have been successful in doing so.

Many claims, however, cannot be collected without filing liens therefor, and I have done so in a number of cases. Many of the liens filed I have since collected in full, and the others are at various stages in their progress toward that end.

In addition to my collections I have examined several titles to property purchased by the city during the past year, and prepared deeds for property sold.

I have systematically watched the monthly Sheriff's sales of real estate. At almost every one of them property is sold against which the city has some claim, and I have made collections by compelling purchasers to bid enough to pay them. Exceptions have been filed to the Sheriff's distribution in some of the cases, which I had to argue in court.

I have made almost daily trips to City Hall, and much of my time has been occupied by a multitude of small duties for the various Departments and Bureaus, of which it would be impossible to give a detailed report.

Respectfully submitted,

CRAIG SMITH,
Assistant City Solicitor.

Digitized by Google

REPORT OF DIRECTOR OF DEPARTMENT OF PUBLIC WORKS.

To the Honorable John R. Murphy, Recorder of Allegheny, Pa.:

DEAR SIR:—

I take pleasure in making a report of the workings of the Department of Public Works since I have been appointed the Director.

Immediately upon my appointment, June 18th, 1902, I took charge of the Department and found all the Bureaus working in a harmonious and industrious manner.

The elevation and depression of the tracks of the Pennsylvania lines through Allegheny had been commenced and I take pleasure in reporting that unless for some unforeseen contingency trains will be crossing Lacock street, River avenue, Anderson, Sandusky and Federal streets on the elevation by May 1st, 1903. At the close of this fiscal year trains are running overhead across Marion avenue.

Although the work may seem slow to most people, yet it has been carried on very rapidly considering the enormity of the undertaking.

Thousands of cubic yards of concrete walls have been built and filling has been completed so that trains would now be running overhead from Allegheny river to Ridge avenue had the railroad company been able to secure the iron work for the bridges.

Work was to have been commenced in four years at McClure avenue, in the lower end of the city, but that work is now progressing rapidly and before winter arrives there is every reason to believe that all trains will be crossing McClure avenue overhead.

Digitized by Google

Ordinances have been passed changing the route of the Ohio Connecting railroad and that work is progressing nicely.

Ordinances have also been passed elevating the West Penn railroad tracks, so that with the completion of these different railroad improvements, there will be no railroads crossing any of the streets in Allegheny at grade.

In view of the many lives lost at grade crossings this city is truly very fortunate in having the end of them in sight.

The work of the Water Department is progressing very nicely. Contracts have been let for a 15,000,000 gallon pump for the Montrose Pumping Station; the Snow Pump Works, of Buffalo, N. Y., are making satisfactory progress on the same. The pump will not likely be in operation before the summer of 1904.

Boilers to take care of the additional pump at Montrose are being installed and when the additions which are under contract are completed, Montrose will be able to furnish water with its present equipment for at least 25 years to come at the present rate of increase in the population.

Contracts are let for additional pumps, boilers and an addition to the pump house on Howard street to take care of the constantly increasing population on our hill tops.

One portion of our city, namely Green Tree Hill and immediate vicinity, has been without city water. We have under contract a pumping plant on Broadway, Fifteenth Ward, tanks and pumps to supply this neighborhood.

Green Tree Hill has an elevation above low water line of 672 feet, said to be the highest point in Allegheny county.

I wish to make some comment on the enormous waste of water in our city and suggest a remedy therefor.

There are 26 cities in the United States with a population larger than Allegheny, viz., 130,000 and over. We consume 300 gallons per capita each 24 hours. This means that for every inhabitant of Allegheny we pump 300 gallons of water each day.

Of the 25 cities, 4 did not report, 9 use under 100 gallons per day, 3 use between 100 and 150 gallons per day, 5 use between 150 and 200 gallons per day, 3 use between

Digitized by Google

200 and 250 gallons per day, and Allegheny is the only one using over 250 gallons per day, her consumption averaging 300 gallons every 24 hours.

There are many reasons why we use so much water and it cannot all be attributed to the desire to eradicate the ever present coal soot which constantly falls over our city.

If this water did not all need to be raised to our reservoirs at an enormous expense it would not be so bad, but every gallon of water pumped from the river costs money and the city is now spending about $400,000 in new pumps and boilers to keep the city in water which might be saved if water was not wasted so lavishly.

There seems to be but one way to remedy this enormous waste of water and that is by installing water meters and compelling people to be careful.

If people had water meters they would use all the water they need and not have to pay more than one-half the amount they do now.

We have 35 meters in Allegheny; Cleveland, 3,230; Kansas City, 5,900; Newark, 11,000; Providence, R. I., 18,544, and Milwaukee, 31,000. Milwaukee has something over twice the population of Allegheny, and their consumption of water per capita per day is 80 gallons, while ours is 300 gallons. Their daily consumption is 24,000,000 gallons, while ours is over 38,000,000. This includes water used in their large manufacturing plants.

We cannot use water meters on account of the muddy condition of our river during a rise, but this can be obviated by the use of a large reservoir divided into sections, each division capable of holding one day's supply. It would be necessary to have a reservoir of 200,000,000 gallons capacity, so that the water would have a chance to settle several days.

Our daily consumption is now 38,000,000 gallons, and with water meters it should be reduced to 30,000,000 or even 25,000,000 in a couple of years, and with our present pumping capacity we should not need to increase the pumping machinery in many years.

One other feature is that should we have a serious accident to our main from Montrose and have to depend on the River Avenue Works, the City would soon be with-

Digitized by Google

out water, for our present reservoir holds 7,500,000 gallons, which would last about five hours.

In case of a fire the results would be terrible and I am satisfied the city would be responsible for loss of property occasioned by lack of water to put fires out.

No city should be short of at least one week's water supply in case of emergencies; they are liable to happen and the only way to prevent them is to insure against them by building a large reservoir instead of spending money for more pumps.

Such a reservoir should be built on one of the large hills just east of the city.

In the many years of municipal experience I have had I know of nothing which requires immediate attention in this city more than providing a storage of water to tide over an accident to our pumping plant.

The work of the Bureau of Engineering and Surveys has progressed nicely during the past year. Grades on many streets have been fixed, a number of public sewers have been laid and a number of streets have been paved, as reference to the detailed report will show.

The most notable streets which were completed were Brighton road and East street. These are two of the principal arteries of the city running in a northerly direction.

A brick sewer nine feet internal diameter was constructed from the old canal sewer just north of Lacock street, First Ward, to the west of Marion avenue, under the Pennsylvania Railroad lines; the rebuilding of this sewer was made necessary by the change in grade of the railroad tracks over Marion avenue.

Another department of the city which appeals directly to the people is the Bureau of Public Lighting. During the past year we have been installing new boilers, engines, dynamos and a new switchboard.

Our plant was very much overloaded when the work of reconstruction was begun. Many of our old engines and dynamos had to be moved to make room for the new material, consequently there were times when we could not use all our dynamos and a few break-downs occurred for a few hours; however nothing of a serious nature

Digitized by Google

occurred, but it shows that it is poor policy to overload any plant.

Constant demands are made on the Department for more arc lights, notwithstanding the fact that Allegheny has more lights to its area than any city in the country.

Our plant is also lighting the public schools, as well as all the Municipal buildings.

In three months the new machinery contracted for will be in place and then the city should be perfectly lighted.

Leases have been signed for the stalls and stands in our City Market running for a period of ten years. The rate has been increased 10 per cent. on most of them and a little more on the storerooms. With the exception of one or two, all the places are under lease, the first time in many years.

I will say little about the indifference of the city in the matter of improving Riverview Park, for I may be considered prejudiced. All I shall say is that the public are not provided for in this park by having shelter pavilions and having the roadways completed.

The skating lake should be increased in size and one more should be constructed in Kilbuck hollow.

A large bathing pond should be constructed, where the boys and girls could learn to swim under direction of competent instructors.

If the city possessed such a place many lives of young boys would be saved each year by teaching them how to swim in a safe pool, instead of going to the river and being drowned.

The Allegheny Observatory will be in use this year and the hill top surrounding the buildings must be graded and beautified in keeping with the handsome buildings which have been erected by a few generous citizens of Allegheny and Pittsburg.

I take this occasion to express my appreciation of the interest taken by all the Bureau Superintendents in the work of their Bureaus, and feel that the best reward they may have is knowing that their departments are in good condition, that their work has been well and faithfully done and that our city will compare favorably with any city of its size in the country, and in some respects is ahead

Digitized by Google

of most of them, even if we are handicapped in our street building and maintenance by the large hills all around us.

I desire to thank you for your co-operation and assistance in the work of this Department.

Yours respectfully,

D. L. FULTON,

Director Department of Public Works.

REPORT OF CHIEF CLERK.

DEPARTMENT OF PUBLIC WORKS,

CITY OF ALLEGHENY, Pa., March 1st, 1903.

D. L. Fulton, Esq., Director Department of Public Works:

DEAR SIR:—

I have the honor to submit to you my report of the operations of this Department from March 1st, 1902, to March 1st, 1903.

Respectfully yours,

T. L. PILLOW,
Chief Clerk.

BUREAU OF ENGINEERING AND SURVEYS.

CITY OF ALLEGHENY, Pa., March 17th, 1903.

D. L. Fulton, Esq., Director Department of Public Works:

DEAR SIR:—

I submit herewith the annual report of the Bureau of Engineering and Surveys for the fiscal year ending February 28th, 1903. Attached hereto you will find tables showing in detail the character of the work done, together with the amount and cost of street and sewer improvements.

Yours respectfully,

G. C. LANGENHEIM,
Superintendent.

DIVISION OF DEED REGISTRY.

CITY OF ALLEGHENY, Pa., March 1st, 1903.

G. C. Langenheim, Esq., Superintendent Bureau of Engineering and Surveys:

DEAR SIR:—

I have the honor to herewith submit a report of the Division of Deed Registry from March 1st, 1902, to February 28th, 1903:

Number of deeds copied, registered and indexed... 2,227
Of which 1,315 were in the Western and 912 in the Eastern District.

Number of sewer permits issued..... 415

Twenty-one (21) of the above permits were for private sewer connections at $15 each, five were for connections on Perrysville avenue at 56 cents per foot, three were for connections on Paola alley at $1 per foot, and one for connection on Craig street at $1 per foot. For all of the above sewer permits the sum of $462.09 was paid to the City Treasurer and his receipt taken therefor.

I would respectfully call your attention to the number of Deeds Registered in 1902, there being 2,227, as against 1,040 for 1898, this work has been accomplished with the same help (one clerk) as in 1898.

Respectfully submitted,

GEORGE N. LACOCK,
Registrar of Deeds.

MONTROSE PUMPING STATION.

ALLEGHENY, Pa., March 1, 1903.

Mr. J. L. Brown, Superintendent of Bureau of Water Supply and Distribution:

DEAR SIR:—

I herewith submit report of Montrose Water Works and River Avenue Pumping Station. The appended records show the amount of water pumped at both stations during the fiscal year.

The condition of engines, pumps, boilers and buildings is good, and only the necessary repairs have been made.

Very truly yours,

HENRY BREHM,

Engineer.

Mr. J. L. Brown, Superintendent Bureau of Water Supply and Distribution:

DEAR SIR:—

I herewith submit report of the Howard Street Pumping Station. The appended records will show the amount of water pumped from March 1, 1902, to March 1, 1903. The amount of water pumped with each pump, and the amount of water pumped each month, and the daily average pumpage, also the amount of coal consumed, and the average coal used per day.

The boilers have been inspected by the County and the Hartford Insurance Inspectors, who have reported them in good order and condition.

The engines and pumps at this station are in good condition at the present time. No. 2 and 3 Wilson & Snyder pumps would need new valve stems, as they have worn small, and it is very troublesome to keep them packed as they should be, and the steam valves also need overhauling. It is an impossibility to do these repairs at present, until after the new pumps will be in working order.

We are running all the 3,000,000-gallon pumps, and it takes all they can do to keep up the supply with our present boiler power.

The demand for water at this station is increasing all the time; in the last year it increased 236,950,702 gallons more than the year before.

Yours truly,

JACOB SCHAUER,
Chief Engineer.

TROY HILL PUMPING STATION.

CITY OF ALLEGHENY, Pa., March 1st, 1903.

Mr. J. L. Brown, Superintendent Bureau of Water Supply and Distribution:

DEAR SIR—

I herewith submit report of this station for the year ending February 28th, 1903.

This station is in first-class condition in every way.

Have received two pumps from Howard Street Pumping Station, with a capacity of 1,500,000 gallons each. This will bring the pumping capacity up to 3,000,000 gallons every 24 hours.

Boilers have been inspected by County and Insurance Inspectors and found in first-class condition.

Dunn-Gordon Pumps— 1902.	Gals. Pumped.	Coal Consumed. Bushels.
March	30,215,600	4,224
April	28,670,000	3,763
May	30,178,800	3,804
June	33,731,200	3,833
July	30,762,400	4,015
August	30,242,400	3,913
Wilson-Snyder Pumps—		
September	30,663,400	4,401
October	28,414,800	3,626
November	26,060,300	3,912
December	27,366,000	4,454
1903.		
January	30,692,000	4,309
February	28,044,200	4,238
Total	355,041,100	48,492

Total number of gallons pumped, 355,041,100.

Total number of bushels of coal consumed, 48,492; an average of 133 bushels per day.

Very truly yours,

HARRY ROSENFELDER.

GENERAL REMARKS.

RESERVOIRS.

There have not been any repairs made to Troy Hill Reservoir during the past year, but it has been thoroughly cleaned out. On account of the large supply of water required for the city, repairs had to be abandoned, the main object being to clean and put it into service as soon as possible.

I herewith call your attention to my report of February 28, 1900, as to the condition of this reservoir.

All of the tanks in B, C and D districts are in good condition.

PUMPING STATIONS.

MONTROSE PUMPING STATION.

The pumping station at Montrose is in good condition. Repairs have been made on the front of the building, which have made it much safer and add to the beauty of the plant.

The two fifteen million gallon each triple expansion condensing high duty pumping engines, which were contracted for with the Snow Steam Pump Works, Buffalo, N. Y., last June, are being pushed forward to completion as fast as possible. There have been up to date about one hundred and eighty drawings approved, and probably about that many more to be approved before all are completed; in the meantime the large castings are well under way and should be ready for inspection about July. At the present rate of progress, I can not see any reason why the first engine should not be delivered in February, 1904, and the second, four months later.

The two 350 H-P. water tube boilers, contract for which was let last June to the Pittsburgh Gage & Supply Co., are being installed at the present time. The work is proceeding slowly, but there is no reason why the contractors should not complete the work before the time expires as per contract. The foundations are carried down

Digitized by Google

to a depth of twenty-eight feet and to a suitable bed. When these boilers are completed the boiler house will be full. When it becomes necessary to install more boilers a new building will have to be arranged for.

Provision should be made for building a combined machine, carpenter and blacksmith shop as soon as possible. We have been using the space for this purpose which is now occupied by the new boilers. Will probably have to use the main engine room, which will render it unsightly, and also is not advisable from the fact of the dirt and dust which will naturally occur from this kind of work, getting on the working parts of the pumps and causing considerable damage from those parts cutting.

Some time ago one of the 60" Y branches on the main manifold broke. It has been thoroughly repaired as far as is possible, and as well as could be done under the circumstances. At the same time this is liable to occur again and at a place where repairs could not be made without putting in a new one. Should this occur it would be almost impossible to get a new one and replace it in less than five months. What would the city do for water during this time?

I carefully considered this matter over about four years ago and had a model made of a new manifold to be placed on the south and inside of the main building, and when the new pumps were contracted for I made verbal arrangements with the contractors to arrange suitable connections to connect with new manifold; the latter arrangements hold good, drawings for which have been approved the past week. It now remains for the city to do its part to make assurance doubly sure, so that in case of a breakage in the present manifold there would be another outlet for pumping water. While writing about this trouble it reminds me that all the water coming from Montrose has to pass through a Venturi Meter, this said meter has been broken and been patched with heavy cast iron bands. Should any more trouble occur from this meter we would be in the same predicament as with the manifold.

The new manifold would obviate this difficulty in both places, from the fact that it would come out of the south

Digitized by Google

side of building and pass west of the meter about five hundred or six hundred feet and not have to pass through it, thus avoiding the undue friction caused by being forced through the reducer. These suggestions should be demands and should receive the earliest and careful consideration of all who have the welfare of the city at heart.

The two Gordon Pumps which have been used at Troy Hill for regular pumping service have been transferred to this station and have been set up and are now used as boiler feed pumps. As to the performance of the engines and the amount of water pumped, I refer you to the Chief Engineer's report.

RIVER AVENUE STATION.

River Avenue Pumping Station has received only such repairs as are necessary to pump the water that is required to help out Montrose. The water that is pumped from the river at this point is filthy and not fit to put in a house to wash out a sewer, let alone for general purposes. This is caused mostly from the dam being a few feet below the influent pipes, and making a pool and not permitting the sewerage to pass down the river, as it naturally should do. The influent pipes are not delivering the amount of water that they did last year, and it is reasonable to suppose that they are gradually filling up with an undesirable sediment. The city will be fortunate when the new pumps are installed at Montrose.

HOWARD STREET STATION.

This station has undergone a complete transformation and will not be complete until the new building, boilers, and the five million triple expansion pump is in service, which will be about next August. A great many of the drawings have been approved for this engine, there are about one hundred and twenty-five more to be received, at the same time the work is progressing rapidly, and we may expect every day to receive word that the large cast-

Digitized by Google

ings are ready for inspection. The foundations are under way now and are expected to be finished the latter part of this week.

The building should have been completed before the holidays, but the contractor experienced considerable trouble in making excavation, but as that has now been overcome, there is no reason why the building should not be completed by the middle of April.

The boilers should also have been in service by the first of the year, but on account of the trouble before mentioned, the boiler contractor has been unable to do his work. However, it should not take over six weeks for the latter contractor to finish his work, so that by the first of June the new boiler plant should be completed.

As to the performance of engines and amount of water pumped at this station I refer you to the report of the Chief Engineer.

TROY HILL PUMPING STATION.

This pumping station has been placed in a condition that is highly satisfactory. The two 1,500,000-gallon engines have been transferred from Howard Street Pumping Station and installed at this plant. The engines and pumps have been th roughly overhauled before being placed in commission. In addition to the overhauling, they have been equipped with governors and safety, or relief valves. The governors are the Miller, and are so sensitive that when the pressure is reduced to less than five pounds below the regular domestic service, the governor acts immediately and controls it. The same action is observed when the pressure arrives at the regular, or normal speed. This prevents any undue pressure on the mains. In addition to the governor, a four-inch automatic relief valve has been placed on the discharge and near the pump, making an additional precaution to prevent any damage to mains or house service connections, so that there is no sane reason why any trouble should occur from this source.

New suction pipes have been put in, thus giving this station three sources of supply, should any unforeseen trouble occur.

Digitized by Google

The station has also been remodeled as far as conveniences are concerned. A pit has been arranged below the engine room floor, giving access to and around both pumps, thus preventing the tearing up of floor and having to dig up the earth as heretofore. This obviates a nuisance and a great deal of expense; finally the expenses are reduced to a minimum, and I can see no reason why any repairs should be made except ordinary.

GREENTREE PUMPING STATION, DISTRICT F.

Ground having been secured excavations are now under way for the pump house and building Contracts were let for Gould Triplex Pumps, to Henry Ulrich, of this city. Plans and specifications are now ready for the building. Contracts have been let to the Petroleum Engineering Co., of Washington, Pa., for the tanks, and ground has been cleared, ready for the stone masons.

It will be advisable, in fact, it will be necessary, to erect a frame building around both tanks at this exposed point on account of constant pumping not being required at present, consequently when next winter arrives, the water in tanks will freeze up unless provision of this kind is made. Tanks in Districts B and D give us more or less trouble from ice every winter, notwithstanding the great amount of water delivered from them.

METERS.

There are in use in the city about 50 meters, owned by the consumers. There is considerable trouble caused by mud collecting in them preventing the piston from moving and at the same time preventing the recording of the water consumed. There are some that do not register 25 cents worth of water in three months. This matter should be brought before Councils and no more meters be installed until a new reservoir is built, and one large enough to allow the water to settle and clarify before being turned on for city use; say one of 250,000,000 gallons capacity and built in sections. This, as often before stated, would permit of the shutting down of pumps during high, low

Digitized by Google

or muddy water, and particularly, should a break occur on our main line from Montrose it would give us in the neighborhood of seven days' supply, probably enough time to make ordinary repairs, but not extraordinary repairs.

Referring again to meters, it is really necessary to have a practical man to look after the setting, and for the present to read the meters, making the returns to this office for the Water Assessor. There are no proper arrangements for this purpose at the present time, and in my opinion it should be left entirely to the Water Department's Superintendent whether or not meters should be installed, until the city should conclude to own and place them in use at its own expense. It is now optional with the property owner whether he will make repairs or not, after being notified to make repairs.

All meters should be supplied with a by-pass and locked: also the meter should be locked so that no tampering could occur without detection. Lock should be special and key controlled by the department.

DISTRICTS.

With the addition of Green Tree Pumping Station, it will add another district to the city.

A District is that portion supplied from Troy Hill Reservoir.

B District is that portion supplied from Nunnery Hill tanks.

C District is that portion supplied from Lafayette avenue tanks.

D District is that portion supplied from Spring Hill tanks.

E District is that portion supplied by direct pumpage from Troy Hill station.

F District is that portion supplied from tanks on top of Green Tree Hill.

I refer you to tables for pipe laid, lowered and leaks that have been handled during the past year.

Kindly note reports of engineers from the different stations as to the amount of water supplied, coal used, etc.

Very truly yours,

J. L. BROWN,

Supt. Bureau of Water Supply and Distribution.

ANNUAL REPORT OF THE BUREAU OF PUBLIC LIGHTING, 1902-1903.

CITY OF ALLEGHENY, Pa., March 1st, 1903.

Mr. D. L. Fulton, Director Department of Public Works:

DEAR SIR:—

I herewith submit the twelfth annual report of this Bureau for the fiscal year ending February 28th, 1903.

Appropriation for year	$113,285 48

Expenditures were distributed as follows:

To operating arc lighting system	$ 69,091	30
To operating incandescent lighting system (primary)	21,060	62
To operating incandescent lighting system (secondary)	2,660	01
To arc lamp construction	527	52
To incandescent lamp construction	704	46
To operating gas lighting system	911	30
Improvements to entire system	9,114	39
Unpaid bills of 1901-1902	12,212	36
Total	$116,281	96
Appropriation	$113,285	48
Deficiency in appropriation	$ 2,996	48
Credit by balance in Items Nos. 4, 5, 6	28	41
Net deficiency	$ 2,968	07

For detailed expenditures see appended statement.

Digitized by Google

The following statement will show amount invested in electric lighting system to date:

To extension and improvements made during past year—	
Paid out of appropriation	$ 10,346 37
Paid out of bond account	52,095 70
Amount invested March 1st, 1902	406,811 78
Total March 1st, 1903	$469,253 80

The amount invested, viz., $469,253.80, is divided as follows:

To arc lighting system	$374,379 52
To incandescent lighting system	94,874 28
Total	$469,253 80

Of the above amount $360,000.00 was paid from bonds, and $109,253.80 from appropriations derived from taxation.

Bonds issued as follows:

April 1st, 1891	$160,000 00	sold at $101.00
October 1st, 1893	14,000 00	sold at par
July 1st, 1894	86,000 00	sold at $106.27.5
October 1st, 1902	100,000 00	sold at 102.625.

All 30-year bonds bearing interest at 4 per cent.

Amount in Sinking Fund March 1st, 1903, to credit of Electric Light Bonds, $91,133.19. The latter amount is earning 3½ per cent. annually. Earnings for past year, $3,189.66.

Appropriation granted for ensuing year, $116,581.00.

Digitized by Google

BOND ACCOUNT OF OCTOBER, 1902.

Progress and estimates paid on account of contracts covering improvements to electric lighting system, funds for which were derived from bond issue of October, 1902, amounting to $102,625.00, including premium:

To Pittsburg Gage & Supply Co., on account of engine contract, $22,218.75; balance due upon completion, $7,406.25.

To Pittsburg Gage & Supply Co., on account of stoker contract, $4,205.00; balance due upon completion, $4,295.00.

To Westinghouse Electric & Mfg. Co., on account of electrical apparatus contract, $16,000.00; balance due upon completion, $30,602.00.

To W. F. Patterson, on account of boiler contract, $7,500.00; balance due upon completion, $6,244.00.

To Henry Ulrich, on account of steam lines contract, $2,171.95; balance due upon completion, $1,777.05.

GENERAL REMARKS.

The service from the switchboard is divided into 29 circuits, of which 22 are arc, 8 being A. C. and 12 D. C. and 2 Encl. D. C. arc, and 7 incandescent circuits.

We have erected during the year 30 arc lamps, making the total number of arc lamps in service to date 1,473.

Of the 1,473 arc lamps in service, 548 are Westinghouse A. C. single carbon, 500 watt; 216 Western Electric D. C. single carbon, 480 watt; 556 Brush D. C. double carbon, 480 watt lamps, and 153 General Electric enclosed D. C., 490 watt lamps (commercial rating 2,000 candle power).

Area of city, eight square miles.

Average number of lamps per square mile, 184.

INCANDESCENT LIGHTING SERVICE.

The electrical power output of this branch of the service amounted to 959,000 kilowatt hours, an increase of 16,600 kilowatt hours.

The following statement gives the monthly average and total incandescent electrical output of this station:

1902-1903	Av. Max. Load.	Av. Min. Load.	Av. Load.	Total K.W.Hours
March	169.7	64	115.8	82,700
April	161.3	61.8	111.4	76,900
May	144.7	53.7	101.1	73,900
June	135.7	49.9	93.1	66,300
July	118.1	49.3	86.4	62,200
August	119.	54.	87.	65,100
September	170.	60.	106.6	76,000
October	172.	62.	116.1	83,900
November	200.	63.	125.4	89,100
December	207.	66.	134.5	98,700
1903.				
January	211.	66.	138.	98,900
February	200.	68.	130.5	85,300
Total	2,008.5	717.7	1,345.9	959,000
Daily average	.....	.....	.....	2,627

The above total current output is equivalent to 14,385,00—16 c. p. lamp hours (allowing 25 per cent. loss of current between switchboard and lamps).

Recording watt meters are installed in incandescent circuits, from which current output is determined.

ELECTRICAL OUTPUT SUMMARY.

Due to arc lighting service	2,835,859 Kilowatt hours
Due to incandescent service	959,000 Kilowatt hours
Total current output for year	3,794,859 Kilowatt hours
Preceding year	3,701,782 Kilowatt hours
Increase equal	93,077 Kilowatt hours

As per above statement, the electrical output due to incandescent service equals 25.9 per cent. of entire output. and it is upon this basis that labor and material charges common to all are made, except as to station charges, which are made as follows: Six months of the year two-thirds of station labor costs are charged to arc service. and for six months one-half of entire station labor costs are charged to arc, the remainder to incandescent service.

Cost per kilowatt hour for arc lamp service, 2.44 cents.

Cost per primary kilowatt hour for incandescent lamp service, 2.2 cents.

Operating expenses per arc lamp, 1902-1903	$47 52
Operating expenses per arc lamp, 1901-1902	51 65
Decrease	$ 4 13

To determine the total cost per arc lamp for past year the following charges cover the matter completely:

To interest charges at 4 per ct. on $335,307.74	$ 9 11
To depreciation charges at 5 per ct. on $335,307.74	11 38
To taxes lost on 50 per cent. valuation, 1.5 per cent. levy	1 71
To operating expenses, including insurance	47 52
Total cost per arc lamp for year	$69 72
*Credit by sinking fund earnings	1 65
Net cost per lamp	$67 07

*Total earnings due to Electric Light Sinking fund, $3,189.66, of which 75 per cent. is credited to arc maintenance.

The power plant consists of boiler, engine and dynamo rooms, in which are placed the following apparatus:

BOILERS.

Four Caldwell standard pattern boilers, 250 H. P. each, equipped with Jones underfeed stokers.

Two Babcock & Wilcox standard pattern boilers, 250 H. P. each, equipped with Roney stokers.

Two Babcock & Wilcox double deck boilers, 250 H. P. each, equipped with Jones underfeed stokers.

PUMPS.

Double Acting Duplex.

One Laidlaw-Dun Gordon pump.
One Worthington pump (outside packed).

ENGINES.

For Operating Stokers.

Two 7½x12 vertical engines, operating blowers for Jones stokers.

One 5 H. P. oscillating engine.

HEATERS.

Two Goubert (closed) heaters, 800 H. P. each.

ENGINES.

One 350 H. P. Buckeye engine.
One 250 H. P. Westinghouse compound engine.
Four 150 H. P. Westinghouse engines.
Five 125 H. P. Westinghouse compound engines.
One 75 H. P. Westinghouse compound engine.
Two 15 H. P. Westinghouse standard engines (operating exciters).

Digitized by Google

DYNAMOS.

One 250 K. W. 2 phase alternator direct connected to 350 H. P. Buckeye engine.

Two 150 light 6.6 amp. Brush multi-circuit arc dynamos.

Twelve 60 light Western Electric D. C. arc dynamos.

Eleven 60 light Westinghouse arc dynamos.

Two 75 K. W. Westinghouse incandescent 1,100 volt alt. single phase.

One 120 K. W. incandescent Westinghouse 1,100 volt alt. single phase.

Two 9 K. W. and one 11¼ K. W. D. C. generators (exciters).

AIR COMPRESSORS.

One Westinghouse air compressor.

SEPARATORS.

One 6 inch Stratton separator.
One 8 inch Stratton separator.
Two 12 inch Stratton separators.

MOTORS.

Three 125 H. P. 2 ph. motors operating D. C. arcs.
One 30 H. P. 2 ph. motor operating a small fan.

BLOWERS.

Two 140 inch Buffalo blowers.

GAS LIGHTING DEPARTMENT.

Cost of labor and repairs	$728 10
Cost of gas consumed by street lamps	118 80
Cost of gas consumed in public buildings	64 31
Total	$911 30

Maximum number of lamps in service, 27.
Number in service at date of this report, 25.

Digitized by Google

REMARKS.

It is very gratifying to your Superintendent to report the reduced cost of arc lamp maintenance, viz., $47.52, as against $51.65 for preceding year. This was unexpected, for the reason that owing to the installation of new apparatus our plant has been operating under extremely hazardous and trying conditions, and in our overloaded condition total cessation of operation seemed probable to occur at any time, and this condition still exists as to our incandescent lighting apparatus and will probably continue for the ensuing 60 days, at the expiration of which time some of our new apparatus may be used for incandescent lighting service. The reduced cost of maintenance is principally due to economy effected in the boiler room by the use of the Jones underfeed stoker. By making comparison with report of preceding year you will find that during present year our current output has been greater, cost of coal per ton increased ($1.25 to $1.38), and notwithstanding these facts, the amount expended for coal has been reduced.

The new boilers and stokers are now completed, and giving excellent service, and in the near future Mr. N. C. Wilson, M. E., will make tests of same.

One Buckeye engine, attached directly to one 250 kilowatt Westinghouse generator has been in operation since December 21st, 1902, driving three 125 H. P. induction motors, each of which is operating two 65 light arc dynamos. One of the two 500 kilowatt engines and generators will be in operation about April 1st.

The switch board is completed, except as to a few minor details. Steam line work is keeping pace with that of engines.

The starting of contract for moving the two old batteries of Babcock & Wilcox boilers has been postponed until such time as contract may be effected for stoker equipment.

All work up to date on the foregoing improvements is of first-class character, and upon completion of improvements as planned, your Superintendent predicts much lower cost per lamp per annum.

This seeming to me to be a fitting and timely place, I make use of this opportunity to extend to you and through you my sincere and heartfelt thanks to Recorder John R. Murphy, Mr. Robert McAfee, our former and highly esteemed Director, my fellow officials, assistants, employes of this Bureau, and all others connected with my official life, for the kindness and courtesies extended to me, which have made my official career of 17 years pleasant to reflect upon, and it is also the cause of considerable regret that I leave them to embark in private business, as you are aware.

Again thanking you most heartily, I am

Cordially yours,

D. HUNTER, JR.,

Superintendent.

REPORT OF DIRECTOR OF DEPARTMENT OF PUBLIC SAFETY.

CITY OF ALLEGHENY, Pa., March 1st, 1903.

Hon. John R. Murphy, Recorder of City of Allegheny:

DEAR SIR:—

In compliance with the provisions of the law I herewith present to you the operations of the Department of Public Safety for the fiscal year ending February 28, 1903.

I am gratified to be able to report to you that the employes of the different Bureaus of this Department have been exceedingly prompt, during the year just closed, in the discharge of their duties, and as a result, considering the insufficient number of men we have on the Police, Fire and Health Bureaus, make an excellent showing. These three bureaus are the most important of the city government, and every facility should be afforded them in order that the very best results could be attained. Other cities of the Commonwealth during the year have had riots, destructive fires and epidemics, but Allegheny has fortunately escaped from them all and it gives me more than ordinary satisfaction to be able to say this.

During the past year we completed the new engine houses for Nos. 5 and 10, No. 5 being situated on Preble avenue, Ninth ward, and to be used for an engine and patrol station combined, and to also be equipped for a station house and lock-up; No. 10 being situated on Lafayette avenue, Tenth ward. And, let me add, this was not done before it was needed; they are comfortable and convenient. We have also completed an addition to our Municipal Hospital, which was very necessary. With a constantly increasing population we expect from this time forward it will be in constant use. We have also remod-

Digitized by Google

eled two of our patrol stables and will be enabled to get along for some time, I think, without any further work, except what occurs from ordinary wear and tear.

Attached to this report and marked "Exhibit A," will be found the financial statement, prepared by Mr. Dunlap. It carefully notes every item under the head of the appropriate appropriations, and thus, at a glance, can be learned the state of the finances of the various Departments.

I have also the honor to present the report of John K. Hunter, Esq., Chief Engineer of the Fire Department. marked "Exhibit B." The fire loss of Allegheny is remarkably small when the surroundings are taken into consideration, and we must all agree that this is due to the efficiency of the Bureau of Fire. I join in Chief Hunter's recommendation and warning as to the quantity of inflammable material carried in this city. We are building up closely and no one man should be permitted to keep on his premises that which might inflict an injury and loss to his neighbor. I therefore trust that Councils, through a committee, will give this matter proper attention. I am also of the opinion that this Bureau should have more men and another Assistant Chief Engineer. We have long since grown out of the conditions that warranted the present force and should keep up with the pace and growth of our city.

You will also find attached to and made part of this document the report of Henry Muth, Esq., Superintendent of the Bureau of Police, marked "Exhibit C." The report of this Bureau is a study. Here we find all phases of human life depicted, and with so much difference in the makeup of the population of this city, it is remarkable that there is such an absence of crime. Of course, a city the size of Allegheny will always have more or less of petty stealing, and that can scarcely be designated a crime in the calendar of to-day, but crimes of any magnitude are a rare thing in this community and for that we are surely to be congratulated.

I also present herewith the report of James McLaughlin, Esq., Superintendent of the Bureau of Health (marked "Exhibit D"), and I would ask your careful perusal of the same. The Health Departments in the cities

Digitized by Google

of this Commonwealth are facing new problems almost every day. The one feature that should be rigidly enforced is compelling everybody to "clean up" their premises, and the city should set the example by keeping its streets absolutely clean and the sewers constantly flushed. With the great downpour of rains that are becoming so frequent, great quantities of earth of all kinds are washed down from the hills on the north side of the city, and if allowed to remain any length of time will certainly accumulate and soon become a nuisance. And so with the sewers. We compel the householder to keep his cellar clean and whitewashed, and probably while doing that he is afraid to leave the windows of his house open because of the dirt blowing in from the street. On the streets that are traversed by the electric cars great clouds of dust and dirt follow the cars and finally settle in the houses. This should not be permitted, and these companies should be compelled to keep the streets absolutely clear of dust and dirt.

During the past year we have had some smallpox, but the Health Bureau undertook its control energetically and have it well in hand.

Hereto annexed you will also find the report of Elmer Loomis, Esq., Superintendent of the Bureau of Electricity, marked "Exhibit E." Mr. Loomis has the machinery in this Bureau in fine condition and it is a pleasure to walk through it and examine the intricate machinery and at the same time consider how much depends on its accurate working.

Herewith transmitted is also the report of John Heckert, Esq., Superintendent of the Bureau of Building Inspection, marked "Exhibit F." The showing of new buildings and alterations for the year, amounting in round figures to $2,249,375, or $700,000 over the preceding year, is a remarkable one and only indicates the rapid growth of this city. I earnestly commend his recommendation to prohibit erection of Jackson frames, and also for greater protection to tenement and lodging houses by Councils providing a fire escape law. Humanity, even from the lower walks of life, should be considered above the dollars and cents of an avaricious landlord. His rec-

Digitized by Google

ommendation relative to electric wiring is worthy of your most serious consideration, for by consulting the report of Chief Hunter you will notice that many fires have been caused by defective wiring and it should be absolutely under the control of the city.

Thanking you, sir, for the many courtesies I have received at your hands, and congratulating you upon the success of your administration as Recorder, I am,

Respectfully,

HENRY ALBRECHT,

Director Department of Public Safety.

BUREAU OF FIRE.

CITY OF ALLEGHENY, Pa., March 1, 1903.

Hon. Henry Albrecht, Director Department of Public Safety:

SIR:—

I have the honor to herewith transmit my annual report of the work of the Bureau of Fire for the year ending February 28, 1903. The total number of alarms of all descriptions during the year was 353. Of this number 212 were box alarms and 143 still, the latter being responded to by the companies nearest the fire. The fire at which occurred the greatest loss was that of the iron-clad machine shop—Thomas Carlin's Sons—on River avenue, where the loss was $85,000, and the insurance paid was $79,000. The fire broke out early on the morning of February 18, 1903.

From the tabulated report of fires embraced in this report I have taken the following as showing the greatest loss:

Wall paper store—Douglas & Miller—and apartment house of William Jamison, Federal street, March 27, 1902; loss, $11,445.

Pittsburg Provision & Packing Company, Herr's Island, August 24, 1902; loss, $5,493.37.

North Avenue Stairs Company, North avenue, August 31, 1902; loss, $5,638.22.

Brick warehouse, Second street, September 26, 1902, owned by Mrs. Ochsinhirt; loss, $21,529.

Paint shop, Henry Wheeler & Son, 119 West Ohio street; loss, $8,400.

Two-story brick building, Cass avenue, owned by Pressed Steel Car Company; loss, $32,099.

Digitized by Google

There were 13 persons badly burned during the year, the majority of cases occurring from the explosion of gasoline stoves and lamps.

The total loss during the year was $219,742, and the insurance paid amounted to $196,281, the total insurance carried being $807,810.

I have from time to time called attention to the fact that a very large amount of inflammable material was carried in the different establishments in the city, and this becomes more apparent every year. Some law or ordinance should, therefore, be passed compelling the storage of gasoline, powder and oils in outside buildings and not in cellars. Several times in the last few years the Department has been forced to face fires where momentarily a terrific explosion might take place. The lives of the members of the Department were not only in danger, but also the lives of citizens, and surrounding property. In some places there is enough benzine stored to burn up an entire square, regardless of any efforts put forth by this Department.

During the past year two new engine houses have been completed and are models of convenience and neatness.

During the year just closed the new engine for the hill district was placed in No. 10 Engine House, and as a result the losses in that portion of the city have been small.

I must again call your attention to the necessity, in my judgment, of increasing the number of men in each company. Last year I said: "There is no city in the country where the fire apparatus is manned by so small a number of men as in Allegheny." I have gone to considerable trouble during the past year to ascertain accurately how near that statement could be verified, and I was astonished to learn that Allegheny, with a splendid supply of fire apparatus, carried less men to a company than cities with less area and less population. This should not be. While we, as a community, have been remarkably fortunate in escaping destructive conflagrations, we can scarcely hope this state of affairs will continue, and it would be a matter of profound regret that some day, simply because we are "penny wise and pound foolish," the city should sustain a great loss by fire, in view of shortness of help in time of

Digitized by Google

absolute need. I would earnestly recommend that each of the engine companies be increased by two men and the hose companies one man each.

The confines of our city are constantly extending and I desire again to call your attention to what, to my mind, is required, namely, another Assistant Chief Engineer. With one located west of Federal street and one east of Federal street, they would be on the ground promptly and would save the citizens of Allegheny more than the increased expense would amount to annually. On the second alarm from either district the Chief Engineer could answer, and should another fire break out while the two men were on duty, there would be a recognized head on hand to take charge.

I wish to thank you, sir for the courteous manner with which you have always treated me and also for the great interest you have taken in the proper conduct of the affairs of this Bureau. The men during the year have been prompt, and to that, in a very large measure, is due our small loss, and I thank them sincerely. I am also under obligations to officers and members of the Bureau of Police for services rendered.

Trusting this year that our losses from fire may be greatly decreased, I remain,

Respectfully,

JOHN K. HUNTER,

Chief Engineer Bureau of Fire.

REPORT OF SUPERINTENDENT OF REPAIR SHOP.

John K. Hunter, Esq., Chief Engineer Bureau of Fire:

SIR:—

I herewith submit the following detailed report of the work done at the repair shop during the year ending February 28, 1903:

March 1, 3, 4, 5—Shop work, 35 hours.

March 6—Repairing No. 4 engine, 9 hours.

March 7, 8, 10—Repairing Old Hope engine, 63 hours.

March 11—Working on new hose carriage, No. 1, 9 hours.

March 12, 13, 14, 15—Turning hub caps, No. 3 engine, 36 hours.

March 17, 18, 19—Working on new hose carriage, No. 1, 27 hours.

March 20, 21, 22—Making new tips, 27 hours.

March 24, 25, 26—Working on horseshoe sharpener, 27 hours.

March 27, 28, 29, 31—Working on new hose carriage, No. 1, 35 hours.

April 1, 2, 3—Working on new hose carriage, No. 1, 31 hours.

April 4—Repairing gong on fuel wagon, 9 hours.

April 5, 7—Working on new hose carriage, No. 1, 17 hours.

April 8, 9, 10, 11, 12—Shop work, 45 hours.

April 14, 15—Working on new hose carriage, No. 1, 18 hours.

April 16—Cutting rings for hose, 9 hours.

April 17—Repairing boiler, No. 2 engine, 9 hours.

April 18, 19, 21, 22—Working on new hose carriage, 36 hours.

April 23, 24—Repairing No. 1 engine, 18 hours.

April 25—Repairing No. 10 hose carriage, 9 hours.

Digitized by Google

April 26, 28, 29, 30—Working on new hose carriage, 32 hours.

May 1, 2, 3—Shop work, 23 hours.

May 5—Working on new hose carriage, 9 hours.

May 6—Repairing No. 7 engine, 18 hours.

May 7, 8, 9—Working on new hose carriage, 27 hours.

May 10—Cleaning shop, 8 hours.

May 12 to 17—Putting gas pipes in Hose Company No. 14, 61 hours.

May 19, 20, 21—Working on new hose carriage, 27 hours.

May 22—Repairing Truck A, 24 hours.

May 23 to 31—Working on new hose carriage, No. 1, 100 hours.

June 2 to 30—Working on new hose carriage, 316 hours.

July 1, 2, 3, 4, 5—Making door bars, No. 11 Engine House, 43 hours.

July 7, 8, 9, 10—Working on new hose carriage, 36 hours.

July 11 to 19—Shop work, 71 hours.

July 21 to 31—Making door bars, No. 11 Engine House, 97 hours.

August 1 to 6—Making door bars, No. 11 Engine House, 45 hours.

August 7, 8, 9—Making swivels for double trees, 27 hours.

August 11 to 16—Making suction couplings, 53 hours.

August 18, 19, 20—Repairing No. 5 hose carriage, 34 hours.

August 21, 22, 23—Making suction couplings, 26 hours.

August 25, 26, 27, 28, 29, 30—Making play pipes for department, 53 hours.

September 1, 2, 3, 4—Making play pipes for department, 36 hours.

September 5, 6, 8—Making bushings for spray nozzles, 26 hours.

September 9, 10, 11, 12, 13—Making door bars, No. 2 Engine House, 72 hours.

Digitized by Google

September 15 to 30—Repairing No. 6 engine, 226 hours.

October 1, 2, 3, 4, 6—Repairing No. 6 engine, 40 hours.

October 7 to 16—Repairing No. 3 engine, 136 hours.

October 17 to 31—Repairing extra engine, old No. 3, 260 hours.

November 1 to 29—Repairing extra engine, old No. 3, 482 hours.

December 1 to 10—Repairing extra engine, old No. 3, 152 hours.

December 11 to 20—Putting on rough locks, back brakes, etc., No. 10 engine; making heater connections and harness hangers, Engine Company No. 10, 166 hours.

December 22 to 31—Making harness hangers and door latches for stalls, Engine Company No. 5, 106 hours.

January 1, 2, 3—Working on back brakes, No. 10 engine, 40 hours.

January 5 to 22—Making harness hangers and door latches for stalls, Nos. 5 and 10 Engine Houses, 193 hours.

January 23 to 31—Making heater connections and floor plates for Engine Company No. 10, 96 hours.

February 2—Shop work, 8 hours.

February 3—Working on track plates, Engine Company No. 10, 8 hours.

February 4, 5—Making harness trip, Engine Company No. 10, 16 hours.

February 6, 9, 10, 11—Working on heater connections, Engine Company No. 10, 32 hours.

February 12 to 24—Repairing No. 7 engine, 100 hours.

February 24—Repairing shut-off nozzle, Engine Company No. 6, 4 hours.

February 25, 26, 27, 28—Repairing No. 7 engine, 46 hours.

Respectfully submitted,

FRANK LOWRIE,

Superintendent of Repairs.

REPORT OF VETERINARY SURGEON.

ALLEGHENY, PA., March 1, 1903.

John K. Hunter, Esq., Chief Engineer, Bureau of Fire:

SIR:—

I herewith supply you with a report of the professional services rendered your Bureau by me during the year ending February 28, 1903. Am glad to state we have again passed through a year without losing a horse by death, much of the credit for which is due the men in attendance at the various houses.

Respectfully submitted,

J. STEWART LACOCK,

City Veterinarian.

REPORT OF BUREAU OF POLICE.

CITY OF ALLEGHENY, Pa., March 1st, 1903.

Hon Henry Albrecht, Director Department of Public Safety:

SIR:—

I have the honor to herewith present my annual report as Superintendent of the Bureau of Police for the year just closed.

The tabulated statements, as presented, give in detail every item connected with those who have been placed under arrest during the year, and will be a valuable reference table hereafter.

Thanking you for the many acts of kindness received from your hands, I am

Respectfully,

HENRY MUTH,

Superintendent Bureau of Police.

ALLEGHENY CITY, PA.

Henry Muth, Esq., Superintendent Bureau of Police:

DEAR SIR:—

I herewith submit a report of the cases treated and visits made by me during the year ending February 28th, 1903:

I take especial pleasure in stating that we have again passed through an entire year without losing a horse by death, much of the credit for which belongs to the attendants at the various Patrol Stables:

Respectfully submitted,

J. STEWART LACOCK, V. M. D.

City Veterinarian.

REPORT OF THE BUREAU OF HEALTH.

ALLEGHENY, PA., March 1, 1903.

Henry Albrecht, Esq., Director Department of Public Safety:

SIR:—

I have the honor to submit my report of the operations of this Bureau for the year ending February 28, 1903.

An examination of the reports of the officers in charge of the different divisions of the Bureau will show the amount of work performed to be much greater than for any previous year, particularly in the Division of Sanitary Inspection, where the amount of work occasioned by the epidemic of smallpox now prevailing was most trying and arduous. The constant spread of smallpox throughout the country has been the cause of much annoyance and distress, and, of course, we have not escaped its increasing ravages, although we have been more fortunate in controlling it than many cities. The lack of quarantine regulations or restrictions whatever in other of our surroundng communities is largely responsible for the present trouble, while in our own city many cases are traceable to the neglect to call a physician, thinking the disease to be a slight cold or some simple illness that could be treated by home remedies, resulting, of course, in the spreading of the disease through their own households and frequently to that of their neighbors. I feel confident, however, that with the increased hospital facilities already completed, and the securing of the additional room at present under consideration, it will be possible in a short time to say that the epidemic is past, and that we will have only a few of the resultant straggling cases to deal with.

Digitized by Google

A fire occurred at the Municipal Hospital on Warren street, February 19, which interfered considerably with our work in that place. The damage was slight, however, and is fully repaired, and all of the rooms are again occupied. The credit for the escape from a very serious loss of life and property is due to the prompt, courageous and efficient work of the Fire Department, under the immediate direction of Chief John K. Hunter and his assistant, Mr. Peter Schatzman, and also to the coolness and tact of Mrs. Laura E. Maloney and her assistants, as well as to Dr. J. C. Calhoun, the hospital physician. It would be futile to attempt to describe in words the horrible possibility of the situation. It is enough to say that there were 40 patients in all stages of the dread disease, many of them unable to leave their beds, housed in an old frame structure filled with smoke from a fire threatening its destruction, and that they were all transferred without the least panic or excitement, the fire extinguished and the community spared the horror of what came very near being a dreadful calamity.

During the year it became necessary to appoint eight additional sanitary inspectors in order to cover the increased amount of work occasioned by the smallpox epidemic. The number is not yet sufficient, as two are almost constantly engaged with the ambulance removing cases to the hospital, other destroying infected bedding and disinfecting houses, leaving very little time for attention to the ordinary sanitary work, consequently the usual house to house inspection has not been carried out to any considerable extent during the past year.

Under your instructions a physician was appointed for each ward of the city to proceed with a general, systematic visiting of all families for the purpose of vaccinating all who were not already protected. The work has progressed during the past month and a very large number of those who would not otherwise have been reached have been given the opportunity to be vaccinated free at their homes. The schools have also received attention and many children are vaccinated each week at this office by Dr. Mayer and Dr. Dickson.

Digitized by Google

I desire in a general way to express my appreciation of the work of the officers in charge of the different divisions, and to say that they have all responded cheerfully to all demands on their time and skill. The work of the year has been exceedingly trying for various reasons and too much praise cannot be given the people who performed their duties so well, although often of a very unpleasant character. And my thanks are due as well to all for their hearty support, and to you for so readily responding to all requests for advice and assistance and for your courteous co-operation.

Deaths recorded during the year	2,624
Marriages recorded during the year	968
Births recorded during the year	1,792
Permits issued during the year	526
Transcripts issued during the year	192
Dead animals removed during the year	1,956

Respectfully submitted,

J. A. McLAUGHLIN,

Superintendent Bureau of Health.

REPORT OF CITY BACTERIOLOGIST.

CITY OF ALLEGHENY, Pa., March 1, 1903.

James A. McLaughlin, Esq., Superintendent Bureau of Health:

SIR:—

I have the honor to submit for your consideration the annual report of the work of the Division of Bacteriology for the year ending February 28, 1903.

The work performed during the year appears under the tables hereto appended.

Table No. 1 shows the number of examinations made in suspected cases of diphtheria; also the total number of cases of diphtheria, and the number of negative results.

Table No. 2 shows the number of examinations made of sputum submitted by the physicians of the city; also the total number of cases of tubercle, and the number of negative results.

In conclusion, I wish to thank Recorder John R. Murphy, Director Henry Albrecht and yourself for the hearty support they have always accorded me in my labors.

Respectfully submitted,

JAMES W. DICKSON,
Bacteriologist.

REPORT OF MILK AND MEAT INSPECTOR.

CITY OF ALLEGHENY, Pa., March 1, 1903.

James A. McLaughlin, Esq., Superintendent Bureau of Health:

SIR:—

I have the honor to submit to you the annual report of the work done by this Division for the year ending February, 28, 1903.

During the year the following articles of food were condemned as unfit for use and sent to the schindery, or furnace.

Three thousand eight hundred and fifteen milk tests were made during the year and 785 gallons of milk destroyed.

I have the honor to remain,

Respectfully,

JOHN LIPPERT,
Meat and Milk Inspector.

REPORT OF BUREAU OF PLUMBING AND HOUSE DRAINAGE.

CITY OF ALLEGHENY, Pa., March 1, 1903.

James A. McLaughlin, Esq., Superintendent Bureau of Health:

SIR:—

I herewith submit my report of work performed by this Division during the year ending February 28, 1903, which shows an increase in new work over the previous year. Our law governing plumbers, plumbing and house drainage shows its great sanitary advantages more every year, and I have less trouble in enforcing its provisions than when it first became operative.

The following tabulated statement will show the number of plans filed and inspections made by this Division:

	Plans Submitted.	Plans Approved.		Number of Inspections.		Final Inspections		Total Inspections.
		New.	Old.	New.	Old.	New.	Old.	
1902.								
March	69	19	50	36	42	15	22	115
April	91	29	62	44	53	11	24	132
May	94	29	65	54	40	26	45	165
June	83	29	54	47	54	7	23	131
July	61	36	25	42	37	30	47	156
August	67	26	41	56	45	4	3	108
September	76	25	51	43	58	12	11	124
October	66	26	40	62	41	12	7	122
November	57	22	35	38	24	15	37	114
December	39	19	20	49	35	6	12	102
1903.								
January	33	19	14	44	29	19	26	118
February	32	14	18	27	35	7	3	72
Total	768	283	485	542	493	164	260	1,459

There were referred to this Division during the year 35 complaints of defective plumbing, all of which were given due attention, and were followed by prompt abatement.

Thanking you for past courtesies extended me, and hoping for a continuance of our pleasant relations, I am.,

Respectfully,

AL. S. WHITEHEAD,

Plumbing Inspector.

REPORT OF STEWARD OF MUNICIPAL HOSPITAL.

CITY OF ALLEGHENY, Pa., March 1, 1903.

James A. McLaughlin, Esq., Superintendent Bureau of Health:

SIR:—

I respectfully submit the following report of the work done at the Municipal Hospital during the year ending February 28, 1903.

One hundred and seventy-nine patients have been admitted, one scarlet fever, and all others smallpox, in addition to 21 quarantines. There are at present 18 patients in the Hospital.

We have had 19 deaths; eight from smallpox, the remainder from other causes.

An addition has been added to the Hospital, owing to the many cases to be handled, and even then we have been very much crowded, the hospital not being nearly large enough, and, too, we have not had enough help to do justice to our patients. In fact, we have been badly handicapped in every direction.

Our fences are in a very bad condition and we would like a great deal to have our street paved, as we think surely it would be right if only for the sake of our patients.

I thank you ever so much for your kindness and attention to all my requests, as well as the City Physician and our present physician.

Respectfully submitted,

LAURA E. MELONEY,
Steward of Municipal Hospital.

REPORT OF CITY PHYSICIAN.

CITY OF ALLEGHENY, Pa., March 1, 1903.

James A. McLaughlin, Esq., Superintendent of Bureau of Health:

SIR:—

I herewith have the honor to submit my report of the Vital Statistics of Allegheny City, for the year ending February 28, 1903.

The total death rate, as you will notice, is higher than last year; indeed, it has been increasing for the past five years. Estimating our total population is 130,000, so there can be no doubt that it has been increasing, and in consequence thereof our death rate is really lower.

We have had 329 cases of smallpox, with 19 deaths, during the year just ended. The epidemic is still in progress, though the number of cases is not increasing.

Pneumonia is still the chief cause of deaths, and , as a result of our extraordinary changes of weather during the past year, 439, or about one-sixth of all deaths, have been from this disease.

Our hospital has been crowded all year, and too much praise cannot be given Mrs. Meloney for her services rendered, in conjunction with her son and daughter. Our annex was built this fall, which has helped us materially to accommodate the victims of smallpox.

On account of the work, Dr. Calhoun has been retained to take charge of the hospital, and fifteen physicians have been employed to undertake systematic vaccination; as heretofore, vaccination has been done free at the office, and we with the help of Dr. James Dickson, the City Bacteriologist, have vaccinated 1,023 children during the last year.

Our thanks are due to you and to the various gentlemen in the service of the city in the Bureau of Health, for their kind co-operation.

Respectfully submitted,

EDWARD E. MAYER,
Physician to the Board of Health.

REPORT OF BUREAU OF ELECTRICITY.

ALLEGHENY, PA., March 1, 1903.

Henry Albrecht, Esq., Director Department of Public Safety, Allegheny, Pa.:

SIR:—

I have the honor to present to you herewith the report of the work done by the Bureau of Electricity for the year ending February 28, 1903. Owing to a number of important improvements made, and which are noted further on, my report may be more lengthy than previous ones, though my aim will be brevity, where possible.

This Bureau deals with two important branches of the city government—fire and police—in both of which promptness of action is essential and should be the controlling influence. To this end, the latest appliances known to the electrical world are absolutely indispensable. These, I am gratified to state, we have. The plant, when we assumed control, was in a crude condition, and many of the appliances imperfect and by no means up to date.

My report explains how this state of affairs has, by incessant care and work, been remedied, so that to-day I am prepared to prove that the service rendered by the plant is second to none of a like nature in the country.

A word or two of description may here be opportune. Our office is fitted with the Gamewell Company's improved fire alarm instruments, handsomely mounted in carved mahogany, the main switchboard being ornamented by designs in handwork. In this board is a twenty-circuit automatic combination storage battery board, made on two slate bases, and containing the ammeter and voltmeters which are used for testing all outside wires, while they also exhibit the condition of the batteries. Twenty lines of relays are controlled through the main circuits, and are so arranged as to repeat an alarm to as many stations as may be desired. The balance of the board is utilized for hand switches, which, in

Digitized by Google

turn, control all the automatic devices for charging purposes in various conditions of series, to match the electro-motive force of batteries of the electro-motive force of charging current. These changes are made by the set of switches so arranged as to economize the charging current, in order that any voltage from fifty to five hundred can be used without waste.

Another feature of the plant is a combination lightning arrester and current protector board in three sections on one slate base and mounted in mahogany cabinet. It consists of fifty plush current protectors, fifty sets of glass fuse tubes, containing fusible wires, constructed so as to allow the easy removal and replacing of tubes, and, in addition, fifty sets of single lightning arresters. Also to be noted is one modern two-dial, four-plate combination alarm circuit transmitter for ten metallic circuits. Each dial is arranged so that it can send any combination of figures from 1 to 9,999, as well as continuous blows from 1 to 20. Each dial after sending its signal releases mechanisms adjusting time between rounds.

The figures on dial are engraved and have special setting devices so that dials, when set, only show the figures of the number to which it is set; these dials are made to run as many rounds as may be required. In conjunction with the manual transmitter are two ten-circuit automatic transmitters arranged to work in unison.

The duty of these transmitters is to protect all working lines from possible interference and avoid the intermixing of any signal that may be coming in. They accomplish this by locking their own relays, except the working relay. The instant a signal from a street box begins coming, the transmitter repeats the coming signal instantaneously to all the gong and bell circuits, this work being all done automatically. Working with these transmitters are two pen-inking registers, which record all alarms in ink characters on a strip of paper, supplied automatically. The Bureau also has a Howard regulator, or clock, and in connection with same time stamps, which automatically stamp the time, year, month, day and minutes, as well as A. M. and P. M., on paper ribbon that receives the call. Two of these stamps are in use, respectively, in fire and

Digitized by Google

police departments, or four in all. The Howard regulator sends out one blow every three hours, except at 12 A. M. and 3 A. M. These are correct time taps and test all gong lines and all the instruments on the gong lines. The clock is kept correct from the tick of a relay operated by the clock at the Allegheny Observatory, on Observatory Hill.

Among other appliances which deserve passing notice is a ten-circuit working board, mounted in mahogany. At the top of it are annunciators and red lights, showing the working conditions of all gong lines, carriers, all switches, and controlling local work in office and the test switches for the eight police circuits.

In addition, there is a six-circuit storage board for police telegraph, also in mahogany case. This is equipped with all necessary switches for charging or discharging batteries, and also for taking care of charging current.

A ten-circuit gong line board controls all engine houses, and also the automatic transmitters, which are so arranged that there can be no possible mix-up in the event of two alarms being sent in simultaneously. It also controls the number of rounds going to the engine houses, and is so arranged that an alarm can be sent to any engine house independently of the others. This circuit board is also equipped with automatic devices for charging and discharging the storage batteries. There are also jumper clocks in both Council chambers, and in various offices throughout City Hall, worked electrically from the Howard clock.

Severe storms during the year did great damage to the overhead wires, but this damage was speedily repaired, and no section of the city was without protection for any considerable time. A number of old poles were replaced by new ones, and many changes were made in overhead wires in various parts of the city.

The number of fire alarms sent in over the instruments was 212; of these 7 were second alarms, 4 third and 1 fourth alarm, while 50 alarms reached the office by telephone. These will be fully explained in the report of the Superintendent of the Bureau of Fire. There were 3,114 patrol wagon calls, and 26,710 reports from boxes to

Digitized by Google

headquarters, particulars of which will be given in the report of the Superintendent of the Bureau of Police.

During the year the street signal box system of the Fire Alarm Telegraph has been increased by the addition of twelve non-interference signal boxes, running the total up to 236, and to the police telegraph three new boxes have been added, making a total of 107.

The underground wires in use by this department are giving good satisfaction. We have properly set and connected eighty-nine of our pedestals, for underground wires, to the Central District & Printing Telegraph Company's conduits. Forty-six of these pedestals are in service for the fire telegraph and twenty-nine for the police telegraph, while the remainder are all ready for the cables and street boxes.

The underground district has been extended this year as far as possible with the amount of money at our disposal. A cable containing twenty-five signal wires and ten pairs of telephone wires, was laid from the fire alarm office in City Hall, along Ohio street to Sandusky street; thence north to Mowry alley and west of Boyle street; this cable is here divided, the telephone wires and fifteen of the signal wires going to a terminal pole at Carroll street, taking care of the aerial lines now at that point, with ample provision for future extension, as needed. It is proposed to extend the remaining signal wires, ten in number, and the telephone wires, along Ellsworth avenue and Irwin avenue, Taylor avenue and Fremont street, to a terminal pole on McCauslin alley, between Jackson and Franklin streets. But the amount of money at our disposal not permitting this, the cable was extended to the corner of Federal street and Mowry alley, where it now ends, ready for extension at some future time.

All of the fire alarm and patrol boxes in the district bounded by Federal street, Fairmount street, Sandusky street and Ohio street, are provided for by the new cable installed this year and are now connected with the fire alarm office by underground wires.

On account of the scarcity of ducts on Ohio street from City Hall to Sandusky street, we were obliged to put in a large cable to carry the wires now contained in the cables

Digitized by Google

installed some years ago, as well as the cable just installed. The old cables are left in use, but at some future time it may be necessary to cut them over into the large new cable, so as to leave the ducts they now occupy available for additional telephone cables of the Central District & Printing Telegraph Company.

The cable installed this year is identical with our entire cable system, which has given such complete satisfaction, and was furnished and put in place by the Standard Underground Cable Company, of Pittsburg. In connection with this year's extensions we used the following amounts of cable:

741-0 Containing 60 signal wires, No. 14 B. & S. G. and 25 pairs of telephone wires, No. 18, B. & S. G.

1930-0 Containing 25 signal wires and 10 pairs of telephone wires.

1582-3 Containing 15 signal wires and 10 pairs of telephone wires.

290-0 Containing 10 signal and 10 pairs of telephone wires.

500-0 Containing 4 signal and 1 pair of telephone wires.

The cable referred to above contains 123,344 feet of signal wires and 114,090 feet of telephone wires, which have thus been added to our underground system the past year.

In my report last year were two recommendations; one to have each engine house included in two alarm circuits, with an indicator at central office to inform the operator instantly of any break in the circuits, the circuits to be available for automatic transmission of alarms to engine houses.

My other recommendation was for the appointment of an inspector of outside wiring, for the reasons then set forth.

In addition to these suggestions, I very earnestly desire to offer another and more important one, and with it venture to include a grave warning. I refer to what I consider the imperative necessity of placing the fire alarm plant and system in a building by itself. This, in view of the present risks taken, I cannot urge too strongly. As

Digitized by Google

now arranged, all our wires run under the floor of the central office, and, in the event of a serious fire in the City Hall building, the results would be disastrous in the extreme, while the effects of the damage done would be far reaching and beyond the hope of immediate repair.

In my present quarters I am badly cramped for room, the battery supplies and workshop being in one room, while the fire alarm apparatus and police telegraph are in another room, with the hall dividing the rooms. Absolutely no worse place could be found for the plant than where it is. Hence, I again urge its removal to a separate building and to a location where danger would not menace it every hour. As the plant now is, should a fire occur in the building, it would mean that the entire city would be left without any protection. This would, therefore, invite a possible, or, indeed, probable great loss to property and perhaps even to life. Heat and light companies do not string an additional wire when they need more current; they simply put it into the line already up, and the high voltage that some of the companies carry now is dangerous in the extreme. A building to suit all requirements can be constructed entirely of steel and cement, with proper foundation, or it could go in a new safety building; and the cost of such a structure, I am informed, would not be excessive.

Concluding, I wish to state that our workshop is badly in need of a larger and more modern lathe. With even the one in present use I have been able to save the city hundreds of dollars, and with a larger lathe, economy could be still more closely studied and a greater saving secured.

Thanking you, sir, for your kind and considerate treatment at all times, I beg to remain,

Respectfully,

ELMER G. LOOMIS.
Superintendent Bureau of Electricity.

REPORT OF BUREAU OF BUILDING INSPECTION.

CITY OF ALLEGHENY, Pa., March 1, 1903.

Henry Albrecht, Esq., Director Department of Public Safety:

SIR:

I have the honor to submit to you herewith my ninth annual report of the Bureau of Building Inspection, for the year ending February 28, 1903.

EXTENT OF BUILDING.

In last year's report I had the pleasure of reporting largely increased building operations over the preceding year. It is, therefore, with great pleasure that I, this year, report still greater advance, being an increase of $700,000 over the building operations of last year, and an increase of $216.50 in the receipts of this office.

The increase of receipts would have been $152.50 additional, had not Councils exonerated the Allegheny General Hospital of its permit fees.

NEW BUILDINGS, ADDITIONS AND ALTERATIONS.

I again call your attention to the tabulated figures hereto appended showing the number of new buildings, additions and alterations, the purposes for which they are intended to be used, the materials of which they are constructed and their estimated cost.

The specifications for the above are filed in this office, and permits for the same have been issued. Monthly statements for the money received for said permits have been presented at their proper time, and such moneys have been duly turned over to the City Treasurer.

Digitized by Google

COMPLAINT AND CONDEMNATION NOTICES.

One hundred and eighteen complaint and 14 condemnation notices were issued during the year. In all cases compliance with the law was secured.

FRAME, JACKSON FRAME AND IRON-CLAD BUILDINGS.

In the past year 78 petitions for permission to erect buildings of these several kinds were presented, of which number 72 permits were issued.

SAFETY APPLIANCES AND FIRE ESCAPES.

I have the pleasure of again reporting that the requirements of the State law in regard to the above have been generally observed, and that no accidents have occurred during the year. Many fire escapes have been located by this office, and duly erected as ordered, so that structures in need of such protection are being supplied with reasonable rapidity.

I would again call attention to my previous recommendations: First, that the city ordinance should be so amended as to prohibit hereafter the erection of the Jackson frame variety of buildings. This I consider necessary for two reasons;one ,on account of its short life—seldom exceeding five years; the other, the more important, consequent danger to life and property beyond this period, both of which make it a menace to public safety.

Second, that greater protection, by means of fire escapes, be afforded to tenement and lodging houses. Owing to our dense population, a large number of the poorer class is compelled nightly to resort to these houses. Consequently in case of fire the danger to life, limb and property is simply appalling. That our city ordinance should comply with the State law in reference to such fire traps is beyond question.

Third, the same argument for humanity and protection applies to the electric wiring of buildings, as these are an ever present source of danger in several ways. I am con-

Digitized by Google

vinced that the inspection of all such work should come within the scope of your Department.

In presenting this my ninth annual report, permit me to express my appreciation of your considerate treatment of this office and the harmonious relations that have so long existed between us.

Respectfully,

JOHN HECKERT,

Superintendent Building Inspection.

In conjunction with the foregoing I have served notices for the non-compliance of the following ordinances:

Transient dealers	2
Dumping stone, brick and iron on asphalt streets	9
Mixing mortar and cement on asphalt streets	14
Violating the smoke ordinance	10
Shifting engines using soft coal	27
To erect sheds over sidewalks when building	4
Blasting permits issued	34
To remove shanty boats from within city limits	18
Water leaks (reported to Water Department)	20
Obscene literature displayed	4
Lots not properly drained	1
Spilling dirt and coal from loose and overloaded wagons	12
To clean snow and ice from sidewalks	40
Spouts not connected with sewer	8
Steam exhaust in streets and alleys	1
To bridge sidewalks when excavating	2
Driving on sidewalks	8
Lots under grade not fenced	3
To paint telegraph poles	2
Excavations not protected	9
Higher explosives transported and stored	3
Street railways to sprinkle streets	1
Gas engine escape noise	12
Slot machine without license	24
Spilling oil on asphalt streets	2
Miscellaneous complaints	120
	390

After giving proper notice I have been compelled to make information for the violation of the following ordinances:

Obstructing sidewalk	5
Obstructing street	4
Driving on sidewalk	2
Mixing mortar on asphalt street	2
Slot machine without license	1

Digitized by Google

Railroad train obstructing street crossing	1
Awning illegally constructed	1
Spilling dirt from overloaded wagon	2
Sign projecting from building	2
Gambling slot machine	1
Signs placed on telegraph poles	1
Casting dirt on street	2
Low chimney	2
	26

I have examined sites for wooden, iron-clad and Jackson frame buildings that have been petitioned for and have reported to the Committee of Public Safety on the same, as follows:

November . . .
December . . .

1903.

January . . .
February . . .

3

The Smoke Nuisance Ordinance of June 18, 1897, h practically become inoperative, since a decision has be rendered on the Pittsburg Smoke Ordinance in our Cou by Judge Stowe, and also by the Superior Court. O ordinance is not worded exactly like the Pittsburg ord nance, but in so far as it applies to portable and stationa boilers it is the same.

W. H. Keech & Co., of Pittsburg, were fined by Alde man S. J. Toole for violating the Smoke Ordinance. T case was appealed to our Court and Judge Stowe declar the ordinance illegal, claiming that the ordinance was n general, as it only applied to stationary and portable bo ers and not furnaces. The case was appealed to the S perior Court and the lower Court was sustained.

REPORT OF PHYSICIAN, EASTERN DISTRICT.

CITY OF ALLEGHENY, Pa., March 1, 1903.

Barton Grubbs, Esq., Director of Department of Charities:

DEAR SIR:—

The following report for the year ending February 28th, 1903, is respectfully submitted:

	Prescriptions.	Visits.	Office Calls.	Births.	Deaths.
1902.					
March	55	59	37	.....	1

January	28	20	20	.....	1
February	65	51	49	.....	2
Total	466	432	345	.....	5

Owing to the healthy condition of the district and the general prosperity of its inhabitants, there has been very much less call for the services of the District Physician during the past year. There has been no epidemic except smallpox, which is handled by another Department. The death rate is larger in proportion to work done than has been common. Of these deaths, two were caused by alcoholism, one from valvular disease of the heart, one from consumption, and one from pneumonia. With one exception they were adults over 40 years of age. Four white, one colored; one American and four of foreign birth.

Digitized by Google

The lower portion of the district has been flooded twice during the year, and yet, strange as it may seem, there has not been a single case treated by your Physician that could be traced to that cause. Very many of your cases during the last year have been sent to the hospital and paid for by the city. We hope that in the near future those in authority will decide to build a City Hospital, over which the Director of the Department will have complete control.

Remembering the very pleasant relations that have existed between your Department and myself during the past, I wish to thank you and those associated with you for making those relations possible.

Yours very respectfully,

J. B. WETHERELL,
Physician, Eastern District.

REPORT OF PHYSICIAN, WESTERN DISTRICT.

CITY OF ALLEGHENY, Pa., March 1, 1903.

Barton Grubbs, Esq., Director Department of Charities:

DEAR SIR:—

I have to report the work done by the Physician in the Western District for the year ending February 28th, 1903, as follows:

	PRESCRIPTIONS.	VISITS.	OFFICE CALLS.	DEATHS.	BIRTHS.
1902.					
March	87	72	29	2	.....
April	78	62	25	1	.....
May	42	22	21	.....	.....
June	74	49	25	.....	.....
July	61	51	19	2	.....
August	37	38	12	.....	.....
September	25	23	11	.....	1
October	94	62	39	.....	1
November	67	47	21	1	.....
December	41	47	10	1	.....
1903.					
January	62	60	22	.....	.....
February	56	35	24	.....	.....
Total	724	568	258	7	2

Of the deaths, one had occurred before my arrival and another three hours later. Both had medical attention previous to my summons. Of the other five deaths, three were necessarily hopeless, two due to consumption and one to aneurism of the arch of the aorta. This last case lived three years after diagnosis had been made and whose correctness was verified at autopsy. The other two deaths were due to pneumonia, both in bad subjects, one a poorly nourished colored child of 13, and the other in a man of 55 in years, but 70 in physical condition.

Digitized by Google

The character of the work is like that of the preceding year. The low death rate is due to so many of the cases being sent to hospitals. This must of necessity be the case, for in prosperous times the unfortunate ones usually are boarders.

The associations with the Director and his assistants have been most agreeable, and they have meted me my share of their approbation.

Respectfully submitted,

JOS. C. OHAIL,
Physician to the Western District.

REPORT OF PHYSICIAN AT LARGE.

CITY OF ALLEGHENY, Pa., March 1st, 1903.

Barton Grubbs, Esq., Director Department of Charities:

DEAR SIR:—

I have the honor to submit to you the following report of my services rendered during the year ending February 28th, 1903:

	Prescriptions.	Visits.	Office Calls.	Births.	Deaths.
1902.					
March	57	17	37	.....	.....
April	55	36	23	.....	.....
May	31	11	20	.....	.....
June	26	13	16	.....	.....
July	61	27	37	.....	.....
August	48	27	27	.....	1
September	80	38	45	.....	.....
October	50	35	22	.....	.....
November	23	15	11	.....	.....
December	41	21	21	.....	.....
1903.					
January	48	33	17	.....	2
February	56	31	28	.....	.....
Total	576	304	304	.....	3

Of the three deaths, one was from typhoid fever, a case seen first when in an almost moribund condition, within a few hours of death; one was from pericarditis, and one from pneumonia. Two were foreigners (Lithuanians), much debilitated by neglect and disease before they were seen by any physician.

In spite of the prevalence of smallpox in the city during the past winter, and notwithstanding the fact that lower Allegheny has been visited by two floods during the past few weeks, which always carry in their train bronchitis, pneumonia and kindred ailments, I believe that the gen-

Digitized by Google

eral average of sickness among the city's poor has been less than during previous years. Also the continued prosperity and steady employment for the laboring classes has enabled them to live under better sanitary conditions and to provide for their sick without assistance from this department. I must reiterate what I have said in past reports, that the large majority of the cases coming under the care of this department, especially those requiring removal to the hospitals, are among foreigners who have been in this country too short a time to adapt themselves to new conditions, both of living and of climate.

Respectfully submitted,

S. M. RINEHART,
Physician at Large.

REPORT OF THE SUPERINTENDENT OF THE ALLEGHENY CITY HOME.

CLAREMONT, Pa., March 1, 1903.

Barton Grubbs, Esq., Director Department of Charities:

DEAR SIR:—

I herewith submit to you my twelfth annual report of the City Home, Asylum and Farm for the year ending February 28, 1903.

There are in the house at the present time 257 white males, 148 white females, 8 colored males, 8 colored females, a total of 421 adults; 1 white male child, 2 white female children, 2 colored male children, a total of 5 children, making an aggregate of 426, a gain of 25 during the year. Tramps assisted ,none. Total number of days supported, males 82,714, females 59,108, an aggregate of 141,822; average daily number supported, 388.5.

Of the foregoing number, there are confined in the six insane wards 107 white males, 97 white females, 1 colored male, 6 colored females, a total of 211, making a gain of 12 during the year. Number of days supported, males 37,158, females 35,958, a total of 73,116 days; average daily number supported, 200.3.

There were admitted during the year 239 white males, 81 white females, 16 colored males, 8 colored females, 5 white male children, 9 white female children, 1 colored male child, 3 colored female children, a total of 362 admitted. There were born 4 white male children, 5 white female children, total number born 9, making an aggregate of 371 admitted.

Discharged, 160 white males, 45 white females, 7 colored males, 6 colored females, 7 white male children, 9 white female children, 1 colored male child, 4 colored female children, a total of 239. Died, 57 white males, 31

Digitized by Google

white females, 9 colored males, 3 colored females, 2 white male children, 5 white female children, a total of 107, an aggregate loss of 346.

Of the above there were admitted to the insane wards 47 white males, 39 white females, 2 colored males, 2 colored females, a total of 90 admitted. There were discharged 27 white males, 16 white females, 1 colored female, a total of 44 discharged. Died, 17 white males, 16 white females, 1 colored male, a total of 34 died in the insane wards.

The only additional help that has been employed was one male nurse. The house and insane wards are in an overcrowded condition with the exception of the female poor department. We have not been able to occupy any part of our new building, but expect to move one male ward in a very short time. This will give the male poor department the use of male ward No. 3, in which about 40 inmates can be placed, which would relieve the present congestion on the second floor, where we now have an additional bed in each room, with beds in the corridors. Each of the male insane wards is overcrowded at the present time.

During April there was a smallpox patient admitted. He only lived a few days. The house was thoroughly disinfected, the hospital in which he died fumigated by the Board of Health of the city, the inmates all vaccinated, and there was no further spread of the disease. An insane patient escaped while cleaning windows; was returned from the home of his brother the next day. An inmate of Male Ward No. 2 attacked the Resident Physician while visiting the ward, about 8 a. m., knocked him down and escaped to the river. He was followed by two attendants. He entered the river, which was high at the time, and was drowned. Coroner's verdict, accidental drowning while insane. Another inmate escaped from the same ward about 9 a. m., was arrested from street car at Sharpsburg bridge; was notified by telephone and sent after him and he was returned to the Home at 2:30 p. m., none the worse for his outing. These escapes were caused by having new attendants who had not become familiar with the whims of their patients. A colored female patient escaped

Digitized by Google

from Ward No. 3 about 6 a. m., and made her way to the city and was arrested and returned to the asylum at 3:40 p. m. There were no attempts to commit suicide during the year.

Part of the stone wall along the railroad fell down; had it repaired. Tore down old machine shop, paint shop blacksmith shop and soap house. They were unsightly and dilapidated. Erected a new brick soap house, paint shop and engine room for dough mixer in rear of bake house.

Our potato crop was a failure. Had no fruit. Cabbage. corn and beans were fair. Cow beets, had a large yield, 2,200 bushels. Tomatoes, but a part of crop. Hay light Put up 30 barrels sauer kraut, 13½ barrels string beans, 393 gallons tomatoes; butchered 54 hogs, which weighed 7,868 pounds.

The cellars, stables, all the outhouses and all of the fences were whitewashed.

We received during the year 26 carloads of street sweepings containing 747 tons, from the city, the only cost being the freight.

A number of changes have taken place among the employees during the year, and there are no vacancies at present.

Much work has been done by our people in and around the new buildings and much remains to be done before they are entirely completed. The grounds in the rear are all to be graded and fences built.

The following is a detail of the work done during each month of the year.

MARCH, 1902.

Altered ice plant and put on new valves. River at flood height; bottom flooded. Part of stone wall along railroad fell down. Hauled liquid manure from pit to bottom. Tore down old machine shop. Heavy fall of snow on the 5th; over 12 inches. Men kept busy cleaning walks and roads. Put new castors on tables in big dining room. Used last of our own potatoes on the 9th. Gathering and burning brush in orchard. Trimmed grape vines. Put

Digitized by Google

new rope on elevator, Male Wards Nos. 1 and 2. Filled hot beds and graded for cold beds west of greenhouse. Painted pipes in ice plant. Tore down old paint shop. Put smoke bells on gas fixtures in Male Wards Nos. 1 and 2. Built cold beds and fit on sash. Hauled street sweepings from cars to pile in bottom. Repaired conductors. Hauled street sweepings from pile in bottom to the hill. Patched walls in rooms female side of main building. Hauled brick from car for new soap house. Repaired wire fences around chicken yards. Dug foundation and put in concrete for new soap house. Whitewashed cellar of main building. Put old laundry engine in good order. Rolled and raked lawn and sowed grass seed. Put steam pipe in cold beds. Repaired roof of administration building.

APRIL, 1902.

Repaired stone wall along railroad. Dug up walk in front of male insane building and hauled cinders for a foundation for walk. Getting woodwork ready for soap house, paint shop and engine room back of bake house. Ditching cellar new male building to drain the water from it. Repaired wagon beds. Fertilized lawn. Laid sewers for conductors in front of new male building. Hauling street sweepings from cars and from pile in bottom to orchard. Hauled manure from pit to bottom. An inmate admitted on the 14th, was discovered that he had smallpox on afternoon of the 15th; the health authorities neglected to remove him, and he died on the 18th and was buried in the Home cemetery. Planted early potatoes on the 16th, also set onions, peas and spinach. Plowed garden lot at chicken houses. Four health inspectors from the city came and disinfected male side of the house and fumigated male hospital. Plowing in orchard. Done the carpenter work on soap house, paint shop and engine room for dough mixer. Put up shafting in bake house for dough mixer. Painted floor male hospital. Planting garden truck and potatoes. Working in berry patches and grape vines. Run steam line from boiler house to engine in new soap house. Laid French drain west side of bot-

Digitized by Google

tom next to railroad. Cleaned rooms and corridors in all the different wards and administration building. Removed ventilator from morgue building and placed it on new soap house. Placed dough mixer in bake house and tried it. Some alterations to be made in pulleys and shafting.

MAY, 1902.

Planted fodder corn in bottom. Started to use dough mixer in bake house. Repaired roof of farmer's house. Hauled stone for French drains in bottom. Repaired fences. Hauling manure from pit to orchard. Laid cement floors in engine room, paint shop and soap house. Planted potatoes on the hill and in the orchard. Cleaned ceiling paper, front hall. Laid sewer from soap house to private road. Took sawdust out of ice house on the hill and covered ice in lower house. Took down big kettle in old soap house and repaired it. Moved both kettles from old soap house to new house and connected water and steam to them. Hauled street sweepings from car to pile in bottom. Tore down old soap house and blacksmith shop. Laid big trap for sewer under main entrance to male building and started to lay sewer in cellar. Used last of ice piled in yard on the 16th. Repaired roof on barn and on ice house. Papered walls and ceiling third floor hall, and ceiling second floor hall, administration building. Set out greenhouse plants in the beds on the lawn on 22d and 23d, and started to whitewash fences. Repaired gates at scales and east of female building. Used last of sauer kraut on the 23d. Planted vegetables and garden truck and working in garden. Whitewashed horse and cow stables, wagon shed, pig pens and chicken houses. Putting gas pipe in new male building.

JUNE, 1902.

Had cataract removed from eye of a male patient at Allegheny General Hospital; had other eye operated on last year. Put up new gate between ice and smoke houses. Started to lay sewers in new female building. Painted tin

Digitized by Google

roofs of morgue and porches of Male Wards Nos. 1 and 2. Putting gas pipe in female building. Whitewashing boiler house, engine room, paint shop and soap house. Hauled manure to cabbage lot on the hill and plowed it. Repaired and overhauled conductors on main building. Laid new linoleum in officers' kitchen. An inmate from Male Ward No. 2 escaped while cleaning windows, and was apprehended at home of his brother in Bellevue and returned next morning. Bronzed radiators in main building. Cleaned weeds from around fence and along road to river. Painted benches and gas posts on lawn. Put sewers in for conductors, new female building. Hauled street sweepings from cars to pile in bottom. The Committee on Charities, with friends, visited the Home and inspected new buildings on the 24th. Weeding, cultivating and working in garden. Cleaned up along country road. Cutting weeds and grass. First new cabbage, string beans and beets gathered on the 26th. Potato bugs are numerous and was obliged to dose them with paris green. Painted gutters on laundry and bake house. Repaired floor of basement, Female Ward No. 3.

JULY, 1902.

The Resident Physician was assaulted by an inmate of Male Ward No. 2, while entering the front door; the inmate escaped and ran to the river; was followed by two attendants, but he had reached the river ahead of them and jumped in; the river was high and he was drowned. This was about 8 a. m. on the 1st. The body was recovered about two hours later. Painted cornice of laundry and bake house. Planted late cabbage. On the 4th of July the inmates were provided with lemonade and in the evening they were taken out on the lawn and witnessed a fine display of fire works, kindly provided by Recorder J. R. Murphy. Harvested wheat. Cleaned rust off iron porches, Male Wards Nos. 1 and 2. Cutting hay. New potatoes, cabbage and beans on the 9th in big dining room. Potato bugs very bad. Was obliged to use paris green. Put new bread rack in bread room. Hauled wheat and hay to barn. Had iron porches painted with asphalt. Re-

Digitized by Google

paired and painted steps to front porch. Plowed old ice pond in bottom and planted it with beans. Put up gas main through cellar for male building. Had all the men that could be spared gathering potato bugs. Painted all the iron and paper roofs on outbuildings. On the 22d Hon. Judge Johnston, of Delaware county, and P. C. Boyle, of Oil City, members of the Committee on Lunacy, with Cadwalader Biddle, Secretary of the State Board of Charities, visited the Home and Asylums. Putting up soil pipe in male building for floor traps. Repairing fences on the hill. An inmate escaped from Male Ward No. 2 about 9 a. m. on the 31st; was arrested from street car at Sharpsburg bridge; was notified by telephone and sent for him and he was returned to the Home at 2:30 p. m., none the worse for his trip. There was a great deal of rain during the month.

AUGUST, 1902.

Hauled street sweepings from car to the hill. Repaired greenhouse. Repaired hot water heaters male building. Repaired pig pens. Made mixing boxes and making runway and getting ready to lay cement floors, new male building. Repaired roof of carpenter shop. Hauled cinders from water works for concrete for cement floors, new male building. Placed floor traps in male building. Repaired fences around Engineer's and Farmer's houses. Hauled street sweepings from pile in bottom to the hill. Digging for foundation for new water tube boiler in boiler house. Working in the garden weeding, hoeing and cultivating vegetables. Received and hauled ten carloads of street sweepings during the month. On the 29th, Dr. J. M. McManigal, Resident Physician, died suddenly of heart trouble.

SEPTEMBER, 1902.

Clothing in dry room, Male Ward No. 2, caught fire and destroyed one and a half dozen towels, some rags and the drying racks. It occurred at noon; supposed to have caught from spark from smoke pipe of one of the inmates.

Digitized by Google

Dr. W. N. Marshall, our former Resident Physician, was placed in charge of the Home as Acting Resident Physician until such time as other arrangements can be made. Hauled gravel from pit for concrete for boiler foundation, which was completed on the 4th. Started to make sauer kraut. Gathered onions in bottom and hauled them to vegetable house. A colored female patient from Ward No. 3 escaped about 6:30 a. m. on the 8th. She reached the city, was arrested and returned to the asylum at 3:40 p. m. Digging potatoes on the hill. Started to put up tomatoes. Cementing first floor new male building. Put gas in engine room back of bake house. Plowing field above orchard for wheat. Cutting corn west side of bottom. Put up 146 glasses and 6 quart jars grape jelly. Dr. W. N. Marshall, Acting Resident Physician, assisted Dr. Witherspoon in removing a cataract from the eye of a male inmate on the 17th. Putting up string beans for winter use. Both boilers were inspected by Boiler Inspector. Planted 7¾ acres wheat. Digging potatoes on the hill. Cut fodder corn in bottom. Lifting potatoes in orchard. Very poor yield; only 125 bushels.

OCTOBER, 1902.

Cementing floors second story new male building. Painted boiler fronts. Finished lifting potatoes on the 10th. At 5:15 on the morning of the 13th was notified by butcher that he had discontinued sending meat; arrangements were at once made with another man, who had meat here in time for dinner. Attended convention of the Directors of the Poor and Charities of Pennsylvania, at Somerset, Pa., on the 14th, 15th and 16th. Gathered cow beets in bottom; 2,200 bushels. Cementing floors second story female building. Husking corn and hauling it to crib. Set out tulip bulbs in beds in front of house and beds on lawn. Cleaning walls and ceilings of rooms first floor male side. Painted porch benches Male Wards No. 1 and 2. Hauled manure from pit to bottom. Trimmed terrace for sod in front of new male insane building.

Digitized by Google

NOVEMBER, 1902.

Plowing west side of bottom. Cementing floors first story female building. Plowing in back field next to workhouse. Cutting and hauling sod from Ross. Laying sod on terrace west end male building. Putting down asphalt strips in cement floors first story male building. Cleaning ceilings and walls of basement administration building. Repaired indirect heaters in cellar male side. Hauling and pitted cabbage west of greenhouse. Butchered 18 hogs on the 10th. Filled walk in front of male buildings with cinders. Grading in rear of female building and hauling dirt to foot of terrace in front of male building. Repaired steam line in vault where 3-inch line connects with 8-inch line. Hauling cinders from workhouse to walks in front of buildings. Cleaned walls front hall. Put in sewer drop in rear of male building. Repaired fence along railroad where posts were rotted off, and straightened up fence around bottom. Finished grading west end of lawn. Filling around foundations of new buildings. Built sewer drop in rear and west end female building and connected them with sewer. Hauled street sweepings from pile in bottom to west side of bottom. Top coated covered way leading to female building with cement. The new Keeler boiler was put on railroad siding on the 23d. Changed steam pipe in boiler house leading to bake house and covered it with asbestos pipe covering. A patient from Male Ward No. 1, while working with team on the hill escaped to the city; was apprehended four days after and returned to the asylum. On the 27th Thanksgiving day, had our usual turkey dinner, viz., roast turkey, cranberry sauce, mashed potatoes, celery, bread, dried apple pie, apples, tea and coffee. Had chapel service in the afternoon, at which there was instrumental music furnished by the Crafton Quartet. Repaired conductors on front of house. Laid new water line to barn from fire plug at scales.

DECEMBER, 1902.

Repaired ice pond. Took down old steam lines in boiler house leading to bake house. Digging parsnips and scat-

Digitized by Google

tering street sweepings in bottom. Plowing west side bottom. Changed steam pipe to hot water boiler in boiler house. New Keeler boiler set in place for bricklayers. Pitted seed potatoes. Excavating for foundation for boiler house extension. Put in concrete foundation for boiler house extension and hauling gravel from pit for concrete. Turned steam in new male building on the 6th. Removed stone wall on lawn in front of female building and grading terrace. Made new table for men's sitting room. Made new door and frame for boiler house extension. Raised main steam pipe in boiler house to clear new boiler. Put up line of pipe to carry condensation from pump in male building to boilers. Working on terrace east end of female building. Grading between boiler house and coal shed for gutter. Paving gutter back of boiler house. Received two flats manure on the 20th. Hauled manure from river to pile in bottom. Repaired fence along hot beds to scales. Repaired old washing machine in laundry. Built new wagon bed for bread tire wagon. Made gas connection and burners for new boiler. Christmas dinner, roast pork, mashed potatoes, celery, bread, dried apple pie, oranges, candy, tea and coffee. Grading in cellar of old male building for cement truckway to food elevator in new male building and laid cement walk. Digging ditch for water pipe in cellar new male building. Made large tanks of galvanized iron; each will hold barrel. Butchered 30 hogs during the month.

JANUARY, 1903.

Laying water and sewer pipes in cellar male building. Digging out apple trees east side of orchard, taking out every other one. Hauled manure from pile in bottom to orchard. Connected up gas line to burner under new boiler. Connected steam line in tunnel to female building. Hauled stone from old wall in front of female building to hog lot above road. Repaired altar in chapel. Painted new wagon bed. Cut and hauled 38 loads 7-inch ice from Terrel's pond to ice house on the 10th, and steam turned on female building for the first at noon. Had shortage of gas during cold spell and was obliged to use wood and

Digitized by Google

coal under boilers to keep up sufficient steam for heating purposes. Raised steam in new boiler for first time on the 13th. Butchered 8 hogs on the 14th, making a total of 54 butchered, weighing 7,868 pounds. Cut and hauled 30 loads 6-inch ice from Terrel's pond to ice house on the 16th. Water pipe burst at regulating valve on main line, near hot beds. Put new water pipe to closets and bath tub first floor male side. Burning brush in orchard. Hauled street sweepings from cars to pile in bottom. Hauled brick from car for boiler house extension. Putting asphalt in cement floors second story male building.

FEBRUARY, 1903.

Waste steam pipe in cellar center of old building bursted; had it repaired. Started to put up plumbing in new male building on the 2d. Hauling street sweepings from cars to pile in bottom. Putting up waste line in cellar of old building to boiler house. Hauling dirt from east of female building to rear of male building. Laying cement floors at stair landings female building. Hauled sand from river. Scrubbed floors new male building for painters; had to go over them three times. Had a cold spell on the 18th and a shortage of gas. Had to fire boilers with coal and wood to keep up steam. Hauling street sweepings from pile in bottom to orchard on sled. Cut and hauled 43 loads 6-inch ice from Terrel's pond to ice house on the 20th and 21st. Covered ice in ice house with saw dust. Laid cement floors at stair landings in male building. Filled hot beds. Used last of string beans on the 26th. Had gang from insane ward polishing floors new buildings. Laundry engine broke down; did not get it repaired for two days. Hauling cinders from workhouse around barn and scales.

CONCLUSION.

The average number supported during the year was 7 more than last year and the average in the insane wards was 2 more. The number of deaths was 30 more, and the number of births was 4 more than the previous year.

Digitized by Google

The heating, plumbing, sewering, lighting and steam fitting has been satisfactory. This service is still under the care of George W. Todd, the Engineer, who has everything in good condition and whose duties are increasing as our plant is enlarged. We now have 5 steam and 3 gas engines to look after, besides the extended lines of water, gas, steam and sewer pipes. A new 175 H. P. Keeler boiler has been added since last report and has been put into service since January 1st.

Robert G. Allison is still in charge of the farm and stock as Farmer. His crops have been equal to those of our neighbors. The stock is in good condition and the farm implements in good repair. He has much other work than farming to look after, which is willingly and cheerfully done and in a satisfactory manner.

The Protestant religious service is still under the charge of Rev. John Henderson, Chaplain. He holds service in the chapel every Sabbath, attends all Protestant funerals at the Home, visits and consoles the sick. He provides a German service for the inmates the first Sabbath of each month.

The Catholic service of the Home is looked after by St. Mary's R. C. Church at Sharpsburg, who are very prompt in answering our many sick calls. Confession and mass are held monthly.

Dr. W. N. Marshall has been acting as Resident Physician of the Home since the death of Dr. J. M. McManigal, who died suddenly of heart trouble on August 29, 1902.

The attendants in the insane wards and nurses in the hospitals have been vigilant and attentive to their duties. Their patients and wards have been kept clean and in a tidy condition.

The other officers and employes have given entire satisfaction, and to each and all the officers and attendants I am thankful for the willing assistance given me at all times.

No epidemic has visited us during the past year. The inmates are contented and comfortable as they can be made in their crowded condition. Their health has been as good as can be expected of the aged and decrepit. Had but two cases of fever. They were both admitted suffer-

Digitized by Google

ing from the disease. The chronic cases are still on the increase.

In closing I tender to you my sincere thanks for the many kindnesses shown me and for your advice and for providing all necessary material and supplies asked for and for your many visits to the Home.

I herewith present the statistical report of the movements of the inmates, with the inventory of stock on hand, also the reports of the Farmer and Chaplain, all of which is respectfully submitted.

WILLIAM P. HUNKER,

Superintendent.

REPORT OF RESIDENT PHYSICIAN.

CLAREMONT, Pa., March 1, 1903.

Mr. Barton Grubbs, Director, Department of Charities:

DEAR SIR:—

I hereby submit the annual report for the year ending February 28, 1903, for the City Home and Insane Hospital.

The general health of the inmates of the Home and Insane Hospital has been good. There have been no contagious diseases except one case of smallpox, which was sent to the Home from the city, and had not fully developed when received, and he was only here about three (3) days until he died.

The increase in the number of deaths has been in proportion to the increased population of the institution. The great majority of the patients that died were in bad condition when received. The deaths in the Insane Hospital were males 18, female 16; in the Home, males 48, females 18, children 7, making a total of 107 deaths. There were 9 births.

Respectfully submitted,

W. N. MARSHALL,

Resident Physician.

REPORT OF CHAPLAIN.

HOBOKEN, Pa., March 1, 1903.

Barton Grubbs, Esq., Director, Department of Charities, Allegheny City, Pa.:

DEAR SIR:—

It again becomes my duty and I herewith present my report as Chaplain of the Allegheny City Home for the year ending March 1, 1903.

The year just closed has found more persons admitted to the different departments of the Home than any year in all its previous history. This increase of inmates to the Home enlarges the field of poverty, sickness, suffering, and uncared for old age that comes under the observation of those whose duties require them to mingle with the class that find shelter and care in a place of this kind.

The Sabbath services for the English speaking and German speaking inmates have been conducted the same as in previous years. We have visited the sick and buried the dead as in years past. The religious papers of Pittsburg have continued to furnish us many copies of their publications for the benefit of the inmates.

Major Hunker, Superintendent, and all the officers at the Home have aided me in my labor in every way they could.

Thanking you for your kindness that has been shown me during the many years that, by your appointment, I have served as Chaplain of the Allegheny City Home, I remain

Sincerely yours,

JOHN HENDERSON,

Chaplain.

AN ORDINANCE

Providing for the licensing of peddlers, regulating the use of metal plates issued to them, providing a penalty for the violation of the provisions hereof, and accepting the provisions of an Act of Assembly relative to the same, approved June 10, 1881.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That from and after the passage of this ordinance, it shall not be lawful for any person or persons (except soldiers, sailors and cripples) to be employed or concerned in the business or employment of hawking, peddling or selling at retail, produce or merchandise, or either or any of them, from house to house, upon the public streets, lanes, alleys, highways, wharves, railroad depots, or other public places within the limits of the City of Allegheny, without having first taken out a license as hereinafter provided.

Sec. 2. It shall be the duty of the City Treasurer, upon application of any person or persons, who may desire to be engaged, employed or concerned in the business aforesaid, and upon payment by them into the city treasury of the amounts hereinafter specified, to issue a license to such person or persons authorizing and allowing them to transact such business until the 1st day of March next succeeding the date of said certificate.

Sec. 3. It shall be the duty of the City Treasurer at the time such license is taken out to issue a metal plate having thereon engraved the words "Licensed Peddler," and also the year for which said license is granted, to any person or persons who use any kind of a vehicle in said business and who pay for said license as hereinafter set forth.

In addition to the cost of license, as hereinafter provided, the person or persons using vehicles as aforesaid shall pay for said metal plate a sum not exceeding fifty (50) cents.

Digitized by Google

Sec. 4. The rates payable for licenses shall be as follows, to-wit: All peddlers using vehicles drawn by one or more horses shall pay the sum of fifty ($50.00) dollars per annum for each vehicle so used or so employed. All persons using pushcarts, wheelbarrows or other vehicles shall pay the sum of thirty-six ($36.00) dollars for each vehicle so used. Foot peddlers, to-wit: Those using packs, trays, baskets or other articles for transporting produce, merchandise, etc., shall pay the sum of twenty-four ($24.00) dollars per annum. Provided, that any person taking out a license as provided for by this ordinance, after the 1st day of August in any year shall be entitled to an abatement of one-twelfth of said license fee for each and every month which shall have elapsed since the 1st day of August, and provided, further, that in the peddling of any merchandise not more than two persons shall be permitted to accompany each vehicle, and only one person to each pushcart, wheelbarrow, pack, tray or basket.

Sec. 5. Nothing herein contained shall be construed so as to prevent farmers, gardeners or dairymen from selling the products of their farms, gardens or dairies, or milkmen selling or peddling milk from wagons, nor is it intended to prevent any person from selling at wholesale to merchants.

Sec. 6. Every person licensed in accordance with this ordinance shall permanently attach to each and every vehicle used by him, her or them, the license plate issued by the City Treasurer, and also a board or other suitable placard setting forth the number of the license procured by such person from the City Treasurer.

Sec. 7. The City of Allegheny, a city of the second class of the Commonwealth of Pennsylvania, hereby accepts the provisions of the Act of Assembly entitled "An act to prohibit the peddling or hawking of produce and merchandise in cities of the second and third classes within this Commonwealth without a license," approved the 10th day of June, 1881.

Sec. 8. It shall be the duty of the ordinance officer of the City of Allegheny, or of any of the policemen of said city upon view or information made and warrant issued to arrest any and all persons employed or concerned in the

Digitized by Google

business of hawking, peddling or selling at retail produce or merchandise, or either or any of them, within the limits of the City of Allegheny, without first taking out the required license and paying the fee therefor, and to bring such person or persons before the City Recorder of the City of Allegheny, or Police Magistrates thereof, and upon being adjudged guilty by said City Recorder or Police Magistrates, such person or persons shall be fined the sum of fifty ($50.00) dollars for each offense, which shall be recoverable with costs, together with judgment of imprisonment in the Allegheny County Jail or Allegheny County Workhouse not exceeding thirty (30) days, if the amount of such judgment and costs shall not be paid, and it shall further be the duty of the ordinance officer, or any of the policemen of said city, upon view or information made and warrant issued to arrest any and all persons violating any of the other provisions of this ordinance, and to bring such person or persons before the City Recorder or Police Magistrate, and upon being adjudged guilty by such City Recorder or Police Magistrate, such person or persons shall be fined for such violation not exceeding fifty ($50.00) dollars for any one offense, recoverable with costs, together with judgment of imprisonment in the Allegheny County Jail or Allegheny County Workhouse not exceeding thirty (30) days, if the amount of such judgment and costs shall not be paid.

Sec. 9. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in Councils this 17th day of April, A. D. 1902.

AN ORDINANCE

Authorizing the Pennsylvania Company, operating the Pittsburg, Ft. Wayne and Chicago Railway, to construct sewers on Lacock street, First ward, from the old canal sewer to Federal street; on Federal street, First and Fourth wards, from Lacock street to the north side of the P., Ft. W. & C. R. W.; on Balkam street, First ward, from Lacock street to P., Ft. W. & C. R. W. right of way; on St. Mary's court, First ward, from Lacock street to P., Ft. W. & C. R. W. right of way; on Vulcan alley, Fourth ward, from Lacock street to Penn street; on Sandusky street, Fourth ward, from Robinson street to the north side of the P., Ft. W. & C. R. W.; Arbuckle alley, from Lacock street to West Penn R. R. to reconnect all houses and inlet connections to the new sewers.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny and it is hereby ordained and enacted by the authority of the same, That the Pittsburg, Ft. Wayne and Chicago Railway, be and it is hereby authorized to construct, at its own proper cost and expense, sewers on the following named streets and alleys in the First and Fourth wards:

Lacock street, from Old Canal sewer to Federal street;

Federal street, from Lacock street to north side of the P., Ft. W. & C. Ry. right of way;

Balkam street, from Lacock street to P., Ft. W. & C. Ry. right of way.

St. Mary's court, from Lacock street to P., Ft. W. & C. Ry. right of way;

Vulcan alley, from Lacock street to Penn street;

Sandusky street, from Robinson street to the north side of the P., Ft. W. & C. Ry.;

Arbuckle alley, from Lacock street to West Penn R. R.;

And to reconnect all house drains and inlets to the new sewers, said sewers to be constructed under the supervis-

ion and subject to the approval of the Director of the Department of Public Works. It being expressly understood and agreed that the said Pennsylvania Company, operating the Pittsburg, Ft. Wayne & Chicago Railway, shall, upon the completion of said sewers, by a written instrument dedicate the same, without stipulation or reservation, to the City of Allegheny.

Sec. 2. As soon as the said sewers are finally completed and all connections made to the satisfaction of the Director of the Department of Public Works, the present main sewer now lying wholly or partially under the right of way of said company from Morgan street to the Old Canal sewer, north of Lacock street, shall be abandoned and the said company shall have the right to remove, fill up or in any other way dispose of the same. Provided, however, that before commencing the construction of the said sewers, the said Pennsylvania Company shall enter into an agreement to hold free and harmless the City of Allegheny from any and all claims for damages whatsoever to property and injuries to persons resulting from the construction of the said sewers.

Authorizing and directing the City Recorder and the City Comptroller of the City of Allegheny to advertise for bids and solicit proposals for interest to be paid to the City of Allegheny on current daily balances of the public funds of the city, to enter into a contract for the custody of said funds with two banks or banking institutions, paying the highest rate of interest on said funds, regulating the manner of disbursing said public funds, and fixing the bond of said depositories.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same That within two weeks after the passage and approval of this ordinance, and in succeeding years within two weeks before the first day of March of each and every year, the City Recorder and City Comptroller of the City of Allegheny are hereby authorized and directed to advertise, by at least three insertions in the official newspapers of the City of Allegheny, for bids or proposals for interest to be paid to the City of Allegheny on current daily balances of the public funds of said City of Allegheny, which bids or proposals shall specify the amount of interest offered on the said current daily balances of the public funds of said City of Allegheny, and upon receiving said bids or proposals the City Recorder and the City Comptroller are hereby authorized and directed to enter into a contract for the custody of the public funds of the City of Allegheny with the two banks or banking institutions of the City of Allegheny offering the highest rate of interest on current daily balances of said public funds.

Sec. 2. It shall be the duty of the banks or banking institutions obtaining the custody of said public funds to pay out the money deposited with them upon the warrant of the City Recorder, drawn upon the City Treasurer, and

Digitized by Google

approved by the City Comptroller, and it shall also be the duty of said banks or banking institutions to render a statement on the first day of each month to the Comptroller of the City of Allegheny showing the amount of the city deposit and the amount of interest due the city on daily balances, and said depositories shall credit said city with the amount of said interest due at the date of each of said monthly statements.

Sec. 3. In the event of a change in the depositories of the city at any time when the contract for the custody of said public funds is entered into with the banks offering the highest rate of interest, the bank or banks having had the custody of said funds for the previous year shall not be required to pay over the city funds to the new depositories until one month after the making of said contract. Provided, that such bank or banks retaining such public funds after the new depository is chosen shall pay all city warrants upon the Treasurer of the City of Allegheny during the time between the making of said contract and the date of payment of said funds to the new depository.

Sec. 4. Each bank or banking institution obtaining the custody of the public funds of the city shall give a bond to the City of Allegheny to be approved by the City Recorder and the City Comptroller of the said City of Allegheny in a sum not less than five hundred thousand ($500.000.00) dollars, with sureties who are hereby required to qualify to the amount of one million ($1,000,000.00) dollars over and above their just debts and liabilities.

Sec. 5. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in Councils, this 15th day of May, A. D. 1902.

AN ORDINANCE

Granting additional rights to the Federal Street & Pleasant Valley Passenger Railway Company, giving it the right to use certain additional streets, avenue and highways for the purposes of its railway; and prescribing the conditions upon which said rights are granted.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That in addition to the rights and privileges heretofore granted to the Federal Street & Pleasant Valley Passenger Railway Company, by various ordinances heretofore enacted and approved, the Federal Street & Pleasant Valley Passenger Railway Company shall have and is hereby granted the consent of the City of Allegheny to enter upon, use and occupy for the purpose of its railway, the streets, avenues and highways of the City of Allegheny herein mentioned; and the said company is hereby authorized to enter upon and lay down a single or double track railway with the necessary turnouts and switches along and over the following route:

Beginning at the intersection of California avenue and Marshall avenue; along Marshall avenue to Perrysville avenue, with right to make connection at California avenue and at Perrysville avenue.

The rights herein granted to the Federal Street & Pleasant Valley Passenger Railway Company are, upon the express condition that the work of building the railway upon the streets and highways herein mentioned shall be commenced in good faith within one year from the date of the approval of this ordinance and prosecuted to completion by said company within two years from said date; otherwise the rights and privileges under this ordinance shall become null and void and of no effect.

Sec. 2. In granting these additional rights to the Federal Street & Pleasant Valley Passenger Railway Com-

pany, it is understood the cars will be operated by means of an overhead electric system, and to this end the said company, its successors, lessees and assigns, is hereby granted the right and privilege to erect and maintain such posts, poles, wires and electrical appliances over and along the streets herein mentioned as may be necessary to operate the cars of said company over said route, or any of them, by means of an overhead electric system.

Sec. 3. The rights granted by this ordinance to the Federal Street & Pleasant Valley Passenger Railway Company are granted subject to all the terms and conditions of an ordinance entitled, "An ordinance granting to the North Side Traction Company, its lessees, successors and assigns, the right to enter upon, use and occupy certain streets, lanes, alleys and highways, and to lease its property and franchises, or either," approved March 17, 1897.

Sec. 4. That the said Federal Street & Pleasant Valley Passenger Railway Company will, within 30 days after the passage or approval of this ordinance, file with the said Comptroller a writing under the corporate seal of said company accepting the provisions and requirements of this ordinance; otherwise this ordinance to be null and of no effect.

Sec. 5. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

AN ORDINANCE

To provide for the licensing of slot machines and other devices set in motion by the insertion of coin, and providing a penalty for the violation thereof.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That from and after the passage of this ordinance any person, firm, corporation or association who or which maintain or exhibit to the public any slot machine or device whatsoever which is operated or set in motion by the insertion of any coin therein, or by any object purchased for the purpose of operating or setting in motion such machine, such person, firm or corporation shall first procure from the City Treasurer a license for the period of one year, or part thereof, which license shall expire on the last day of February following the granting thereof, the same to be graded as follows, to-wit:

For each machine requiring the insertion of a penny (one cent), the license fee of five ($5.00) dollars; and for each machine requiring the insertion of a nickel (five cents) or higher sum, the license fee of fifteen ($15.00) dollars; Provided, that these regulations and charges shall not apply to automatic collection devices used in connection with telephones or gas meters.

Sec. 2. Whenever such license is granted to such person, firm, corporation or association, the City Treasurer shall issue to such person, firm, corporation or association a metal plate, and such metal plate shall be attached and exposed in a conspicuous place on the machine or device for the operation of which the license is granted; provided, that each license for any slot machine issued by the City Treasurer shall give the licensee the privilege of exhibiting such machine at only one place in the city (and as often as the location of any such machine is changed after the

Digitized by Google

license is granted by the City Treasurer a new license will be required to be taken out by the owner of such machine, or his, her or its agent.)

Sec. 3. It shall be unlawful for any person carrying on any business within the limits of the City of Allegheny to allow any person, firm, corporation or association to place any slot machine or device in any store where business is done, nor shall it be lawful for any person owning or renting property within the limits of the City of Allegheny to allow any person, firm, corporation or association to place any slot machine or device on the sidewalks in front of their stores or property unless such machine has exposed on it in a conspicuous place a metal plate issued by the City Treasurer of Allegheny.

Sec. 4. It shall be unlawful for any licensee under this ordinance, or his, her or its agent, to permit the use of any slot machine for the purpose of exhibiting in any manner any immoral picture or obscene printed or written matter, and it shall also be unlawful for any such licensee, or his her or its agent to permit the use of any chance or gambling machine or device.

Sec. 5. It shall be the duty of the Ordinance Officer of the City of Allegheny, or any of the policemen of said city, upon view or information made and warrant issued, to arrest any and all persons violating any of the provisions of this ordinance, and to bring such person or persons before the City Recorder of the City of Allegheny, or any one of the Police Magistrates thereof, and upon being adjudged guilty of the violation of any of the provisions of this ordinance by such City Recorder or Police Magistrates, such person or persons shall be fined for such violation not exceeding ten ($10.00) for any one offense, recoverable with costs, together with judgment of imprisonment in the Allegheny County Jail or Allegheny County Workhouse, not exceeding thirty (30) days, if the amount of such judgment and costs shall not be paid.

Sec. 6. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

AN ORDINANCE

Authorizing the City Recorder to enter into an agreement with S. C. Farrar to pay the said S. C. Farrar the sum of seven hundred thirty-two and fifty hundredths dollars ($732.50) in full of damages to the property of the said S. C. Farrar, located on the north side of Clayton avenue, resulting from the widening and change of grade of said Clayton avenue.

Whereas, By the authority of the laws of the Commonwealth of Pennsylvania, the City of Allegheny opened, widened and changed the grade of Clayton avenue, and upon the petition of the City of Allegheny, viewers were appointed at No. 148 August term, 1900, to assess the benefits and damages for the said improvements, and

Whereas, The said viewers, as appears by their report filed at the above number and term, assessed the said S. C. Farrar on his property located on the north side of Clayton avenue, with benefits in the sum of nine hundred seventy-eight ($978.00) dollars, and awarded him damages in the sum of one thousand seven hundred ten and fifty hundredths ($1,710.50) dollars, and

Whereas, The time for filing exceptions and taking appeals from the report of the said viewers has passed and the said report by reason of exceptions filed thereto and appeals taken therefrom, has not yet been confirmed absolutely by the court, and

Whereas, Neither the said S. C. Farrar nor the City of Allegheny has filed exceptions to nor taken appeals from the action of the Board of Viewers so far as relates to the assessment of benefits and damages against the property of the said S. C. Farrar, and

Whereas, The net damages so assessed as aforesaid are equitable, just, reasonable and adequate, and satisfactory to both the said S. C. Farrar and the City of Allegheny, and the said S. C. Farrar is unable to dispose of his property until the matter is finally determined or a contract

entered into between him and the said city agreeing that the said damages shall be paid to the said S. C. Farrar as soon as this report of the Board of Viewers, or any other subsequent report that may be filed shall be confirmed absolutely.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same. That the City Recorder be and he is hereby directed to enter into an agreement with S. C. Farrar that the net damages of seven hundred thirty-two and fifty hundredths ($732.50) dollars awarded S. C. Farrar at No. 148 August term, 1900, shall be considered as equitable, legal, just, satisfactory and conclusive as to both the said S. C. Farrar and the City of Allegheny and that when the question of benefits and damages by reason of the improvement of Clayton avenue, now pending at the above number and term, shall be finally approved by the Court, the said City of Allegheny will pay unto the said S. C. Farrar the said sum of seven hundred thirty-two and fifty hundredths ($732.50) dollars which shall be in full settlement of the claim of S. C. Farrar for damages from above improvement.

Sec. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

AN ORDINANCE

Granting to the Pittsburg, Fort Wayne & Chicago Railway Company, its lessee, their successors and assigns, the right of way from the works of the American Steel & Wire Company on the west side of Preble avenue, Allegheny City, to a point in the tracks of the Pittsburg, Fort Wayne & Chicago Railway, about four hundred (400) feet southerly from Superior Run avenue viaduct, with the right for said purpose to cross and occupy streets, alleys, highways and property of the City of Allegheny, Pennsylvania.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same. That the Pittsburg, Fort Wayne & Chicago Railway Company, its lessee, their successors and assigns, be and they are hereby authorized and empowered to enter upon, lay down, maintain and operate for themselves, their successors and assigns, a single track railway of standard gauge over, across and along the streets and alleys and upon the property of the city as hereinafter set forth, on the following route, to-wit:

Beginning at a point in the west line of Preble avenue at property of the American Steel & Wire Company, said point being one hundred and sixty (160) feet, more or less, southerly from the northerly property line of said American Steel & Wire Company; thence by a curved line southeasterly about five hundred (500) feet to a point near the intersection of Superior Run avenue and West Market street; thence southerly about four hundred and fifty (450) feet to a point in the tracks of the Pittsburg, Fort Wayne & Chicago Railway about four hundred (400) feet southerly from the Superior Run avenue viaduct, in accordance with plan attached hereto, marked

Digitized by Google

"Exhibit A." dated May 9, 1902, and bearing the indorsements of the Director of the Department of Public Works and the Chief Engineer of the Pennsylvania Company.

Section 2. The said track shall be constructed and maintained across Preble avenue overhead at such an elevation as to give a clearance of not less than twenty (20) feet over Preble avenue, and the said railway company may and is hereby permitted to support the bridge structure over Preble avenue by columns standing at the curb or street lines.

The said track shall be constructed under Superior Run avenue viaduct so as to afford sufficient clearance for operating purposes between the proposed new viaduct and the track, provision being made for relocating and rebuilding the present viaduct as set forth in an ordinance of the City of Allegheny, providing for the rebuilding and relocating of the Superior Run avenue viaduct over the Pittsburg, Fort Wayne & Chicago Railway, the Ohio Connecting Railway and the Cleveland & Pittsburg Railroad, from California avenue to Preble avenue, with approaches to West Market street and Preble avenue, and for a change of grade on a portion of Superior Run avenue.

Section 3. In consideration of the City of Allegheny granting the within franchise, the Pittsburg, Fort Wayne & Chicago Railway Company agrees to build and maintain two (2) foot bridges over their tracks, one at or near Boston street and California avenue and landing about Ontario street and Preble avenue, the other from or near Porter street and Cass avenue and landing at a point opposite at or near California avenue. The form and manner of construction of said bridges to be satisfactory to the Director of the Department of Public Works, and to be begun within three months after the passage of this ordinance and finished within one year thereafter.

Ordained and enacted into a law in Councils this 17th day of July, A. D. 1902.

AN ORDINANCE

Providing for the rebuilding and relocating of the Superior Run avenue viaduct over the Pittsburg, Fort Wayne & Chicago Railway, the Ohio Connecting Railway, and the Cleveland & Pittsburg Railroad, from California avenue to Preble avenue, with approaches to Preble avenue and West Market street, in the City of Allegheny, Pennsylvania, and for said purpose changing the grade of a portion of Superior Run avenue.

Whereas, In 1883, the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway and the Cleveland & Pittsburg Railroad, constructed a viaduct from Superior Run avenue over their tracks to Preble avenue, with an approach from the north on Preble avenue, and with an approach from the south of West Market street, and

Whereas, It is desirable to rebuild the said viaduct at a different grade and in a different location, now, therefore,

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway and the Cleveland & Pittsburg Railroad, and the Ohio Connecting Railway Company, be and they are hereby authorized and empowered, in lieu of the present viaduct, to construct and maintain a new steel viaduct with masonry foundations, wooden floor and footwalks, and substantial iron railings, from the easterly property line of the Pittsburg, Fort Wayne & Chicago Railway Company to the northerly or easterly line of Preble avenue, in accordance with the plan dated the 9th day of May, 1902, bearing the indorsements of the Director of the Department of Public Works and the chief engineer of the said railway companies.

Digitized by Google

The said viaduct shall have two sidewalks six (6) feet each clear width from the easterly line of the Pittsburg, Fort Wayne & Chicago Railway Company's property to the easterly line of Preble avenue. The south approach to the viaduct from West Market street shall have one footwalk six (6) feet clear width, along the easterly side, and a roadway having a clear width of twenty-one (21) feet, and the north approach to the viaduct from Preble avenue shall have one footwalk six (6) feet clear width, along the easterly side, and a roadway having a clear width of twenty-one (21) feet.

Section 2. The street grade at the intersection of California avenue and Superior Run avenue be and the same is hereby fixed at its present level, at an elevation of seven hundred eighty-one and one-tenth (781.1) feet above mean datum of the Atlantic ocean as used by the railway company for its elevation; thence westerly by an ascending grade of one and one-half (1½) feet per hundred (100) feet to a point over the tracks of the Pittsburg, Fort Wayne & Chicago Railway, where the elevation shall be seven hundred eighty-four and one-tenth (784.1) feet, which elevation shall be maintained for a distance of about eighty-two (82) feet; thence descending toward Preble avenue by a grade of six (6) feet in one hundred (100) feet to a point whose elevation shall be seven hundred sixty-seven and three-tenths (767.3) feet where the approach from West Market street from the south connects with the viaduct proper; thence descending toward Preble avenue by a grade of six (6) feet in one hundred (100) feet to a point whose elevation shall be seven hundred fifty-six and six tenths (756.6) feet; thence northerly by an approach along Preble avenue on a grade of six (6) feet per hundred (100) feet, reaching the present elevation of Preble avenue. The approach from West Market street to the viaduct to be on a grade of six (6) feet per hundred (100) feet.

Sec. 3. In the construction of the approach along West Market street, the said companies may and they are hereby permitted to use the east eighteen (18) feet of West Market street from said street southerly to the south end of the approach. From said street northerly to the con-

Digitized by Google

nection with the viaduct, the approach to be constructed over West Market street and property now belonging to the Ohio Connecting Railway Company, as shown on the plan before referred to.

Sec. 4. In the construction of the approach along Preble avenue, said companies may and they are hereby permitted to use five (5) feet of the easterly sidewalk of Preble avenue.

Sec. 5. The said viaduct and approaches on West Market street and Preble avenue shall be forever maintained in good condition by the said railway companies.

Sec. 6. The said railway companies shall at their own cost reconstruct and relocate the said viaduct at Superior Run avenue, in lieu of the present viaduct, with north and south approaches to Preble avenue and West Market street, and shall also assume all costs and expense properly incurred in the said change of grade of Superior Run avenue, from California avenue to the property of the Pittsburg, Fort Wayne & Chicago Railway Company, including all damages to property legally sustained in consequence thereof, and shall also save the city free and harmless from any and all claims or demands for damages arising from or out of the reconstruction or relocation of the said viaduct and approaches hereinbefore provided for.

Sec. 7. The said railway companies shall not make any claim for damages to their respective properties on account of the vacation of streets and alleys, rendered necessary by the reconstruction and relocation of the said Superior Run avenue viaduct, or on account of the change of grade of Superior Run avenue as hereinbefore provided for.

Sec. 8. The said Pennsylvania Company and the Ohio Connecting Railway Company shall within sixty (60) days from the passage of this ordinance, file with the City Comptroller a duly certified copy of the resolutions passed by the boards of directors of the said companies, respectively, accepting and agreeing to this ordinance in all its provisions and stipulations; otherwise this ordinance shall be void and of no effect.

Sec. 9. The Pennsylvania Company agrees to pay for all private property taken or damaged by reason of the

Digitized by Google

construction of the within mentioned improvements or the operation of cars over the same. And further agrees to indemnify and keep the City of Allegheny harmless from all claims for damages done to private property by reason of this ordinance and shall file a bond satisfactory to the City of Allegheny for the proper compliance with all the provisions of this ordinance.

Ordained and enacted into a law in Councils this 17th day of July, A. D. 1902.

AN ORDINANCE

Granting the Ohio Connecting Railway Company and the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, the right of way from a point on the present line of the Ohio Connecting Railway about seven hundred and thirty (730) *feet west of the west line of Preble avenue, to a point in the tracks of the Pittsburg, Fort Wayne & Chicago Railway, at or near Island avenue, and for said purpose granting the Ohio Connecting Railway Company, and the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, the right to cross and occupy streets, alleys, highways and property of the City of Allegheny, Pennsylvania.*

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same. That the Ohio Connecting Railway Company and the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, be and they are hereby authorized and empowered to enter upon, lay down, maintain and operate for themselves, their lessors, successors and assigns, a double track railway of standard gauge, over, across and along the streets and alleys and upon the

Digitized by Google

property of the city, as hereinafter set forth, on the following route, to-wit:

Beginning at a point in the present track of the Ohio Connecting Railway about seven hundred and thirty (730) feet west of the west line of Preble avenue; thence by a curved line to the east about one hundred and seventy (170) feet; thence by a tangent line about four hundred and thirty (430) feet to a point at or near Preble avenue; thence by a curved line southeasterly about eight hundred (800) feet, crossing Preble avenue overhead, crossing the tracks of the Cleveland & Pittsburg Railroad and the Pittsburg, Fort Wayne & Chicago Railway overhead, and crossing under the Viaduct at Superior Run avenue; thence southerly about one thousand (1,000) feet to a point in the tracks of the Pittsburg, Fort Wayne & Chicago Railway at or near Island avenue, in accordance with the plan attached hereto, dated May 9, 1902, bearing the indorsements of the Director of the Department of Public Works and the chief engineer of the Pennsylvania Company; it being understood that the privileges hereby granted shall pertain to and be exercised by the said Ohio Connecting Railway Company and the Pennsylvania Company severally with respect to the different portions of said tracks, which said companies by agreement between themselves shall elect to severally construct and maintain.

Sec. 2. The said tracks shall be constructed and maintained across Preble avenue, at such elevation as to give a clearance of not less than thirty (30) feet over Preble avenue, and the said railway companies may and are hereby permitted to support the bridge structure over Preble avenue by columns standing at the curb or street lines. The said tracks shall be constructed under Superior Run avenue viaduct so as to afford sufficient clearance for operating purposes, between the proposed new viaduct and the railroad, provision being made for changing the height of the present viaduct, as set forth in an ordinance of the City of Allegheny, providing for the relocation and rebuilding of the Superior Run avenue viaduct over the Pittsburg, Fort Wayne & Chicago Railway, the Ohio Connecting Railway and the Cleveland & Pittsburg Railroad, from California avenue to Preble avenue, with approaches

Digitized by Google

to West Market street and Preble avenue, and for a change of grade on a portion of Superior Run avenue.

Sec. 3. The said Ohio Connecting Railway Company and the Pennsylvania Company operating the Pittsburg, Fort Wayne & Chicago Railway shall, upon the acceptance of the provisions of this ordinance file a suitable and proper bond, conditioned for the faithful performance of all the provisions of this ordinance.

Sec. 4. The said railway company shall indemnify, save and keep harmless the City of Allegheny from all damages to private property caused by the passage of this ordinance.

Sec. 5. The railway company shall compensate the owners of private property for all property taken, injured or destroyed by reason of the passage of this ordinance.

Ordained and enacted into a law in Councils this 17th day of July, A. D. 1902.

STIPULATION.

Whereas, There are now pending in the Councils of the City of Allegheny six (6) certain ordinances as follows, to-wit:

1st. An ordinance granting the Ohio Connecting Railway Company and the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, the right of way from a point on the present line of the Ohio Connecting Railway, about 730 feet west of the west line of Preble avenue, to a point in the tracks of the Pittsburg, Fort Wayne & Chicago Railway, at or near Island avenue, and for said purpose granting the Ohio Connecting Railway Company and the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, the right to cross and occupy streets, highways, alleys and property of the City of Allegheny, Pennsylvania, which in the original draft provided and required that the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway to rebuild the Island avenue viaduct and approach thereto.

2d. An ordinance providing for the rebuilding and relocating of the Superior Run viaduct over the Pittsburg,

Digitized by Google

Fort Wayne & Chicago Railway, the Ohio Connecting Railway and the Cleveland & Pittsburg Railroad, from California avenue to Preble avenue and West Market street, in the City of Allegheny, Pennsylvania, and for said purpose change the grading of a portion of Superior Run avenue.

3d. An ordinance granting to the Pittsburg, Fort Wayne & Chicago Railway Company, its lessee, their successors and assigns, the right of way from the works of the American Steel & Wire Company on the west side of Preble avenue, Allegheny City, to a point in the tracks of the Pittsburg, Fort Wayne & Chicago Railway about 400 feet southerly from Superior Run viaduct, with the right for said purpose to cross and occupy streets, alleys, highways and property of the City of Allegheny, Pennsylvania.

4th. An ordinance providing for the vacation of an unnamed alley in the City of Allegheny, Pennsylvania.

5th. An ordinance providing for the vacation of a part of West Market street, in the City of Allegheny, Pennsylvania.

6th. An ordinance providing for the vacation of a part of Superior Run avenue, City of Allegheny, Pennsylvania.

Now this Stipulation Witnesseth, That the said Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, hereby agrees with the City of Allegheny, that if the ordinance first above mentioned is passed by the Councils of the City of Allegheny, and approved by the City Recorder, by amending said ordinance so as to exclude sections 3, 4, 5 and 9, relating to the construction and maintenance of a new steel viaduct with proper approach thereto, over and across the tracks of said railway company at Island avenue, in said City of Allegheny, and shall pass the other five ordinances hereinabove recited, that the said Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, its successors and assigns, will, at any time hereafter, at the request of the proper officers of the City of Allegheny, after an ordinance is duly passed and approved by said City of Allegheny authorizing the rebuilding and widen-

Digitized by Google

ing of said approach and steel viaduct at Island avenue, grant to the said City of Allegheny permission to reconstruct, widen out and extend the present abutments and supports for said approach and steel viaduct, on the property of said company, the width and character of said approach and viaduct to be determined by the City of Allegheny, the understanding being that the new bridge shall span the tracks in one span, and that the abutments shall be maintained in such manner as to provide the same clearance as at present at the outside tracks under said bridge.

And further, the said Pennsylvania Company, operating the said Pittsburg, Fort Wayne & Chicago Railway, agrees that it will not, at any time, oppose the laying of street car tracks or the operation of street cars over and upon the present viaduct, or any which may hereafter be constructed at Island avenue.

It is stipulated that the provisions of an ordinance entitled "An ordinance authorizing the Pennsylvania Company and the Pittsburg, Fort Wayne & Chicago Railway Company to construct an iron or steel viaduct across their road at Strawberry lane, at the junction of Strawberry lane and California avenue, to the east side of Wayne street," duly passed by the Councils of the City of Allegheny on the 18th day of July, 1883, and approved by the Mayor of said city on July 19th, 1883, are not to be changed in any manner whatever, and any and all rights vested in the City of Allegheny by said last mentioned ordinance are to be unchanged and unaffected by this stipulation.

Witness the corporate seal of the said Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway Company, and the signature of its Vice-President and Secretary, this 25th day of July, A. D. 1902.

PENNSYLVANIA COMPANY.
Operating the Pittsburg, Fort Wayne & Chicago Railway.

Attest:

S. B. LIGGETT,
Secretary.

By J. J. TURNER,
Vice-President.

AN ORDINANCE

Submitting to a vote of the electors of the City of Allegheny the question of an increase of the bonded indebtedness of the city for the payment of the cost and expense of grading, paving and curbing of McIntyre avenue, Tenth ward, from Perrysville avenue to Ellwood avenue, under the provisions of an act of Assembly approved the 12th day of June, A. D. 1893, entitled "An act providing a system whereby cities may pave streets and alleys, pay the cost thereof by the issue of bonds and collect the same from the property benefited, in instalments."

Whereas, It has been ascertained by the Councils of the City of Allegheny, by an estimate duly made by the Department of Public Works, that the grading, paving and curbing of McIntyre avenue, Tenth ward, from Perrysville avenue to Ellwood avenue, can be made at a cost of twenty thousand six hundred and thirty-five dollars, and

Whereas, Bonds for the purpose of this improvement under the aforesaid act of Assembly can only be issued by the assent of the electors duly given at a public election; therefore,

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That an election be held on the 4th day of November, 1902, for the purpose of obtaining the assent of the electors of the city to an increase of its indebtedness by the issue of bonds to the extent of twenty thousand six hundred and thirty-five ($20,635.00) dollars, for the purpose of effecting said improvement under the aforesaid act of Assembly, said bonds to be payable in five (5) years. The City Clerks are hereby directed to give public notice of said election and furnish tickets for the use of the electors in accordance with law.

Digitized by Google

Sec. 2. The City Recorder and the Directors of the Departments of Public Safety and Public works are hereby authorized and directed to appoint suitable persons to be present at each and every polling place for the purpose of caring for and distributing said tickets, the expense of employing such men to be paid out of the Contingent Fund.

Sec. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in Councils this 18th day of September, A. D. 1902.

To authorize and direct the proper officer or officers in the name and on behalf of the City of Allegheny, to enter into and execute a contract with the Western Pennsylvania Railroad Company, a corporation under the laws of the State of Pennsylvania, and the Pennsylvania Railroad Company, a like corporation, whereby said Western Pennsylvania Railroad Company may change and elevate a part of the line of its railroad within the limits of the said city.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same. That the proper officer or officers of the said city be and are hereby authorized and directed in the name and on behalf of the City of Allegheny to enter into and execute a contract with the Western Pennsylvania Railroad Company and the Pennsylvania Railroad Company in the following form, to-wit:

CONTRACT.

This agreement, made this .... day of ....., A. D. one thousand nine hundred and two, between the City of Allegheny (hereinafter called the "City"), as first party, and the Western Pennsylvania Railroad Company, a corporation under the laws of the State of Pennsylvania (hereinafter called "Railroad Company"), as second party, and the Pennsylvania Railroad Company, a like corporation, lessee of said Western Pennsylvania Railroad Company, and joining herein to express its consent to the making of this contract (hereinafter called "Lessee"), as third party, witnesseth:

Whereas, The railroad of the said railroad company enters the limits of the said city, and the tracks of the said

Digitized by Google

railroad within the limits of said city are laid across a number of public streets at grade; and

Whereas, The said railroad company contemplates a change of a portion of its said railroad by elevating its tracks in such manner as to reduce the number of grade crossings and thereby secure the safety of lives and property and promote the interests of said city, and the said city, deeming said change and elevation and reduction of grade crossings resulting therefrom adapted to secure and promote the best interests of the city and of the public, is willing that such change be made; and

Whereas, The said city has heretofore, by written agreement, given its consent to the Pennsylvania Company, operating the railway of the Pittsburg, Fort Wayne & Chicago Railway Company, to relocate, change, elevate and depress its said railroad in said city, between McClure avenue and the Allegheny river bridge; and

Whereas, In and by said recited agreement between the city and the Pennsylvania Company, more particularly in the twentieth and twenty-first paragraphs thereof, provision is made that the tracks of the railroad company shall be raised to an elevation corresponding to that provided in said contract for the tracks of the Pittsburg, Fort Wayne & Chicago Railway Company, crossing Anderson and Sandusky streets, and that the said railroad company should never construct any track or tracks at any grade other than that fixed by the said contract at Anderson street or Sandusky street, or any street west thereof;

Now This Agreement Witnesseth:

First. The said city hereby assents and agrees that the said railroad company may change the elevation of its tracks between a point about two hundred (200) feet east of Bridge street and the eastern line or side of Federal street, as follows:

Gradually ascending from the point first above mentioned, proceeding westwardly, the tracks shall cross Bridge street at eight tenths (0.8) of a foot above the present grade;

Still ascending, said tracks shall cross McFadden street on a bridge of iron or steel at an elevation of seven (7) feet above the present grade of McFadden street.

Digitized by Google

Still ascending, and proceeding westwardly, the tracks shall cross over Pine street, at an elevation above the present grade of said Pine street to give a minimum clearance of twelve (12) feet, to under side of bridge; and shall cross over Sycamore street with a minimum clearance of thirteen (13) feet above the present grade; and over Chestnut street with a minimum clearance of twelve and four tenths (12.4) feet above the present grade, and over Madison avenue, with a minimum clearance of thirteen (13) feet above the present grade and shall connect with the tracks of the Pittsburg, Fort Wayne & Chicago Railway Company, as elevated under the above recited agreement with the city at or near the eastern end of the present freight station of the railroad company; proceeding thence over Anderson and Sandusky streets to the eastern line of Federal street, with a minimum clearance of thirteen feet at said Sandusky and Anderson streets.

And the city agrees that the said railroad company may elevate, construct, maintain and operate its tracks upon the grade and elevations hereinbefore described, and for this purpose to make, construct and maintain all necessary bridges, piers, posts, pillars, abutments or other work or appliances which may be necessary or proper for this purpose, at the proper cost and expense of it, the said railroad company. The said railroad company shall also have the right, if in its judgment the same may be necessary, to place within the curb lines of each of the streets in this contract named iron or steel columns to support said bridges.

Second. The line of McFadden street under the tracks of said railroad company shall be changed as follows: Commencing at the present line of said street at the south side of said tracks, thence to a point at the north side of said tracks twenty-five (25) feet westwardly from the present line of said street; and the said city shall depress the grade of said McFadden street about five (5) feet, so as to give a clearance of ten (10) feet to the under side of said bridge over said street, and revise the grade of the approach to said McFadden street as far as may be required by the aforesaid depression of grade of five (5) feet at the railroad crossing. And said city shall pass all

Digitized by Google

necessary ordinances to establish such grade, and to provide for the grading of said street to said new grade.

Third. Said railroad company agrees to pay the cost of grading and paving McFadden street to said new grade within the limits of said change of grade as fixed by ordinance, and to indemnify and save the city harmless from all lawful claims for damage to property occasioned by or growing out of the said change of grade.

Fourth. The railroad company agrees, at its own cost and expense, to construct and maintain the abutments, necessary supports and superstructures, which, pursuant to this agreement, will be required to carry its tracks between the points designated at the elevations described, facing the abutments at Anderson and Sandusky streets with light colored brick. It further agrees to raise the existing stone wall on Ohio street three feet above its present level and to construct thereon a good and substantial fence to be satisfactory to the Director of the Department of Public Works of the City of Allegheny, and to maintain the same in perpetual good condition.

Fifth. The said lessee joins as a party hereto for the sole purpose of expressing its consent to the making of this contract.

Sixth. This agreement shall extend to and bind the parties hereto, their successors and assigns, respectively.

Witness the corporate seal of the City of Allegheny, and the signatures of the City Recorder, the Director of the Department of Public Works and the City Comptroller and the corporate seal of the Western Pennsylvania Railroad Company, and the signatures of its president and secretary, and the corporate seal of the Pennsylvania Railroad Company, and the signatures of its .... vice-president and .... secretary, the day and year first above written; this agreement being executed and delivered by and on behalf of the said City of Allegheny pursuant to the ordinance of the said city, entitled, "An ordinance to authorize and direct the proper officer or officers in the name and on behalf of the City of Allegheny to enter into and execute a contract with the Western Pennsylvania Railroad Company, a corporation under the laws of the

AN ORDINANCE

To authorize and direct the proper officer or officers in the name and on behalf of the City of Allegheny, to enter into and execute a contract with the Western Pennsylvania Railroad Company, a corporation under the laws of the State of Pennsylvania, and the Pennsylvania Railroad Company, a like corporation whereby said Western Pennsylvania Railroad Company may change and elevate the grade of Bridge street across Herrs island and also construct a siding from the tracks of the Western Pennsylvania Railroad Company to Herrs island.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same. That the proper officer or officers of the said city be and are hereby authorized and directed in the name and on behalf of the City of Allegheny to enter into and execute a contract with the Western Pennsylvania Railroad Company and the Pennsylvania Railroad Company in the following form, to-wit:

CONTRACT.

This agreement, made this .... day of ....., A. D. one thousand nine hundred and two, between the City of Allegheny (hereinafter called the "City"), as first party, and the Western Pennsylvania Railroad Company, a corporation under the laws of the State of Pennsylvania (hereinafter called "Railroad Company"), as second party, and the Pennsylvania Railroad Company, a like corporation, lessee of said Western Pennsylvania Railroad Company, and joining herein to express its consent

Digitized by Google

to the making of this contract (hereinafter called "Lessee"), as third party, witnesseth:

Whereas, The said railroad company contemplates establishing a switch or connection from its main track, over and across back channel to Herrs island in said city; and,

Whereas, The said railroad company further proposes to elevate the grade of the street known as Bridge street across said Herrs island for the purpose of avoiding grade crossings of the said street with its several tracks, and thereby secure the safety of lives and property and promote the interests of said city; and,

Whereas, The said city, deeming the said contemplated changes and the reduction of grade crossings resulting therefrom adapted to secure and promote the best interests of the city and of the public, is willing that such changes be made;

Now This Agreement Witnesseth:

First. The said city hereby assents and agrees that the said railroad company may change the elevation of Bridge street across Herrs island from the western terminus of the Thirtieth (30th) street bridge at the line of the Allegheny river to the eastern line of Ohio street in said city. as follows:

At the point first above mentioned, Bridge street shall be elevated to an elevation of fifty-eight and seven hundredths (58.07) feet, city datum.

Thence descending from said point in a westerly direction upon a six per cent. (6 per cent.) grade, a distance of one hundred and eighty-three (183) feet to an elevation of forty-seven and seven one hundredths (47.07) feet, city datum.

Thence proceeding westwardly on a level grade seventy (70) feet.

Thence proceeding westwardly ascending upon a six per cent. (6 per cent.) grade, one hundred and thirty-eight (138) feet to an elevation of fifty-five and thirty-seven one hundredths (55.37) feet, city datum.

Thence proceeding westwardly on a level grade crossing the back channel to the western end of the point imme-

Digitized by Google

diately over the abutment at the western end of the Bridge street bridge;

Thence ascending on a five and eight tenths (5.8) grade a distance of one hundred and thirty-four and one-half (134½) feet to an elevation of sixty-three and seventeen one hundredths (63.17) feet, city datum;

Thence proceeding westwardly at a level grade of fifty-five (55) feet;

Thence descending northwardly and eastwardly by six per cent. (6 per cent.) grades to the eastern line of Ohio street at its present grade;

Also to permit the following changes in the grade of streets connecting with Bridge street;

River avenue, beginning at a point distant southwardly from Bridge street three hundred and fifty (350) feet;

Thence ascending upon a seven and five-tenths (7.5) grade to Bridge street at its proposed elevation.

Franklin street, from Bridge street extending back a sufficient distance to make said grade or approach from the present surface of Franklin street to the proposed grade to Bridge street not to exceed six per cent. (6 per cent.).

Second. Said city further assents and agrees that the said railroad company may construct a siding connection from the main tracks or line of said railroad company at a point about four hundred (400) feet west from McFadden street and crossing River avenue, giving a clearance over the present surface of River avenue of sixteen (16) feet;

Thence extending across back channel to Herrs island.

Third. The said railroad company is to make said changes on Bridge street and streets connecting therewith as hereinbefore indicated at its own proper cost and expense, and to complete and finish said work in a proper and workmanlike manner and to the approval of the engineer of the said city, and the same to keep in good order and repair in so far as said improvements or changes are upon city property or upon highways over which the said city has control;

Said railroad company shall also indemnify and save

Digitized by Google

harmless the city from any loss or damage resulting from the proposed changes of grades of streets.

Fourth. Said city further agrees to pass such ordinance or ordinances directing the change of grade of said Bridge street and the said several streets connecting therewith, as may be proper or necessary in connection with and as a part of this contract.

Fifth. Two (2) separate blue prints, the marked Exhibit "A" and showing the change in elevation of Bridge street and streets connecting therewith, together with the proposed plan of construction thereof; and the second marked Exhibit "B," showing the location of said siding connection as hereinbefore described, are hereto attached and made a part of this contract for the purpose of supplying further and in detail the description hereinbefore given.

Sixth. The said lessee joins as a party hereto for the sole purpose of expressing its consent to the making of this contract.

Seventh. This agreement shall extend to and bind the parties hereto and their successors and assigns respectively.

Witness the corporate seal of the City of Allegheny, and the signatures of the City Recorder, the Director of the Department of Public Works and the City Comptroller and the corporate seal of the Western Pennsylvania Railroad Company, and the signatures of its president and secretary, and the corporate seal of the Pennsylvania Railroad Company, and the signatures of its .... vice-president and .... secretary, the day and year first above written; this agreement being executed and delivered by and on behalf of the said City of Allegheny pursuant to the ordinance of the said city, entitled, "An ordinance to authorize and direct the proper officer or officers in the name and on behalf of the City of Allegheny to enter into and execute a contract with the Western Pennsylvania Railroad Company, a corporation under the laws of the State of Pennsylvania, and the Pennsylvania Railroad Company, a like corporation, whereby said Western Pennsylvania Railroad Company may change and elevate a part of the line of its railroad within the limits of said city,"

AN ORDINANCE

Authorizing the issue of one hundred and forty-seven thousand two hundred and two dollars Brighton Road Bonds, to pay the cost of grading, paving and curbing of Brighton road, from Washington avenue to the city line.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That an issue of registered bonds in the name of the City of Allegheny to the amount of one hundred forty-seven thousand two hundred and two ($147,202.00) dollars, to be designated "Brighton Road Bonds," in accordance with an act of Assembly entitled, "An act providing a system whereby cities may pave streets and alleys, pay the cost thereof by the issue of bonds and collect the same from the property benefited, in instalments," approved June 12th, 1893, and the same be and is hereby authorized and directed.

Sec. 2. Said bonds shall be of the denomination of one thousand dollars or multiples thereof, payable in five years from October 1st, 1902, with interest thereon at the rate of four per cent. per annum, payable semi-annually at the office of the City Controller in the City of Allegheny, Pa., and the principal thereof payable at maturity at the same place, said bonds to be signed by the City Recorder and Treasurer, and countersigned by the Controller and sealed with the corporate seal of the city, and the proceeds thereof shall be applied exclusively for the payment of the cost of grading, paving and curbing of Brighton road, from Washington avenue to the city line, and to no other purpose whatsoever.

Said bonds to be issued and sold to the Sinking Fund Commission of the City of Allegheny at par.

Sec. 3. Upon the collection of the cost of said grading, paving and curbing of Brighton road in the manner pre-

AN ORDINANCE

Submitting to a vote of the electors of the City of Allegheny the question of an increase of the bonded indebtedness of the city for the payment of the cost and expense of grading, paving and curbing of Fleming avenue, Eleventh ward, from Antrim street to Termon avenue, under the provisions of an act of Assembly approved the 12th day of June, A. D. 1893, entitled "An act providing a system whereby cities may pave streets and alleys, pay the cost thereof by the issue of bonds, and collect the same from the property benefited, in installments."

Whereas, It has been ascertained by the Councils of the City of Allegheny by an estimate duly made by the Department of Public Works, that the cost of grading, paving and curbing of Fleming avenue, Eleventh ward, from Antrim street to Termon avenue, can be made at a cost of forty-eight thousand four hundred and sixty ($48,460) dollars, and

Whereas, Bonds for the purpose of this improvement under the aforesaid act of Assembly can only be issued by the assent of the electors duly given at a public election, therefore

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny and it is hereby ordained and enacted by the authority of the same, That an election be held on the 17th day of February, 1903, for the purpose of obtaining the assent of the electors of the city to an increase of its indebtedness by the issue of bonds to the extent of forty-eight thousand four hundred and sixty ($48,460) dollars, for the purpose of effecting said improvement under the aforesaid act of Assembly, said bonds to be payable in five (5) years.

Nos. 41, 42, 59, and 60, at $18.57 per annum.

No. 235, at $12.38 per annum.

Sec. 2. The city will furnish light for the market house free of charge under the supervision and direction of the Director of the Department of Public Works, and in case any leaseholder shall desire to have more light than the Director of the Department of Public Works may direct, or should the leaseholder desire to secure electrical power for the operation of fans, the said leaseholder may secure the same from the light or light and power companies supplying light and power in the market house. Any person interfering with electric wires or lamps (cleaning excepted) shall be subject to a fine of not less than five

Digitized by Google

($5.00) dollars, to be recovered summarily before any Police Magistrate or Alderman of the city.

Sec. 3. The double row of market stalls designated as butchers' stalls and numbering from 1 to 80, shall be leased and occupied exclusively by butchers, for the purpose of selling meat, with the exceptions of Nos. 9, 51, 53, 54, 56, 59, 64, 66, 69 and 71, which may be used for garden produce and other purposes, and Nos. 64, 66, 68, 70, 72, 74, 76 and 78, which stalls may be used for the sale of fish and oysters and other purposes, in which case, however, the rent of said stalls shall be increased over and above the price fixed in Section 1, of this ordinance, as follows:

Nos. 51, 53, 54, 56, 64, 66, 69 and 71, 10 per cent.

Nos. 59 and 68, 20 per cent., and

Nos. 9, 70, 72, 74, 76 and 78, 40 per cent.

Sec. 4. The single row of stands back of the butchers' stalls, toward Ohio and Federal streets, shall be reserved for farmers, free of charge, for the sale of butter, eggs and poultry only, but in case the said farmers shall sell other products they shall pay daily rent as per Section 10, of this ordinance. If said stands are not occupied by farmers the same may be used by transient persons at the discretion of the Superintendent of the Market, and under the instruction of the Director of the Department of Public Works, for the daily rent as provided in Section 10, of this ordinance.

Sec. 5. Stalls designated as garden stalls shall be leased to gardeners for the sale of their own produce as far as there is a demand, but surplus stalls may be leased to persons selling at second hand, at an increase of 50 per cent. over and above the rate fixed in Section 1 of this ordinance.

Sec. 6. In the absence of the owners, the garden stands may be rented to transient persons, at the discretion of the Superintendent of Markets, and under the instruction of the Director of the Department of Public Works, at rates given in Section 10, of this Ordinance.

Sec. 7. All leaseholders must restrict themselves to the proper lines of their stalls, and in no way encroach on the aisles by putting boxes, barrels or any article outside of

Digitized by Google

their line. No wheelbarrows, trucks or carts shall be allowed inside the market house during market hours.

Sec. 8. All applications for leases in the market building shall be made to the Director of the Department of Public Works, and no leaseholder or leaseholders shall be allowed to sub-let his, her or their lease during any part of the specified term, except, subject to the approval of the Director of the Department of Public Works and the Superintendent of Markets.

Sec. 9. The public markets shall be held in the market house daily (except Sundays) during such hours as the Director of the Department of Public Works shall fix, provided, however, that Tuesday, Thursday and Saturday of the week shall be designated as regular market days, and said Director of the Department of Public Works is hereby authorized to close the market house on Christmas, New Year's and Thanksgiving Days; and in case that any of the above named holidays fall on a regular market day the market shall be held on the preceding day, and the market kept open until 10 o'clock p. m., and as Decoration Day and Fourth of July come in the warm months, on these days the market shall be closed at 10 o'clock a. m. It shall be the duty of the Superintendent of Markets to make this known by hand bills posted in the market house for two weeks preceding any such holidays.

Sec. 10. Dealers in flour, hogs or meat sold by the quarter, or more, or other articles sold by weight, shall be provided with stands by the Superintendent of Markets so far as there are any stands vacant, and no flour, hogs, meat by the quarter or more, or produce sold by the weight or measure, shall be offered for sale on any of the streets, squares or pavements surrounding the market house, unless by authority of the Superintendent of Markets, and at a price to be fixed by him, not less than twenty-five (25) cents, nor more than five ($5.00) dollars. All hogs or beef by the quarters or more, flour or grain of any kind sold in the market shall be weighed on the city scales, and any person selling the said articles without having the same weighed, shall pay a fine of $5.00, to be recovered summarily.

Digitized by Google

Sec. 11. The annual rents of all stalls and rooms in the corners of the market house shall be due and payable quarterly in advance on the first days of January, April, July and October. The Director of the Department of Public Works, through his subordinate officer, the Superintendent of Markets, shall collect said rents and give duplicate receipts therefor, and they shall be held responsible for all rents remaining unpaid for fifteen days after they become due, unless the Superintendent of Markets shall in the meantime have placed the same in the hands of the Controller for collection. All leasers of stalls, stands or rooms who fail to pay their rent within thirty (30) days from the time the same becomes due, shall at the option of the city, be deemed to have forfeited their leases.

Sec. 12. Butchers' stalls shall not be occupied for any other purpose than that of selling butchers' meat thereon, except as provided for in Section 3, of this ordinance. Each butcher shall occupy his or her stall. Transient butchers or other persons selling meat by a less quantity than the quarter, may occupy any vacant stall, under the direction of the Superintendent of Markets, and shall be charged for the same such sums as shall be fixed by the Committee on Public Works, not less than $2.00 per day.

Sec. 13. No alteration of any stand or stall shall be made without the written consent of the Director of the Department of Public Works, and any person violating this section shall pay a fine of not less than $5.00 or more than $25.00, and the cost of restoring the stall to its former condition.

Sec. 14. Blocks, benches, tubs, baskets, etc., used by or belonging to persons having stalls or stands, must be kept within the limits of the stall or stand, and not obstruct the passages. Any person violating this section shall pay a fine of $5.00 for each offense, to be recovered summarily.

Sec. 15. Any person who shall deface or assist in defacing any part of the market house, or anything therein used for market purposes, whether belonging to the city or to those occupying stalls or stands, or shall post printed or written matter thereon, or break or cut any woodwork,

Digitized by Google

shall pay a fine of not less than $5.00 nor more than $25.00, as well as the cost of repairing the damage.

Sec. 16. All vehicles bringing articles for sale in the market shall be unloaded and immediately driven off. Any person violating this section shall pay a fine of $5.00 for each offense.

Sec. 17. No person shall by himself or his employes, sell or expose for sale any unsound, unwholesome or tainted or diseased meat, fish or vegetables in the market, and any person, whether employer or employes, violating this section shall pay a fine of not less than $5.00 nor more than $50.00.

Sec. 18. No person shall slay or cleanse any beast or fowl within the market house, nor place any offal, hides, pelts or skins therein, under penalty of $5.00.

Sec. 19. No meat shall be salted in the market house, or pickle brine thrown therein or on the pavements around the same, under penalty of $5.00.

Sec. 20. No person shall bring any dog within the market house, under penalty of $2.00, to be recovered summarily.

Sec. 21.—The occupants of the rooms in the corners of the market house shall not sell or give away any spirituous or malt liquors, wine or cider, or any admixture thereof, under penalty of $25.00 for the first offense, and $50.00 and a forfeiture of the lease for the second offense, but this section shall not prevent druggists occupying any of said rooms from selling liquors under the laws of the Commonwealth regulating sale of liquors by druggists.

Sec. 22. No person shall keep or store, or cause to be kept or stored, in the market house, or in any of the corner rooms thereof, except in room on northwest corner (drug store), any explosive or inflammable oil or liquid, under penalty of not less than $10.00 nor more than $100.00, and forfeiture of the lease if there be one.

Sec. 23. The Director of the Department of Public works shall have a general supervision over the market house, and enforce all ordinances and rules relating thereto. The Superintendent of Markets shall collect all rents, including rooms in the corners, and shall issue receipts in duplicate therefor, as well as for all moneys re-

Digitized by Google

ceived by him. He shall pay over all moneys received monthly, in such form as the Controller shall require. He shall be provided with proper books in which he shall enter all cash received, from whom and when received and on what account, whether regular or transient, and the stall, stand, places or rooms, as the case may be, which book shall be at all times open to the examination of the Committee on Public Works and Controller. Any person who shall in any manner interfere with the Superintendent of Markets in the performance of the duties of his office shall be fined not less than $2.00 nor more than $10.00.

Sec. 24. The Committee on Public Works shall have the power from time to time, to make any rules and regulations necessary for the government of market and the market house, not inconsistent herewith.

Sec. 25. All leaseholders of spaces, stalls or stores, in the market building, shall have the first option to lease at rates named in this ordinance.

Sec. 26. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in Councils this 18th day of December, A. D. 1902.

AN ORDINANCE

Authorizing and directing the proper officers of the City of Allegheny to advertise for bids and execute a contract for appliances to repair the pumping engines at Montrose.

Whereas, One of the piston heads and the appliances connected therewith in the pumping engines at Montrose are broken and entirely useless, and a public emergency exists in that city's water supply may at any time be shut off, in the event of another piston head of said pumping engine becoming in any way inoperative; and

Whereas, The proper officers of the city have no authority without an ordinance of Councils to contract for the necessary repairs of said pumping engines; therefore,

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny and it is hereby ordained and enacted by the authority of the same. That the City Recorder and the Director of the Department of Public Works are hereby authorized to advertise for bids and to execute a contract with the lowest responsible bidder for a piston head, follower, packing rings, etc. necessary to make the repairs to the pumping engines at Montrose, Pa., and to pay for the same out of Appropriation No. 12.

Sec. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Authorizing the Western Bridge Company to erect, construct and maintain a bridge and its approaches over the Ohio river.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That the Western Bridge Company be and is hereby authorized to erect, construct and maintain a bridge and its approaches thereto over the Ohio river within the limits of the City of Allegheny, from a point on Preble avenue about five hundred (500) feet north of Wilkins avenue; thence in a westerly direction along Edison street to the right of way of the Pittsburg & Western Railway, and thence crossing the Ohio river to a point in McKees Rocks borough, in accordance with its charter granted to said company under the laws of the State of Pennsylvania, and in strict accordance with the act of Congress approved April 30th, 1902, authorizing the construction and maintenance of said bridge over the Ohio river; provided, that the approach to said bridge shall be constructed under the direction and supervision of the Director of the Department of Public Works and in accordance with the accompanying plan.

Sec. 2. The said bridge company in the construction of said approach and bridge shall be liable for damages to any owner of private property for any injuries which shall be done to his, her or their property in as full a measure as is now provided by law, notwithstanding the passage of this ordinance.

Sec. 3. The construction of said bridge and approach shall be commenced within six (6) months and completed within two (2) years from and after the passage and approval of this ordinance.

Sec. 4. The said Western Bridge Company agrees to indemnify and save the City of Allegheny harmless from

AN ORDINANCE

Authorizing the payment of interest on deferred instalments due on the contract between L. A. Thompson and the City of Allegheny for the erection of the buildings for the male and female insane at Claremont.

Whereas, In pursuance of an ordinance duly enacted by the City Councils of the City of Allegheny, L. A. Thompson entered into an agreement on April 3, 1901, with the said city for the erection and construction of the buildings for the male and female insane at Claremont, the payment for which buildings was provided for in instalments in said contract from the proceeds of the sale of bonds issued by the city for that purpose; and

Whereas, The said L. A. Thompson at the request of the City of Allegheny began the work under said contract on or about April 15, 1901, and various instalments of money became due to him under said contract on or before December 28, 1901. That by reason of the failure of the City of Allegheny to realize its money from the sale of said bonds, until the 28th day of December, 1901, the said L. A. Thompson was compelled to await payment of said instalments due on said contract until after said money was paid to the City of Allegheny on said bonds. to wit, January 6, 1902; and

Whereas, The said L. A. Thompson signed the instalments due to him under said contract from the city between the 15th day of April, 1901, and the 28th day of December, 1901, to the Dollar Saving Fund & Trust Company, and the Workingman's Savings Bank & Trust Company, of the City of Allegheny, on which estimates he was compelled to pay to the Dollar Saving Fund & Trust Company and the Workingman's Savings Bank & Trust Company interest in the amount of $576.20, therefore,

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same,

Levying taxes and assessing water rents for the fiscal year beginning March 1, 1903.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That for the purpose of providing sufficient revenue to meet the ordinary expenses of the city to pay interest on outstanding bonds and to discharge all other liabilities now due or which may become payable during the said year, beginning March 1, 1903, taxes shall be and are hereby levied and assessed upon all property and other objects of taxation as follows, viz.: City taxes—Upon all property taxable for State or county purposes, fourteen and one-half (14½) mills upon each dollar of valuation except the property in said city designated as rural, upon which the tax shall be assessed at two-thirds of said rate: and upon all property designated as agricultural the tax shall be assessed at one-half of said rate; upon all property taxable for State or county purposes (exclusive of improvements) a tax of three-tenths (3-10) of one mill, for the purpose of paying interest on all Sewer Bonds of the city not otherwise provided for by the Sinking Fund.

Sec. 2. And at the above rate the Board of Assessors shall assess said taxes, and the City Treasurer shall have no power to divide any item of tax as reported by the Board of Assessors.

Sec. 3. That the rates of vehicle licenses for 1903 shall remain the same as fixed by ordinance approved July 26, 1895, entitled "An ordinance relative to the licensing of vehicles in the City of Allegheny."

Sec. 4. That the following shall be the rates of water rents: One room, $2.50; two rooms, $4.00; three rooms, $5.75; four rooms, $7.25; five rooms, $8.75; six rooms, $10.25. Houses containing more than six rooms shall be assessed an additional $1.50 per room; large rooms (equal in size to two common rooms) shall be assessed as two

Digitized by Google

rooms; elevators, hotels, taverns, boarding houses, drinking saloons, cotton factories, breweries, tanneries, malt houses, and all places where steam is used shall be charged special rates, to be fixed by the Committee on Public Works, except when supplied by water measure, then the rate shall be one (1) cent per hundred gallons; also a further rate, exclusive of any rate that may be charged by the foregoing, on the following items, viz.: Public baths, each tub, the sum of $10.00; private baths, each (cold water), $2.00; private baths, each (hot and cold water), $3.00; water closets, public and private, not less than $2.00 nor more than $10.00; private dwellings, each additional closet, half rates; Ives', McKissock's or similar closets, each, $12.00; plug wash hand basins, each, $1.50; carriages, omnibuses, buggies, etc., $2.50 to $10.00; horses, each, $1.50; cows, each, 75 cents; slaughtering houses, each, from $10.00 to $50.00; storerooms, separate and apart from dwellings, from $2.50 to $10.00; hydrants or any other arrangements (separate from hydrants in common use) for washing pavements, from $1.00 to $10.00; and garden or lawn hose, from $2.50 to $12.00: saloons, from $15.00 to $40.00, where pumps are used, each, $5.00 additional; barber shops, one chair, $5.00, for each additional chair used, $3.00; blacksmith shops, each forge, $2.00; churches, from $3.00 to $7.00; schools, from $5.00 to $25.00; offices, separate from dwellings and stores, $2.00; bakeries, for each barrel of flour baked, 1 cent; fountains in yards or gardens, a jet of three-sixteenths (3-16), $5.00, each additional jet, $2.00; brick yards, for each 1,000 bricks made, 10 cents. All the above indefinite assessments to be made at the discretion of the Superintendent of Bureau of Water Assessments. Permits for sprinkling the streets will be granted by the Superintendent of Bureau of Water Assessments on the terms to be fixed by the Director of the Department of Public Works. The Committee on Public Works may suspend the use of water for sprinkling streets whenever, in their opinion, the public exigencies may require it. Any person or persons believing themselves aggrieved by the Superintendent in levying the water tax, may at any time appeal for redress to the Committee on Public

AN ORDINANCE

Confirming the sale of the real estate and buildings of Engine House No. 10, situate on Lafayette avenue, in the Tenth ward of the City of Allegheny, to John Heisch for one thousand eight hundred and fifty ($1,850 00) dollars, and authorizing the City Recorder to execute a deed for the same.

Whereas, By ordinance duly approved, the proper officers were duly authorized to advertise and sell at public sale the real estate and buildings of Engine House No. 10, situate on Lafayette avenue, in the Tenth ward of the City of Allegheny; and

Whereas, After due and proper notice being given thereof, the same was sold at public sale on November 28, 1902, to John Heisch for the price or sum of one thousand eight hundred and fifty ($1,850.00) dollars, he being the highest bidder, and that being the highest and best price bidden for the same; therefore,

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That the said sale is hereby confirmed and the City Recorder is hereby directed to execute a deed for the said property, described as follows:

All that certain lot or piece of ground situate in the Tenth ward of the City of Allegheny, County of Allegheny and State of Pennsylvania, being purpart No. 11, in the plan of the partition of the estate of Peter Peterson, deceased, filed at No. 642 of October term, 1876, No. 35, in partition in the Court of Common Pleas No. 2, Allegheny county, bounded and described as follows, to-wit:

Beginning at the corner of the street thirty-three (33) feet wide (now Lafayette avenue) and an alley eighteen (18) feet wide (now Koerner alley); thence along said

Digitized by Google

alley, north 12½ degrees west, one hundred and twenty (120) feet to the corner of purpart No. 11 in said partition; thence along the line of said purpart No. 11 north 77½ degrees east, forty (40) feet to a pin; thence by a line parallel with said alley, south 12½ degrees east, one hundred and twenty (120) feet to said street thirty-three (33) feet wide; thence along said street south 77½ degrees west, forty (40) feet to the place of beginning, known as Engine House No. 10, unto John Heisch and deliver the same upon payment of the sum of one thousand eight hundred and fifty ($1,850.00) dollars.

Sec. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in Councils this 4th day of March, A. D. 1903.

AN ORDINANCE

Granting unto the McKees Rocks & Allegheny Street Railway Company, its successors, lessees, and assigns, the right to enter upon, use and occupy certain streets and highways in the City of Allegheny.

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same That consent of Councils is hereby given to the McKees Rocks & Allegheny Street Railway Company, its successors, lessees and assigns to construct, maintain and operate a street railway and for that purpose to enter upon, use and occupy the following streets and highways within its route, to-wit:

Beginning on Preble avenue at its intersection with Hanover street; thence along Preble avenue to Wilkins avenue; thence westerly along Wilkins avenue to Preble avenue; thence northerly along Preble avenue to Edison street, and thence westerly along Edison street on the approach to the bridge to be erected by the Western Bridge Company across the Ohio river to the city line, and returning by the same route to the place of beginning; with the right to connect to the tracks of the Pittsburg, Allegheny & Manchester Traction Company on Preble avenue at Hanover street, and to construct, maintain, operate and use during the term named in its charter its street railway as hereinbefore mentioned, with double tracks, with the necessary sidings, turnouts and switches, and to operate its cars thereon and to use electricity as a motive power, and to erect, maintain and use in the streets and highways aforementioned such posts, poles and other supports as said company may deem convenient for the support and maintenance of such overhead system.

Sec. 2. Said company shall lay an ordinary street car rail upon said streets, such as may be used by other vehicles and of a weight not less than 90 pounds per yard.

Digitized by Google

The tracks shall gauge 5 feet 2½ inches and shall be paved in each track and between tracks and for a width of one (1) foot on the outside thereof with Ligonier block stone and all work shall be done under the direction and supervision of the Department of Public Works.

Sec. 3. Said company shall pave and keep in repair all such pavements and the Director of the Department of Public Works shall be the sole judge of the necessity of such repairs and paving.

Sec. 4. The Councils reserve the right from time to time to establish such regulations as may be necessary for repairing and repaving, curb-setting, laying pipes for water, gas or other purposes in said streets, and to prevent obstructions by said railway company while making said repairs. And the said company in constructing its line shall conform to the grade of the streets as now or hereafter established.

Sec. 5. The construction of the railway provided for in this ordinance shall begin within one (1) year from the approval of this ordinance and shall be completed within two years from that time.

Sec. 6. This ordinance shall not go into effect or be published until the company shall accept the same by its proper officers, covenanting at the same time that the failure to comply with any of its provisions shall work a revocation of its privileges by this ordinance granted, and said acceptance shall be filed within thirty (30) days after the passage of this ordinance.

Sec. 7. The company shall, in addition to the provisions of this ordinance be subject to all general ordinances in relation to and affecting street railways, provided the same shall be binding upon all street railways in the city.

Sec. 8. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in Councils this 19th day of March, A. D. 1903.

AN ORDINANCE

Authorizing the City Recorder and Director of the Department of Public Works to lease for the term of five years a portion of the wharf in the Eighth ward, to the National Sand & Gravel Company, a corporation under the laws of the State of Pennsylvania, for the annual rental of three hundred ($300.00) *dollars, payable quarterly in advance.*

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same That the City Recorder and the Director of the Department of Public Works be and are hereby authorized and directed to execute a lease to the National Sand & Gravel Company, for so much of the Allegheny river wharf, in the Eighth ward, as lies between the right of way of the Pittsburg & Western Railroad Company and the low water line of said river and extends from a point opposite the east line of the Allegheny Water Works in a northeastwardly direction for a distance of three hundred (300) feet; for a period of five (5) years, for the annual rental of three hundred ($300.00) dollars, payable quarterly in advance. The said portion of wharf to be used for the purpose of conducting thereon a sand and gravel business.

Provided, said National Sand & Gravel Company file a bond with the City Comptroller in the sum of five thousand ($5,000.00) dollars, conditioned that the City of Allegheny will be saved harmless from any and all damages that may be done to any person or corporation by reason of the making of the lease provided for by this ordinance, or of any other damage caused in any way by reason of exercising the privileges hereby conferred.

And provided further, that said National Sand & Gravel Company stipulate in said lease to vacate all the property authorized by this ordinance to be leased to it, and all

AN ORDINANCE

Providing for the vacation and re-location of a part of Ferry lane, situate in the Eleventh ward, City of Allegheny, Pennsylvania.

Whereas, An ordinance has been heretofore duly passed and approved granting the Ohio Connecting Railway Company and the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, the right of way for the construction of a connecting line from the Ohio Connecting Railway at or near the northerly or easterly bank of the Ohio river to a point in the tracks of the Pittsburg, Fort Wayne & Chicago Railway, to rebuild the Superior run avenue viaduct and approaches thereto; and

Whereas, Another ordinance has been heretofore duly passed and approved providing for the rebuilding and relocating of the Superior Run avenue viaduct over the Pittsburg, Fort Wayne & Chicago Railway, the Ohio Connecting Railway, and the Cleveland & Pittsburg Railroad, from California avenue to Preble avenue, with approaches to Preble avenue and West Market street; and,

Whereas, In order to carry out and further the improvements contemplated by said ordinances it is necessary for said Pennsylvania company, operating the Pittsburg, Fort Wayne & Chicago Railway, to occupy and use a triangular portion of Ferry lane north of Railroad street, for railroad purposes; and,

Whereas, The Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, or the Ohio Connecting Railway Company, has secured or agrees to bear the expense of securing the ground immediately east of Ferry lane and north of Reserve street for a relocation of Ferry lane; now, therefore,

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same,

Digitized by Google

That that portion of Ferry lane, in the Eleventh ward, extending in a southerly direction from a point in the center line of said lane distant one hundred seventy-four and fifteen hundredths (174.15) feet north from the southerly line of Reserve street, be and the same is hereby relocated as follows, to-wit: Being thirty-three (33) feet wide, the same being sixteen and five-tenths (16.5) feet in width on each side of the following described center line:

Beginning at a point in the center line of Ferry lane as at present located, distant one hundred seventy-four and fifteen hundredths (174.15) feet northwardly from the southerly line of Reserve street and extending thence south twenty-eight degrees east (S. 28° E.), one hundred thirty-nine and eighty-seven hundredths (139.87) feet to a point in the northerly line of Reserve street, one hundred twenty-four and fifty-four hundredths (124.54) feet westwardly from the northwest corner of Reserve street and California avenue; Provided, however, that such relocation shall not take effect unless the Ohio Connecting Railway Company or the Pennsylvania Company shall file a good and sufficient bond with the Director of Public Works of the City of Allegheny, conditioned for the payment unto the City of Allegheny by the company so filing said bond of any and all expense which the said city shall incur in procuring the necessary land for such relocation of Ferry lane and the opening of the portion of said lane so relocated.

Sec. 2. That upon the filing of the bond provided for in the preceding section hereof, the Director of Public Works be, and he is hereby authorized and directed to open the portion of said Ferry lane so relocated as provided for in the preceding section hereof.

Sec. 3. That when the portion of said Ferry lane hereinabove relocated shall have been opened for the use of the public, the following described portion of Ferry lane as said lane now exists shall be and is hereby ordained to become vacated, to-wit: Beginning at the point where the westerly line of Ferry lane is intersected by the southerly line of Reserve street; thence north fourteen degrees fifty-six minutes west (N. 14° 56″ W.), along the westerly line

Providing for the vacation of a part of Florida street, in the Eleventh ward, City of Allegheny, Pa.

Whereas, An ordinance has been introduced in the Select and Common Councils of the City of Allegheny providing for a relocation and change in grade of the Ohio Connecting railway from the northerly or easterly bank of the Ohio river to the northerly city line at Jacks run; and

Whereas, Florida street, laid out in Ridgeview Land Company plan of lots, now terminates at the west end of Verner road; and

Whereas, The Ohio Connecting Railway Company has acquired lots 94, 95, 96, 97, 98, 99, 135, 136, 137, 138, 139, 140, 141, 142 and 143, abutting on Florida street on the north and south sides thereof; and

Whereas, It is desirable to vacate so much of Florida street as is bounded on the north by lots 94 to 99, inclusive, and on the south by lots 142 and 143 in said Ridgeview Land Company plan of lots, in order to permit of the re-location of Verner road, as provided for in another ordinance; now, therefore,

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same. That the following described part of Florida street be and the same is hereby vacated, to-wit: All that part of Florida street bounded on the north by lots 94 to 99, inclusive, and on the south by lots 142 and 143, in the Ridgeview Land Company plan of lots.

AN ORDINANCE

Granting the Ohio Connecting Railway Company the right of way from its bridge over the Ohio river to a point in the northerly city line at or near Jacks run, Allegheny City, Pennsylvania, with the right for said purpose to cross and occupy intervening streets, alleys and highways in the City of Allegheny, Pennsylvania.

Whereas, By an agreement between the City of Allegheny, by R. T. Pearson, Mayor, and the Ohio Connecting Railway Company, dated July 15th, 1889, provision was made for the construction of bridges over Preble avenue and McClure avenue, in the Eleventh ward of the City of Allegheny, also for the construction of a viaduct with approaches over the tracks at the crossing of Verner road; and,

Whereas, An agreement was made November 1st, 1901, between the City of Allegheny and the Pennsylvania Company, operating the Pittsburg, Fort Wayne & Chicago Railway, providing for the elevation, change, relocation and depression of said railway in said city, and providing for a subway under the Pittsburg, Fort Wayne & Chicago Railway and the Ohio Connecting Railway at McClure avenue; and,

Whereas, It is necessary and desirable in connection with the execution and carrying out of the last mentioned agreement that the track or tracks of the Ohio Connecting Railway be relocated and its elevation changed where it crosses the intervening streets; now, therefore,

Section 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same, That the Ohio Connecting Railway Company, its successors and assigns, be and it is hereby authorized and empowered to enter upon, relocate, maintain and operate for itself, its successors and assigns, a standard gauge railway

Sec. 3. That when the said Ohio Connecting Railway Company secures the necessary right of way, that the said railway company be and is hereby authorized and empowered, in lieu of the present Verner road from Spruce street to Davis avenue, to substitute a new street northerly thereof, as shown on plan attached hereto, marked "Exhibit A." The width of said street to be forty (40) feet and the grade to be substantially the same as on present street. Said railway company shall at its own cost reconstruct and extend Spruce street viaduct in case the same be necessary, in lieu of the present viaduct where it crosses the Pittsburg, Fort Wayne & Chicago Railway and the Ohio Connecting Railway, the grades on said reconstructed viaduct to be no steeper than on the present viaduct or its approach.

Sec. 4. The said railway company shall, at its own cost, reconstruct and relocate Verner road, between Spruce street and Davis avenue, in lieu of the present road, and shall assume all costs and expenses, including all damages to property legally sustained in consequence thereof, and shall save the city free and harmless from any and all claims or demands for damages arising from or out of the relocation of said road; and when said road is relocated, the city shall vacate so much of the present road as is needed for the reconstruction of the Ohio Connecting railway.

Sec. 5. The Ohio Connecting Railway Company shall pay for all private property taken, including damages to property legally sustained by reason of the reconstruction of its railway or the operation of cars over the same, and further agrees to indemnify and keep the city of Allegheny harmless from all claims for damages done to private property by reason of this ordinance.

PREAMBLE AND RESOLUTION

Relative to the erection by Andrew Carnegie, Esq., of a monument in memory of Colonel James Anderson, in the City of Allegheny.

Whereas, In 1898, Mr. Andrew Carnegie, through W. N. Frew, Esq., submitted a proposition to erect a monument, which was to be a work of art, in memory of Colonel James Anderson on such part of the public ground of the City of Allegheny as should be designated for the purpose by the Councils of this city, and

Whereas, The proposition of Mr. Carnegie was accepted by Councils, but the monument has not yet been completed nor has the site therefor been designated, therefore be it

Resolved, By the Select and Common Councils of the City of Allegheny, That a committee of five, two from Select and three from Common Council, be appointed, in conjunction with the Presidents of Councils and the City Recorder to confer with the representatives of Mr. Carnegie relative to the proposed monument to Colonel Anderson, and together to agree upon a site therefor and to submit its recommendations in relation thereto to Councils for their action.

Passed finally in Councils, April 29th, 1902.

Approved by the City Recorder, April 30th, 1902.

PREAMBLE AND RESOLUTION

Exonerating Miss Letitia J. Lacock from the payment of assessments of benefits amounting to $264.00 for the grading, paving and curbing of Fountain street, in the Third ward, and from the costs of lien entered for the same.

Whereas, The property of Miss Letitia J. Lacock, which fronts sixty feet, more or less, on Fountain street was not benefited by the grading, paving and curbing, and change of grade of Fountain street, but on the contrary, was damaged by the lowering of the street in front of her property, and

Whereas, Notwithstanding the fact that she was damaged by said improvement, she was assessed by the viewers thereon for benefits in the sums of $162.00 and $102.00, and liens for the same have been entered by the city, now therefore be it

Resolved, By the Select and Common Councils of the City of Allegheny, That the said Miss Letitia J. Lacock is hereby exonerated from the payment of said assessments of $162.00 and $102.00 for benefits, and that the City Attorney is hereby authorized to satisfy the liens entered for the same and to charge the costs thereon to the City of Allegheny. This exoneration being allowed with the express understanding that said Miss Letitia J. Lacock waives any claim against the city which she might or could have on account of the making of said improvement.

Passed finally in Councils, May 15th, 1902.

Approved by the City Recorder, May 21st, 1902.

PREAMBLE AND RESOLUTION

Relative to the existence of Strawberry lane, from the New Brighton turnpike, now Brighton road, to Charles street, and of a public road, from the New Brighton turnpike to John street, now Farris street.

Whereas, In the original plan of the Town of Allegheny, as laid out by the State of Pennsylvania, Strawberry lane was laid out from the New Brighton turnpike to Charles street, and in 1847 a public road was laid out and opened from said turnpike to John street, and

Whereas, Said lane and road have for a long term of years been closed to public travel, whether legally or not is uncertain, therefore be it

Resolved, By the Select and Common Councils of the City of Allegheny, That the Committee on Surveys is hereby instructed to inquire and ascertain by what authority said highways have been closed to public travel and to report the result of their investigation to Councils, together with such measures for their action as may be required to effect the opening again of said lane and road to public travel, in case said committee shall find that they have never been legally closed.

RESOLUTION

Exoncrating Mary E. Rafferty from the payment of a lien for her pro rata share of the cost of grading, paving and curbing Fountain street, in the City of Allegheny.

Whereas, The City of Allegheny has graded, paved and curbed Fountain street, in the Third ward of said city, and by reason of said improvement has caused a lien to be filed at No. 13 May Term, 1900, M. L. D., against Mary E. Rafferty in the sum of $102.00 for her pro rata share of the cost of said improvement; and

Whereas, The said Mary E. Rafferty has not been in any manner benefited by reason of said grading, paving and curbing of Fountain street aforesaid, therefore be it

Resolved, By the Select and Common Councils of the City of Allegheny, That the said Mary E. Rafferty be and is hereby exonerated from the payment of the lien filed against her at No. 13 May Term, 1900, M. L. D., amounting to the sum of $102.00, together with interest and costs thereon, and the City Solicitor is hereby authorized and directed to satisfy said lien of record.

PREAMBLE AND RESOLUTION

Upon the retirement of Hon. John M. Goehring from the Common Council of the City of Allegheny.

Whereas, Hon. John M. Goehring is about to retire from membership in this body and from the position of President, which he has held for well nigh four years, to enter upon his duties as State Senator, to which office he has just been elected by the citizens of this Senatorial district, and, accordingly, it seems to us appropriate, at this time, to place on record our estimate of him as a man and an official, therefore,

Resolved, By the Common Council of the City of Allegheny, That in Hon. John M. Goehring we recognize a man of high character and of unusual ability, a faithful and capable representative of the people in Council, and a watchful, painstaking guardian of their interests. As President, he has discharged the duties of the office with fidelity, impartiality and the greatest courtesy to the members of the Councils and city officials, and he deserves and is hereby tendered our warmest thanks for the qualities he has displayed in the discharge of his duties.

We part with him with regret and earnestly wish for him a successsful future.

Passed by the Common Council, November 11th, 1902.

RESOLUTION

Authorizing the appointment of a committee of five, three from Common and two from Select Council, to confer with a similar committee from Pittsburg Councils relative to connecting water mains.

Resolved, By the Select and Common Councils of the City of Allegheny, That a committee of five, consisting of three from Common and two from Select Council (to be appointed by the respective Chairmen) be appointed to confer with a similar committee from the Councils of the City of Pittsburg with reference to agreeing upon the terms of a contract to be entered into between the City of Pittsburg and the City of Allegheny to connect the two water mains of the said cities, in order that either city may use water from the main of the other city in case of an emergency.

Passed finally in Councils, November 20th, 1902.

Approved by the City Recorder, November 24th, 1902.

RESOLUTION

Providing for the appointment of a special committee to confer with the United States Engineers with reference to the raising of bridges over the Allegheny river.

Resolved, By the Select and Common Councils of the City of Allegheny, That a special committee, two from Select and three from Common Council, in conjunction with the Presidents of Councils and the City Solicitor, be appointed to confer with the United States Engineers with reference to raising the bridges over the Allegheny river.

Passed finally in Councils, November 20th, 1902.

Approved by the City Recorder, November 24th, 1902.

RESOLUTION

Protesting against the raising of the bridges crossing the Allegheny river, between the City of Allegheny and the City of Pittsburg.

Whereas, An effort is being made to induce the United States government to compel the raising of the bridges over the Allegheny river, connecting the City of Allegheny and the City of Pittsburg, and

Whereas, The raising of the said bridges will necessitate the changing of the grades of streets leading up to the same and thus cause great damages to property on said streets and be detrimental to the interests of the City of Allegheny, therefore be it

Resolved, By the Select and Common Councils of the City of Allegheny, That we enter an earnest protest against the raising of said bridges or any of them.

Resolved Further, That the City Solicitor be authorized to attend the hearing on said matter before the United States engineers and enter the protest of the city against the raising of said bridges.

Passed finally in Councils, December 18th 1902.

Approved by City Recorder, December 20th, 1902.

RESOLUTION

Exonerating the Redemptorist Fathers of the State of Pennsylvania from part of their taxes for the years 1898,1899, 1900, 1901 *and* 1902, *on certain property in the Thirteenth ward, and authorizing the Delinquent Tax Collector to compromise the same and satisfy liens therefor.*

Whereas, The taxes against the following described property of the Redemptorist Fathers of the State of Pennsylvania, amounting to:

For the year 1898	$ 809 72
For the year 1899	770 02
For the year 1900	798 79
For the year 1901	772 02
For the year 1902	785 87
Total	$3,936 42

are excessive by reason of the fact that the valuation of said property has been too high, and whereas the sum of $2,020.00 would be a reasonable and fair compromise of said taxes, therefore be it

Resolved, By the Select and Common Councils of the City of Allegheny, That the Delinquent Tax Collector be and he is hereby authorized and directed to receive from the Redemptorist Fathers of the State of Pennsylvania, a corporation, the sum of $2,020.00, in satisfaction of the city taxes for the years 1898, 1899, 1900, 1901 and 1902, assessed against two certain tracts of land situate on Trov Hill road, Gardner street and Lowry street, in the Thirteenth ward of the City of Allegheny, and that the said Delinquent Tax Collector is hereby authorized, upon receipt of said sum to satisfy of record delinquent tax liens Nos. 450 April Term 1900, 451 April Term 1900, 450 April Term 1901, 460 April Term 1901, 456 April Term 1902, and 457 April Term 1902, upon payment of the costs by the said Redemptorist Fathers of the State of Pennsylvania.

Passed finally in Councils, January 26th, 1903.

Approved by the City Recorder, January 28th, 1903.

RESOLUTION

Designating the Workingman's Savings Bank & Trust Company of Allegheny and the Provident Trust Company of Allegheny as City Depositories for the custody of public funds until March 1, 1904.

Whereas, By ordinance approved May 21st, 1902, the City Recorder and Controller were authorized to advertise for bids from banks and banking institutions in the City of Allegheny for interest to be paid to the City of Allegheny on daily balance of public funds, and further to enter into a contract with two banks or banking institutions offering the highest rate of interest on current daily balances of public funds; and

Whereas, The City Recorder and City Controller have advertised for bids under the authority given by said ordinances and the Workingman's Savings Bank & Trust Company and the Provident Trust Company, both of the City of Allegheny, bid the highest rate of interest to be paid to the city for the custody of the public funds thereof; therefore, be it

Resolved, That the said Workingman's Savings Bank & Trust Co. and the Provident Trust Co. of the City of Allegheny, are hereby designated City Depositories until March 1st, 1904, and until a new contract for the custody of said funds is entered into with these or some other institutions, and upon complying with the conditions of said ordinance, authorizing the City Recorder and City Controller to advertise for bids and enter into a contract with two banks or banking institutions offering to pay the highest rate of interest on daily balances of public funds, approved May 21st, 1902, the Act of Assembly of March 7th, 1901, and its supplements, and the proposals of the said depositories herein designated.

Passed finally in Councils, March 19th, 1903.

Approved by the City Recorder, March 20th, 1903.

RESOLUTION

Authorizing the Legal Department to satisfy certain liens on Norwood avenue sewer and charge the costs thereon to the city.

Resolved, By the Select and Common Councils of the City of Allegheny, That the Legal Department be and is hereby authorized and directed to satisfy the liens entered against the following named persons for Norwood avenue sewer, and to charge the costs thereon, amounting to ten dollars and fifty cents ($10.50) in each case, to the City of Allegheny:

Mrs. R. Richardson (Jos. K. Richardson), Alice Dewey, Ella Jones, Miss E. W. Richardson, A. E. Jones, W. H. and Margaret C. Brown, B. Faust, Mrs. A. L. Behring (Luca A. Behring), M. W. Grier, Sarah V. Fielding.

Passed finally in Councils, March 19th, 1903.

Approved by the City Recorder, March 20th, 1903.

RESOLUTION

Exonerating the Highwood Cemetery from an assessment of $243.00 benefits for construction of main sewer on Holmes street, Fifteenth ward.

Resolved, By the Select and Common Councils of the City of Allegheny, That the Highwood cemetery be exonerated from the assessment made against it by the Board of Viewers for main sewer on Holmes street, in the Fifteenth ward, amounting to the sum of two hundred forty-three ($243.00) dollars, for the reason that the said sewer is constructed through the private property of said cemetery and is no benefit thereto.

Passed finally in Councils, March 19th, 1903.

Approved by the City Recorder, March 20th, 1903.

RESOLUTION

Expressive of the appreciation of Common Council for the character and services of Samuel McElroy, Esq., President of the body.

Resolved, By the Common Council of the City of Allegheny, That at this closing meeting of this body and therefore the occasion of its final dissolution, we would express our appreciation of the character and services of Samuel McElroy, Esq., who has served as President of this body since the date of the resignation of Hon. John M. Goehring, the former incumbent.

Assuming the duties of the presidency without previous experience he has shown an aptness for their performance and a degree of familiarity therewith that commands our admiration.

He has been prompt, energetic, efficient and faithful to the interests of the public whom he has served, while his urbanity and uniform courtesy have won for him our sincere regard.

We congratulate the incoming Councils that he has again been re-elected to Councils and that he has consented to be a candidate for the presidency of Council believing that he will be to them, as to us, eminently satisfactory in the discharge of his duties, and that he will continue to be a faithful guardian of the public interests.

Unanimously adopted by Common Council, March 24th, 1903.

PREAMBLE AND RESOLUTION

Refunding the estate of Fred Westphal, deceased, the sum of $151.16 on account of assessment for the construction of sewer on Grand avenue.

Whereas, Fred Westphal was assessed the sum of four hundred eighty dollars and ninety-seven cents ($480.97), for the cost of construction of sewer on Grand avenue, being at the rate of $1.75 per foot on 274.84 feet of ground owned by him on said avenue, which assessment he paid November 2d, 1899, under protest, and

Whereas, The city settled with other property holders on said avenue at a rate not exceeding $1.20 per foot, or fifty-five (55) cents per foot less than the rate paid by said Westphal, which would amount on his total frontage of 274.84 feet to $151.16, and

Whereas, Equity requires that his estate (said Westphal being now deceased) should be refunded this difference, thus placing the said estate on an equal footing with the other property owners assessed for said improvement: therefore be it

Resolved, By the Select and Common Councils of the City of Allegheny, That the City Comptroller is hereby instructed to issue a certificate for a warrant on the City Recorder in favor of the estate of Fred Westphal, deceased, in the sum of one hundred fifty-one dollars and sixteen cents ($151.16) for the purpose of equalizing the assessments of the several property owners on Grand avenue for the cost of construction of sewer thereon.

Passed finally in Councils, March 24th, 1903.

Approved by the City Recorder, March 31st, 1903.
